Preface

Chapter 1: Green Building Materials

Evaluation of the Thermomechanical Response of Geopolymeric Mortars Manufactured from Peruvian Mining Residues and its Comparison with Portland Cement Mortars C.K. Palomino-Ñaupá, V.C. Bringas-Rodríguez and F.A. Huamán-Mamani	3
Performance of Metakaolin-Based Geopolymer Incorporating Recycled Plastic Aggregate Y.R. Alharbi	11
Mechanical Evaluation of Geopolymer Mortars Derived from Gold Mining Tailings under Different Atmospheres L.Y. Rosell-Pardes, C.K. Palomino-Ñaupá, V.C. Bringas-Rodríguez and F.A. Huamán-Mamani	19
Development of Ultra-High Performance Geopolymer Concrete Containing Recycled Fine Aggregate Replacement A.A. Abadel	27
Functionally Graded Concrete: Structural Design and Effect on Sustainability Parameters B. Kondraivendhan and T. Rathi	37
Effect of Short-Term Outdoor Exposure on Fatigue Property of Japanese Cedar under Cyclic Loading H. Katogi	45
Influence of Chopped Carbon Fibers Addition with Different Curing Methods on the Mechanical Properties of Cement Mortar Performance S.S. Abdulhussein, S.F. Alkhafaji and R.M. Kudadad	51
Circular Economy: Upcycling Wood Byproducts from the Azores into Building Insulation Material H. Daruari, A. Peixinho, A. Rocha, F. Gaspar and P. Mendonça	59
Effect of Three Surface Protectors on Surface Cracking and Discoloration of Pinus Radiata Wood, after Accelerated Aging by UV Rays and Humidity V.J. Pilco-Mamani, L.F. Cayllahua-Quispe, J.J. Chavez-Gutierrez, K. Ayala-Castro and R. Chara-Llaque	65

Chapter 2: Geotechnics and Structural Engineering

<i>In Situ</i> Large Scale Direct Shear Test for Evaluating Compaction Work of Random Material: Case of Construction Failure in an Indonesia Dam A. Sahadewa	75
Basic Study on Applicability to Artificial Barriers for Radioactive Waste Disposal Facility for Various Zeolites Y. Imaizumi, K. Niwase, T. Yamamoto and H. Sato	83
Comparative Analysis of Structural Reinforcement with Viscoelastic Energy Dissipators, Friction and Metal Creep in Tall Buildings E.J. Lipa, J.O. Pomasoncco, J.R. Casas and R.M. Delgadillo	93

Chapter 3: Materials for Energy Storage Devices

Ultrahigh Electrochemical Performance $\text{Co}_4\text{Sb}_{11.2}\text{Sn}_{0.02}\text{Te}_{0.78}$ for Supercapacitor Cathode Z.P. Li, X.R. He, X. Chen, Y. Niu and J. Jiang	103
Perylene-Tetracarboxylic Diimide (PTCDI) Organic Cathode for Nonflammable K-Ion Batteries J.H. Hu, W. Tang and C. Fan	109

Chapter 4: Additive Manufacturing

Near-Field Direct Writing of the Photoluminescent Lattice Structures Pattern with RGB Colours Quantum Dots	
W.C. Ou, J.X. Fang, Z.K. Tan, D.H. Zhan, M.L. Liu and H. Wang	119
Flexural Characterization of Concrete Beams Reinforced with 3D-Printed Formworks	
M.T. Junaid, M. Alhalabi, O. Mostafa and S. Barakat	125

Chapter 5: Defect Identification

An Algorithm for Detecting Surface Defects in Steel Strips Based on an Improved Lightweight Network	
D.H. Zhan, H. Wang, X.D. Yang, W.C. Ou, R.B. Huang, J. Lin, K.R. Yi and B. Zhou	137
