

Table of Contents

Preface

Chapter 1: Structural Metal Processing

Numerical Simulation and Experimental Investigation of Oblique Laser Shock Processing on FGH95 Powder Superalloy of Helicopter Turbine Disk Mortise X.M. Qu, Z.W. Lin, Y.S. Liang, W.J. Wang, H.Y. Zhu and Y.K. Zhang	3
Methodology for the Investigation and Evaluation Criteria of Oxidation-Metal Plating Processes During Friction and Wear O. Lyashuk, A. Gypka, M. Maiak, D. Mironov and M. Levkovych	15

Chapter 2: Fatigue Analysis of Materials and Structures

Anisotropic Behavior on Fatigue Properties of API 5L X42 Pipeline Steel M.A. Beltrán-Zúñiga, J.L. Gonzalez-Velázquez, D.I. Rivas-López, H.J. Dorantes-Rosales, C. Ferreira-Palma, F. Hernández-Santiago and F. Larios-Flores	29
Fatigue Life Evaluation of a Medium Dump Truck Frame under the Random Road Profile Excitation T.D. Vu and V.T. Vu	45
Input Parameter Analysis for Low-Cycle Multiaxial Fatigue Models Using Artificial Neural Network Y. Savchuk, P. Yakovhuk and S. Shukayev	59
Fretting Fatigue and Crack Initiation Analysis of 42CrMo4+QT and 34CrNiMo6+QT Steels M. Nesládek, M. Müller, V. Mára, T. Karas, J. Papuga and A. Hasse	71
Transforming Fatigue Life Prediction in Additive Manufacturing: Synergies of Surrogate Modeling, Transfer Learning, and Bayesian Inference M.M.M. Awd and F. Walther	85
Fatigue Regime Transition in Pelton Turbines: From Low-Stress/High-Cycle to High-Stress/Low-Cycle and its Impact on Structural Integrity A. Morales-Ortiz, C. Seifert, S. Acuña, A.F. Duque and D. Hincapie	93
Beyond S-N Curves: A Residual Stress-Driven Approach to Fatigue A. Morales-Ortiz, C. Seifert, S. Acuña, A.F. Duque and D. Hincapie	107
Influence of Reinforcement Breakage on Tractive Capacity of Composite Elastomer-Cable Tractive Element D. Kolosov, I. Belmas, H. Tantsura, O. Bilous and S. Onyshchenko	127

Chapter 3: Building Materials and Technologies in Construction

Experimental Study on Spent Garnets for Fine Grain Aggregate a Partial Substitution in Cement Based Mortars: Validation of Preliminary Research A.C. Vasile, C. Baeră, A. Gruin, I.A. Perianu, I.K. Petrisor and A. Ion	145
Influence of Bitumen Consistency and Structure on its Deformation Behavior during Glass Transition V. Maliar	161
Vibration Instrumentation in Analyzing the Dynamic Structural Behaviour D. Dobre, C.S. Dragomir, I.G. Craifaleanu, C.F. Dobrescu, E.S. Georgescu and A. Gruin	171
