About the Editor, Contributors, Note from the Editor**Thermoelectric Energy Conversion and Ceramic Thermoelectrics**

T. Kajitani, Y. Miyazaki, K. Hayashi, K. Yubuta, X.Y. Huang and W. Koshibae 1

Review on Indium Zinc Oxide Films: Material Properties and Preparation Techniques

G.J. Shyju, S. Dawn Dharma Roy and C. Sanjeeviraja 21

Review on Gallium Zinc Oxide Films: Material Properties and Preparation Techniques

S. Nagarani, M. Jayachandran and C. Sanjeeviraja 47

Nanomaterial Preparations by Microwave-Assisted Solution Combustion Method and Material Properties of SnO₂ Powder - A Status Review

L.C. Nehru, V. Swaminathan, M. Jayachandran and C. Sanjeeviraja 69

Synthesis and Electron Density Analysis of SnO₂ Nano Particles

S. Saravanakumar, M. Jeya Priya and R. Saravanan 121

Local Structural Analysis of Al₂O₃, Cr:Al₂O₃ and V:Al₂O₃ Using Powder XRD

T.K. Thirumalaisamy, K.J. Lakshmi Sri and R. Saravanan 131

Influence of Silicon and Boron Doping on the Thermal Conductivity of N-GaAs Single Crystals

M. Prema Rani and R. Saravanan 153

Studies on the Removal of Malachite Green Dyes by Adsorption onto Activated Carbons – A Comparative Study

A. Xavier, D. Usha, J. Gandhi Rajan and M. Malarvizhi 165

Dynamic Study of Adsorption for the Removal of Bismark Brown – Using Activated Carbons

A. Xavier, R. Sathya, J. Gandhi Rajan and R. Nagarathnam 187
