

## Table of Contents

|  |     |
|--|-----|
| <b>Stability and Electronic Structure of Cluster Assembled Materials</b><br>P.K. Jena, S.N. Khanna and B.K. Rao  | 1   |
| <b>Electronic and Atomic Structure of Large Covalent and Metal Clusters: Applications to Cluster Assembled Materials</b><br>M. Broyer, M. Pellarin, B. Baguenard, J. Lermé, J.L. Vialle, P. Melinon, J. Tuaille, V. Dupuis, B. Prevel and A. Perez | 27  |
| <b>Evolution of the Electronic and Geometric Structure of Size Selected Pt and Pd Clusters on Ag(110) Observed by Photoemission</b><br>W. Schneider, H.-. Roy, P. Fayet, F. Patthey, B. Delley and C. Massobrio                                    | 51  |
| <b>Structure and Properties of Covalently Bonded Si Clusters</b><br>E. Kaxiras   | 67  |
| <b>Atomic and Electronic Structure of Silicon Clusters at Finite Temperature</b><br>J.R. Chelikowsky and N. Binggeli   | 87  |
| <b>Preparation and Superconductivity of Silicon Clathrate Compounds</b><br>S. Yamanaka, H. Kawaji and M. Ishikawa  | 103 |
| <b>Scanning Tunneling Microscopy Studies of Fullerenes</b><br>T. Sakurai, X.D. Wang and T. Hashizume   | 119 |
| <b>Clusters of Fullerene Molecules</b><br>J.A. Alonso and L.J. Gallego   | 155 |
| <b>C<sub>60</sub> Polymers</b><br>A.M. Rao and P.C. Eklund   | 173 |
| <b>Metallofullerenes: Their Formation and Characterization</b><br>H. Shinohara, M. Takata, M. Sakata, T. Hashizume and T. Sakurai  | 207 |
| <b>Electronic Structure of C and Si Fullerenes and Fullerides</b><br>S. Saito  | 233 |
| <b>Hollow Diamonds from Fullerenes</b><br>G. Benedek and L. Colombo  | 247 |
| <b>Inorganic Fullerenes from 2-D Layered Compounds</b><br>R. Tenne   | 275 |
