

Table of Contents

Preface

Chapter 1: Composite Materials

The Low-Temperature Thermal Conductivity of Epoxy Resin Composites Enhanced by Graphene and Modified Alumina Hybrid Fillers Y. Xiang, R.J. Huang, Z.R. Zhou, T. Wang, L. Shi, W.T. Sun and L.F. Li	3
Tailoring SWCNT Elastic Properties for Enhanced Durability in Additive Manufactured Prosthetic Devices M.S.M. Al-Kharusi and M. Al-Maharbi	9
Composites Recycling by Using Intumescent Flame-Retardant Concept O. Kachouri, J. Bardon, D. Ruch and A. Laachachi	15
Manufacturing Aluminum-Based Nanocomposites via Stir-Squeeze Casting Combined with Ultrasonication M. Al-Maharbi and Z. Al-Subhi	21

Chapter 2: Functional Materials

Effect of Iodine Doped Pentacene Thin Film on the Performance of Organic Light Emitting Diode D. Saikia and R. Sarma	29
Recovery and Size-Tuning of Amorphous Silica from Geothermal Scales in Batangas, Philippines M.K.G. Oyales, K.B.B.T. Damian and T.L.B. Lao	41

Chapter 3: Additive Manufacturing

A Parametric Study on the Stability, Geometry and Hardness of AISI 308LSi WAAM-GMAW T.E. Abioye, B.D. Bankong, O.J. Ogundipe, O.O. Kusoro and T.I. Ogedengbe	49
Optimization of FDM 3D Printer Process Parameters to Minimize Dimensional Errors with PLA Material Using Response Surface Methodology A. Maneengam, T. Limlay, T. Kongsin, T. Assawarungsri, W. Laotaweesub, P. Suwankan and K. Ubontip	61
Stabilizer Effects on the Gelation of Modified Recycled PET for 3D Printing Filament Application N. Parneam, S.I.N. Ayutthaya, N. Sukhawipat and S. Komonhirun	67
Examination of Microstructure, Mechanical Properties, and Fatigue Strength in a Wire Arc Additively Manufactured Material Comprising Dissimilar Materials: AISI 316L Stainless Steel and Carbon Steel M. Hietala, M. Keskitalo, M. Jaskari, J. Arvola and A. Järvenpää	75

Chapter 4: Building Materials

Properties of Steel Fiber Reinforced Desert Sand Concrete R. Yu, Y. Huang, J. Sun, Y.B. Liu, S.N. Li, S.Y. Luo and Z.S. Liu	85
Study of Mechanical Properties Using Carbonized Rice Husk and Eggshell to Prepare Sustainable Concrete and its Viability in Civil Construction D.F. dos Santos, P.B. de Meirelles and Z.R. Machado	99
An Experimental Study on the Effect of Nano Zinc Oxide on Reflective Coatings and Building Roof Temperatures W. Asaad, L.M. Shaker and A. Mahdi	109
