

Table of Contents

Preface

Chapter 1: Composites

Evaluation of the Mechanical and Tribological Properties of Aluminium - Based Composites Reinforced Silica Beach Sand Particulates

V.E. Ogbonna, P.A. Popoola, O. Popoola, S. Adeosun and C. Obioha 3

Enhancing Mechanical Properties of Natural Rubber Latex Composites through Alkali-Treated Areca Husk Fibers: Eco-Friendly Reinforcements

J. Artchomphoo, D. Saijun, P. Sungsee and S. Rattanapan 15

Chapter 2: Photovoltaics

Enhancing the Optoelectronic Properties of Copper Sulphide Nanoparticles for Photovoltaic Applications

A. Shahid, N. Ali, A.A.A. Bahajjaj and A. Khesro 31

Optimization Study of Single Junction Structures Utilizing 1.12 eV $\text{Cs}_2\text{AuBiCl}_6$ Double Perovskite: A Lead-Free Inorganic Absorber for Single and Tandem Solar Cell Applications

H. Arbouz 43

Chapter 3: Waste Treatment and Environmental Remediation

Circular Materials from the Ocean Waste: Prototyping Additive Manufacturing Processes for 3D Printing with Regenerated Plastics

L. Lopes, H. Daruari, F.M. Duarte, M. Almeida and P. Mendonca 57

Evaluation of the Quality Properties of Paper Derived from Bacterial Cellulose from Banana Peels and Pineapple Peels: A Multivariate Statistical Analysis

J.V. Cobos, J.F. Guevara Viejó, E.J. Carrasquero Rodríguez, J. Coello Viejó and F. Pacheco Olea 67

Development of Eco-Friendly Biomaterials: Recycled Thermoplastics Reinforced with Short Natural Cane and Palm Fibers

C.A. Paltan, J.I. Fajardo, E.J. Carrasquero Rodríguez and K.A. Alvarez 73

Evaluation of Thermal Insulation and Air Permeability of Needle-Punched Nonwovens Recycled from Waste Pantyhose

H. Sezgin, I. Yalçın Eniş and H. Maral 81

The Role of Gamma Irradiation in the Remediation of Hexachlorobenzene: A Study in 2-Propanol

S. Karimov, E. Abdullayev, M. Gurbanov and L. Gasimzada 87

Magnetic Pecan Nutshell Biochar for Arsenic and Fluoride Removal: Effects of Particle Size and Pyrolysis Temperature

S. Khamkure, L. Díaz-Jiménez, A. Reyes-Rosas, P. Gamero-Melo, A. Zermeño-González and E. Cortez-Quevedo 101

Chapter 4: Building Materials

Transforming Textile Wastes: Innovative Design of Sustainable Composite Materials for Thermal Insulation in Buildings

S. Ozdemir, J. Oztemur, H. Sezgin and I. Yalçın Eniş 109

Experimental Investigation on the Physico-Mechanical and Protective Properties of Concrete Incorporating Layered Doublehydroxide (LDH)

M.A. Shohide 115

Chapter 5: Manufacturing Processes

Machinability Indices of some Metallic Materials in Abrasive Waterjet Machining

M.H. El-Hofy, H.A. El-Hofy and M. Abd-Alrazzaq

131

Industrial Asset Recovery Procedure Based on the Circular Economy - Case Study: Sliding Bearing Shoe of Tubular Ball Mill

J.I. Fajardo, E.J. Carrasquero Rodríguez, C.A. Andrade and C.A. Paltan

151

In-House Synthesis and Characterization of Vitamin C and Glycerine Based Natural Deep Eutectic Solvent

M.H. Rasool, M. Ahmad, N.A. Siddiqui, H. Ali and N.T. Bajwa

159
