

Table of Contents

Preface, Committees, Sponsor

Chapter 1: Nanomaterials and Convergent Nanotechnologies

Dual Functionality of TPU Nonwoven Prepared by Argon Plasma Treatment: A Method Forming Asymmetric Surface	
K.S. Chen, S.H. Tsao, R.W. Sung, Y.C. Ye, B.H. Zeng and S.C. Liao	3
Solvothermal Synthesis of Magnesium Oxide-Substituted Hydroxyapatite Nanoparticles as Antibacterial Nanomaterial for Biomedical Applications	
C. Paucar Álvarez, J.S.C. Sarmiento, S.C. Freitas and C. García	8
Synthesis, Structural and Gas Sensing Characterization of W-Doped SnO₂ Nanostructures	
M.C. Bhatnagar and A. Johari	15
Nitrogen-Modified Graphdiyne as a Promising Membrane for Helium Separation: First-Principles and Molecular Dynamics Simulations	
J. Xu, J. Li, H.J. Liu and L.M. Zhao	20
Photoresponsive Nano-Coumarin with Indole Auxin Hormone	
W. Sombat, K. Wongkhan, S. Jarussophon and R. Jitchati	26

Chapter 2: Alloys and Intermetallic Compounds

Thermal Stability of Nanograin Structure in Cu-Zn Alloy System	
F.W. Tang, X.Y. Song, H.B. Wang, X.M. Liu and C. Hou	33
Microstructure and Mechanical Properties of Ultrafine-Grained Mg-Zn-Ca Alloy	
O.B. Kulyasova, R.K. Islamgaliev and R.Z. Valiev	39

Chapter 3: Ceramics

Semi-Solid Metal Forming - A Process for Manufacturing Composite and Hybrid Materials	
L. Schomer, C. Seyboldt and M. Liewald	47
Effect of Sintering Method on the Properties of Quartz Porous Ceramics	
X. Yang, J.S. Li, M.H. Chen, X.J. Zhou, X.H. Lai, J.G. Song and F. Wang	52

Chapter 4: Polymers and Composites

Radiotecnical Signal Processing Techniques for Polymer Materials Structure Analysis	
V.K. Kachanov, I.V. Sokolov, S.V. Lebedev and V.V. Pervushin	59
Effects of Thermal Stabilization and Electron Beam Irradiation on the Characteristics of Lignin Extracted from Black Liquor	
D.K. Hwang, J.H. Kim, O.H. Kwon, W.H. Park and D.H. Cho	64
