

## Table of Contents

### Preface

<b>Effect of Internal Piezoelectric Fields on the Electronic Structure and Optical Properties of Strained-Layer Superlattices</b> C. Mailhiot and D.L. Smith	1
<b>Metastability in Semiconductor Strained-Layer Structures</b> B.W. Dodson and I.J. Fritz	29
<b>The Morphology of MOCVD-Grown Semiconductor Multilayers</b> J.M. Olson, A.E. Blakeslee and M.M. Al-Jassim	59
<b>Electrical Transport Studies of InGaAs/GaAs Strained-Layer Quantum-Well Structures</b> I.J. Fritz and J.E. Schirber	83
<b>Device Structures Based on GaAsP/InGaAs Strained Layer Superlattices and Their Stability</b> S.M. Bedair	119
<b>The Preparation and Infrared Properties of In (AsSb) Strained-Layer Superlattices</b> R.M. Biefeld, S.R. Kurtz, L.R. Dawson and G.C. Osbourn	141
<b>Ion Implantation of III-V Compound Semiconductor Strained-Layer Semiconductor Systems</b> D.R. Myers	165
<b>II-VI Strained-Layer Semiconductor Superlattices</b> L.A. Kolodziejcki, R.L. Gunshor and A.V. Nurmikko	199
