

Table of Contents

Preface

Inorganic Polymeric Materials Based on Natural Silicate and Aluminosilicate Raw Materials

E. Sahakyan, A. Arzumanyan and N. Muradyan 1

Strength of Normal and Inclined Sections of Bent Reinforced Concrete Elements with Zone Reinforcement Made of Steel Fiber

D. Utkin 7

Predicting the Strength of Rectangular Reinforced Concrete Columns Confined with FRP Sheets

A.G. Tamrazyan and Y.A.K. Sayed 17

Modification of Irind Mine Pumice Surface

M. Kalantaryan, N. Chilingaryan and A. Meymaryan 25

The Influence of Cement Grain Structure on Physical and Mechanical Properties of Cement

S. Mazmanyanyan, G. Papyan, T. Sargsyan, A. Baghdagyulyan, T. Paytyan and H. Hoveyan 31

Modeling a Weak Foundation in Interaction with Reinforced Sand Piles under a Low-Rise Building

T. Maltseva 39

Physical-Chemical Studies of the Process of Condensation of a Clinker-Free Binder

M. Badalyan, A. Karapetyan and H. Hoveyan 47

Development of Dry Sand-Lime New Multicomponent Mortars into the Historical Cultural Monuments Applied on Local Raw Basis

H. Qaramyan 53

The Structural Formation of Cement Stone Modified by a Solution of Superabsorbent Polymer

A.S. Inozemtcev, E. Korolev and D.T. Qui 59

Two Approaches to the Study of Temperature Effect on the Dissipative Properties of Materials

T. Petrosyan 69

Simplification and Improvement of the Efficiency of Testing Thermophysical Properties of Facade Composite Materials

A. Karamyan, K. Movsesyan and T. Manukyan 77

Influence of Polar Groups on the Ability of Polymers to Form Nanopenocox when Heated to Reduce the Fire Hazard of Building Materials

T.A. Matseevich and A.A. Askadskii 85

Investigation of the Stress-Strain State of a Steel Column Base Connection for Seismic Regions

T. Dadayan and L. Karapetyan 93

Comparative Analysis of the Use of Thermal Insulation Materials Depending on Climatic Conditions and Comfort Microclimate Supply Systems

S. Egnatosyan, D. Hakobyan and S. Sargsyan 99

Experimental Study of Hysteresis in Clayey Soils under Compression

T. Petrosyan, S. Khachatryan and N. Namatyan 107

Mathematical Modeling of the Process of Reduction of the Material Consumption of Gas Transmission System Elements

N. Pirumyan, M. Stakyan and H.A. Khazaryan 115

The Influence of the Properties of Thermal - Insulation Materials on the Thermomoist Indicators of a Building

A.L. Petrosyan 125
