

# Table of Contents

## Preface, Partner Universities and Committees

## Chapter 1: Materials and Technologies in Civil and Building Engineering

<b>Development of Green Engineered Cementitious Composites</b> M. Jašek, J. Brozovsky, L. Mynarzova and J. Hurta	3
<b>Applications of Titanium Sheets in Modern Building Construction</b> J. Adamus	9
<b>Galvanised Sheets as Building Material</b> J. Adamus, M. Gierzyńska-Dolna, W. Gorecki and P. Lacki	15
<b>Spectral Emissivity of Roof Membranes and Vapor Barriers</b> M. Čekon and R. Ingeli	21
<b>Comparison of Experimental and Computational Characteristics of Light Perimeter Walls of Wooden Buildings</b> M. Šuštiaková, P. Ďurica, R. Ponechal and M. Cangár	25
<b>Exploration Results of Applying Limestone Powder in Crushed-Stone-Sand Mixtures for Road Pavement Layers</b> H. Gyulzadyan, G. Voskanyan and V. Ter-Simonyan	31
<b>Degradation of the Building Structures due to Carbonation of Concrete</b> J. Pasek and L. Vejvara	37
<b>The Present and the Future of Polystyrene Foam in Construction</b> J. Pasek and F. Vörös	43
<b>Impacts of Floods on Wooden Structures and Elements in the Buildings</b> J. Pasek and J. Frankl	49
<b>Nanostructured Metallic Coatings for Protection of Materials against Mould Attack</b> I. Pobol, I. Gontcharova and J. Rajczyk	55
<b>Technological Processes in Natural Stone Processing with Recommendations of Processing Tools Evaluation</b> J. Rajczyk and M. Kosiń	60
<b>Improved Technology of Reinforcement Works and Technical Substantiation of Reinforcement Bar Oscillation Cutting</b> S.A. Evtyukov	66
<b>Numerical Analysis of Wooden Beams Reinforced with Aramid Ropes Exposed to Fire</b> M. Rajczyk and D. Jończyk	71
<b>Compare of Evaluation Methodology of Activity of Metakaolin</b> Y.F. Hou, S.R. Zhao and B.C. Xu	76
<b>Study on Effect of Performance of Recycled Aggregate Concrete with Secondary Manufacturing Shell Mixing Approach</b> J.B. Mu and Y.Q. Cui	80
<b>Research on the Effectiveness of Water Drainage from Concrete Road Surfaces Depending on the Texture Parameters</b> M. Rajczyk and Z. Respondek	86
<b>Numerical Analysis of the 2-Dimensional Diffusion Models of Chloride Ions Based on the FDM with Alternating Direction Implicit Schemes</b> F. Hou, Y. Bai and J. Dong	92
<b>Metallurgical By-Products in Earthworks, Hazards of their Utilization</b> F. Kresta	98

## Chapter 2: Structural Mechanics and Analysis, Applied Mechanics, Constructions and Civil Engineering Applications

<b>Reliability of Masonry Structures According to the Contemporary Computational Procedures</b>	
L. Vejvara and J. Pasek	113
<b>Studies on the Mechanical Performance of Long Span Continuous Rigid Frame Bridge under the Influences of Different Curvature Radius</b>	
J.X. Feng, J. Dong and T. Liang	119
<b>Impact Analysis of Tower Number on Automotive Live Load Effect in Suspension Bridge</b>	
Z.G. Qi, J. Dong and B.Q. Yao	124
<b>Study on Cable Forces in Cable-Stayed Bridges Based on Forward Simulation Method</b>	
C. Tian, J. Dong and T. Liang	130
<b>Studies on the Dynamic Performance of the Continuous Rigid Frame Bridge Impacted by the Damage at Some Key Positions of the Side Piers</b>	
B.Q. Yao, J. Dong and Z.G. Qi	137
<b>Definition of Critical Loading on Three-Layered Plate with Cuts by Transition from Static Problem to Stability Problem</b>	
G. Kipiani	143
<b>Numerical Analysis of Aluminium Cellular Beams with Cells of Different Diameters</b>	
A. Derlatka and P. Kasza	151
<b>Numerical Analysis of Aluminum Cellular Beams with Cells of Different Arrangement</b>	
A. Derlatka and P. Kasza	158
<b>Comparative Analysis of the Distribution of Effective Stress in Mooney and Zahorski Materials Using ADINA Software</b>	
M. Major and I. Major	165
<b>Modeling of Wave Propagation in the ADINA Software for Simple Elastic Structures</b>	
I. Major and M. Major	171
<b>Load Bearing Capacity Tests of Mechanical Joining on Timber-Concrete Beam</b>	
P. Agel and A. Lokaj	177
<b>Numerical Modelling of Historical Masonry Structures</b>	
J. Brozovsky, M. Jašek, L. Mynarzova and M. Maluchová	182
<b>Propagation of the Surface of a Strong Discontinuity in the Hyperelastic Materials</b>	
M. Major, I. Major and J. Rózycka	188
<b>The Characterization of Porosity and Frost Resistance of Concrete with Fly Ashes Modified</b>	
J. Halbiniak and B. Langier	193
<b>Reinforced Round Timber Bolted Joints under Cyclic Loading</b>	
A. Lokaj and K. Klajmonová	199
<b>Comparison of Measured Displacement of the Plate in Interaction with the Subsoil and the Results of 3D Numerical Model</b>	
J. Labudková and R. Čajka	204
<b>Post-Cracking Steel Fiber Reinforced Concrete Slabs with Subsoil Interaction</b>	
D. Pieszka, K. Kubečka and I. Kološ	210
<b>Dynamic Experimental Analysis of a Steel Bridge</b>	
R. Fojtík, T. Novotný, I. Skotnicova, M. Stolárik, N. Zdražilová and M. Pinka	215
<b>Measurement Processes and Destructive Testing of Fiber Concrete Foundation Slab Pattern</b>	
P. Mynarčík	221
<b>Experimental Testing the Interaction of Fiber-Concrete Foundation Slab and Subsoil and Compare the Results with Numerical Models</b>	
V. Buchta	227
<b>Dowel Type Joints in Agglomerated Wood</b>	
K. Vavrusova, A. Lokaj and P. Valíček	233
<b>The Split's Spread in the Section of Dangerous Structure</b>	
G.V. Ter-Petrosyan	238
<b>Investigations of RC Shear Wall-Frame Structures with Various Openings in Walls under Earthquake Loading</b>	
T. Dadayan and E. Roudi	242
<b>Finite Element Analyses of Aghjots Monastery Taking into Account Seismic Action</b>	
L. Karapetyan	248

<b>Contact Interaction between an Infinite or Finite Stringer and Elastic Semi-Infinite Plate with a Finite Vertical Crack Coming out to the Stringer by One End</b> S. Mkhitarian	253
<b>Finite Element Analysis of the Seismic Behaviors on Web-Bolted Connected of Replaceable Shear Links for Eccentrically Braced Steel Frame</b> C.Y. Zhao and K. Gong	258
<b>Investigation on Optimization of Cable Tension for Extradosed Cable-Stayed Bridge under the Rational Completion Stage</b> J. Dong, T. Liang and J.X. Feng	264
<b>Analysis on Mechanical Characteristics of Important Components in Overlong Frame Structure under Overall Cooling Temperature</b> C.Y. Zhao, G.X. Yu and B.Y. Zhu	270
<b>Reinforcement of Prefabricate Concrete Beams with Basalt-Epoxy Bars</b> M. Rajczyk and B. Stachecki	275
<b>A Torsion Problem of a Prismatic Rod Composed of Two Orthotropic Materials</b> V. Yedoyan	280
<b>Longitudinal Shear of a Compound Elastic Half-Space Weakened by Cracks</b> K.L. Aghayan, E.K. Grigoryan and V.G. Zakaryan	286
<b>Analytical Method of Determining Folded Depressed Shells' Free Oscillation Frequency</b> L.N. Kondratyeva, Y.L. Routman, A.M. Maslennikov and O.V. Golykh	291
<b>Experiences with Building a Floating Barge</b> M. Głowacki, M. Halbiniak, P. Rajczyk and P. Sroka	297
<b>The Failure Mechanism and Finite Element Analysis of Recycled Concrete Two-Way Slabs with Stud-Shear Reinforcement</b> J. Luo, Y. Zong and C.X. Du	303
<b>Experimental Research on Strength of GFRP Bars in Shield Engineering</b> J. Liu, H. Zhou, H.J. Yuan and J.F. Li	308
<b>Empirical Cellular Automata Model to Predict Failure Patterns of Laterally Loaded Masonry Wall Panel</b> D. Pan, C.Z. Qi and J. Luo	314
<b>Shrinkage of Industrial Concrete Floors</b> L. Zizka, L. Vackova and L. Spas	317
<b>Influence of Electrical Power Lines on Acoustic Properties of Partition Constructions</b> J. Winkler, D. Kubečková, N. Zdražilová and P. Oravec	323
<b>Determining the Size of Anchor Plates on the Basis of Laboratory Measurements</b> M. Stara, M. Smirakova and V. Buchta	329
<b>Sliding Joints from Traditional Asphalt Belts</b> M. Smirakova, M. Stara and P. Mynářčik	335
<b>Methods to Assess Load Capacity of the Old Wooden Building Components</b> K. Dubała and J. Seledjak	341
<b>Design and Evaluation of a Subterranean Work Lining from Layers of Shotcrete and Steel Arch</b> K. Vojtasik, E. Hrubesova, M. Mohyla and L. Duris	347
<b>Round Timber Bolted Joints Reinforcement Methods</b> K. Klajmonová and A. Lokaj	351
<b>Study of Under Pressure Viscous Fluid Pulsating Flow in Cylindrical Pipe of Circular Cross-Section</b> A.A. Sarukhanyan and A.V. Martirosyan	356
<b>Research of Nonstationary Laminar Flow of Decelerating Viscous Fluid in Circular Cylindrical Communications</b> H.V. Tokmajyan and T.A. Sarukhanyan	361
<b>On One Class of Boundary Value Problems of the Steady-State Filtration Theory in Porous Grounds</b> S. Mkhitarian and H.V. Tokmajyan	367
<b>On Steady-State Filtration of Fluid in Strip-Like and Wedge-Shaped Porous Ground Bases</b> S. Mkhitarian, H.V. Tokmajyan, S.A. Avetisyan and M.S. Grigoryan	373
<b>Static Ensuring of Sacral Building of Mining Areas</b> J. Solař	379

<b>The Rationalization of Parameters of the Suction Intake Device for Packed Bulk Construction Materials</b>	
S.A. Evtyukov, A.A. Schimanova, J. Rajczyk and M. Rajczyk	385

### **Chapter 3: Geotechnologies and Geology, Tunneling and Subways, Seismology**

<b>Investigations of the Ground Settlements of a Subway Station Constructed by the Method of Burning Shallow and Dig Invisible of Tunnel Construction</b>	
D.H. Liu, J. Dong and W.J. Song	393
<b>Investigations of Influence of the Variation of Underground Water Levels to the Structural Performance of the Existed Subway Station</b>	
W.J. Song, J. Dong and D.H. Liu	399
<b>Structure Detection and Evaluation of the Highway Tunnel</b>	
C.J. Zhu, F. Liu and J. Dong	405
<b>The Research of the Level of Tunnel Surrounding Rock and the Stability Based on Fractal Theory</b>	
J.T. He and J. Dong	411
<b>The Effect of Structure Bury Depth on Dynamic Response of Underground Tunnel under Longitudinal Shearing Seismic Action</b>	
Y.Q. Xu, C.Z. Qi and G.X. Chen	415
<b>Back Analysis Methods in Geotechnical Engineering</b>	
E. Hrubesova and M. Mohyla	423
<b>Analysis of Load of the Tunnel Definitive Lining due to Vibrations of Various Sources</b>	
M. Stolárik, M. Pinka and J. Maršálek	429
<b>Temperature Monitoring on the Final Tunnel Lining</b>	
L. Duris, J. Aldorf and J. Géryk	435
<b>Seismic Load Analysis around the Temporary Bridge Construction before and after Vibration Mats Installation</b>	
M. Pinka, M. Stolárik, R. Fojtík and T. Novotný	441
<b>Ground Improvement by a Nonparallel Layout of Soil Nails</b>	
K. Vojtasik, M. Chodacki and T. Hochsmann	447
<b>Underground Barrier Protection against the Spread of Vibration - A Model Study</b>	
T. Petřík, E. Hrubesova, M. Pinka and A. Hastíková	451
<b>Shaking Table Test Study on Seismic Responses of Base-Isolated Buildings under Near-Fault Ground Motions</b>	
M. Han, Y.L. Duan and H. Sun	457
<b>Seismic Response of Underground Structure under Vertical Seismic Excitation</b>	
C.Z. Qi, X. Liu, G.H. Li, D. Pan and J. Luo	463
<b>Basics of Metals Theory of Extraction by Means of Chemical Water Solutions Filtration through Underground Ores</b>	
V. Sargsyan and E. Saratikyan	472
<b>Prediction of the Erosive Processes in the Corridor of Baku-Tbilisi-Ceyhan Oil Pipeline and Development of Methods to Design the New Engineering Environmental Protection Measures</b>	
G. Gavardashvili	478
<b>Analysis of Quasi-Geoid Model Created for Territory of the Republic of Armenia</b>	
V. Margaryan	484

### **Chapter 4: Environmental Engineering, Green, Energy and Thermal Engineering in Building**

<b>Economic Aspects of Implementing Energy Performance Labelling of Buildings and Flats in the Czech Republic</b>	
J. Pasek, J. Mlcak and K. Paskova	491
<b>Microgeneration Based on Renewable Energy in Sustainable Building</b>	
L. Kurzak	495

<b>Exploitation of Heat from Thermal Active Coal Tips</b> F. Kresta	501
<b>The Utilization of Ground Source Heat Pumps (GSHP) for Research Purpose in the Campus of VSB - Technical University of Ostrava</b> P. Bujok, M. Klempa, M. Porzer, A. Kunz, P. Pospíšil, P. Vojčinák and M. Sekerášová	507
<b>The Analysis of the Influence of Boundary Conditions on the Energy Performance of Houses</b> K. Kubenková, B. Hrubá, M. Kraus and D. Kubečková	513
<b>Comparison between Energy Performance of Building and Investments to the Renewable Energy Sources</b> M. Kovac and K. Knizova	518
<b>Influence of Plants on the CO<sub>2</sub> Concentration in the Passive House</b> V. Šípková, Z. Galda, J. Labudek and D. Hibler	524
<b>Comparative Analysis of Energy Certification in Poland and Slovakia</b> J. Jura, M. Šušťáková, P. Ďurica and M. Ulewicz	529
<b>Using Probabilistic Calculation for the Assessment of the Risk of Water Vapor Condensation on Structures</b> D. Donovan, N. Zdražilová and V. Šípková	534
<b>Diagnostics and Optimization of Airtightness in Experimental Wooden Structures</b> B. Hrubá, P. Oravec and J. Labudek	540
<b>Comparison Thermal Conductivity and Cost of Materials Specified for Thermal Insulation of the Building's Facade</b> V. Šípková, S. Korbelova and J. Labudek	545
<b>Comparison of Experimental and Computational Characteristics of Selected Window</b> M. Janíková, P. Ďurica and R. Ponechal	550
<b>Dynamic Simulation of the Energy Performance of the Timber-Frame Passive House</b> I. Skotnicova, Z. Galda, P. Tymova and L. Lausova	556
<b>Architectural Elements with Respect to the Energy Performance of Buildings</b> R. Ingeli, K. Minarovičová and M. Čekon	561
<b>Diagnostics of Building Claddings and Design of Technical Solutions with Regards to Energy Performance</b> Z. Peřina, M. Haliřová, M. Wolfová, R. Fabian, H. Ševčíková and E. Rykalová	566
<b>New Trends in the Separation of Significant Greenhouse Gases from Flue Gas Streams</b> R. Witasek and P. Pánek	573
<b>Influence of Transparent Partitions on Selected Energy Indicators of the Building Located in Central Europe</b> A. Ujma and A. Lis	579
<b>Changes in the External Environment and of Interior Microclimate as a Consequence of Energetic Modernization of Building</b> A. Lis and A. Ujma	585
<b>Built-In Moisture Process in Structure with Damaged Waterproofing after the Application of Thermal Insulation Boards</b> A. Břenek, V. Václavík, T. Dvorský, J. Daxner and V. Dirner	591
<b>Windows Energy Labelling in Slovakia</b> I. Chmúrny	597
<b>Geocological Stability Disorder as a Result of Civil Construction of Yerevan</b> S.M. Shahinyan	601
<b>GIS for Assesment of Management of Urban Environmental Situation</b> S. Shahinyan and T. Aleksanyan	605
<b>Context of the Growth of Microorganism on the External Composite Systems of Claddings of Panel Buildings</b> D. Kubečková, J. Kukutschová, V. Kučeriková and H. Doležalová	610
<b>The Biotic Attack on Frontage</b> V. Kučeriková, D. Kubečková, H. Doležalová and J. Kukutschová	615
<b>Environmental Aspects and Impacts Assessment in Deployment of Construction Equipment</b> K. Prokopčáková	621
<b>Technological and Constructive Proposals on Sand Trap and Removal from Industrial and Domestic Waste Water</b> V.L. Shamyan	626

<b>Risk Assessment of Biocorrosion Recurrence of ETICS</b> N. Antošová and K. Minarovičová	631
<b>Comparison of the Brownfield Regeneration and Greenfield Development on the Mathematical Model Basis</b> J. Peterová, S. Endel and F. Kuda	637
<b>Forecasting of Microclimate in the Course of Buildings Design and Reconstruction</b> T. Datsuk, V. Pukhkal and U. Ivlev	643

## **Chapter 5: Architectural Culture and Design, Urban and Transport Planning and Problems**

<b>Regularities of Creating in the XVIII - Mid XX Centuries a Regular Agglomeration of St. Petersburg - Leningrad and Problems of its Preservation as a World Heritage Object</b> S.V. Sementsov	651
<b>Thinking on the Design Practice of Modern Commercial Complex - Taking Hohhot Jinyu New Field Project as an Example</b> N.W. Wu	655
<b>Capacity of Intersection with and without Connection Lane on the Left of Running Lane</b> V. Krivda and I. Mahdalova	663
<b>The Influence of the Architectural and Landscape Planning on the Development of the Public Space in European Cities</b> M. Tubielewicz-Michalczuk	669
<b>The Influence of Roundabouts on Drivers' Speed and Behaviour</b> R. Ziolkowski	674
<b>Factors Affecting the Attractiveness of the Area for Individual Housing</b> O. Vašíček, M. Budina, T. Nehudek and J. Česelský	680
<b>Influence of Alternative Education on the Architecture of Conventional Schools</b> M. Nedvěd and V. Zámečnicková	686
<b>Mass Prefabricated-Panel Housing Construction in Private Ownership in the Czech Republic</b> E. Špačková	692
<b>Modernization of a Historical Object in the Contest of Contemporary Requirements of Urban Space in the City of Czestochowa</b> N. Sołkiewicz-Kos	698
<b>The Problem of Preservation of National Traditions in Modern Armenian Architecture</b> M.A. Gasparyan and Y.A. Safaryan	702
<b>Some Issues of Reconstruction of Public Centers and Conservation of Historical Cultural Heritage in Yerevan</b> Z. Mamian	707
<b>Open-Air Museums: Scenario Planning for the Future</b> K. Stepanyan	711
<b>Measure of the Town and Metropolis</b> M. Peřinková	716
<b>The Importance of Tourism in Preserving of Architectonic Zones</b> L.M. Pinto, P. Carvalho and L. País	722
<b>Housing Policy of the City of Vienna as an Example for the Czech Republic</b> A. Koželouhová	726
<b>Contrast Harmony New Implementations In Interior Design Architecture in the Republic of Armenia</b> S.M. Shahinyan and A.S. Shahinyan	732
<b>Geometric Analysis of the Truss above the Nave and Presbytery of the Roman-Catholic Church in Village Bela Dulice</b> P. Krušinský and E. Capková	736
<b>Reliability Analysis of Relevant Radom Variables in Pedestrian Evacuation Study in Underground Transportation Hub</b> D.F. Zhao, X.L. Zhang and Y. Su	741

## Chapter 6: Municipal Engineering, Water Systems and Resources, Management and Economics, Forensic Sciences

<b>The Rule of Law when Renting State and Municipal Property</b> V.M. Chibinev	749
<b>Risk Analysis - An Alternative Method in Forensic Sciences</b> K. Kubečka, P. Vlček, D. Kubečková and D. Pieszka	751
<b>Determination of Sediment Accumulation Volume and its Deposition in the Khachen Reservoir</b> P. Baljyan, S. Sedrakyan and A. Manukyan	756
<b>Goodwill and Special Influences Affecting the Value of Real Estate</b> V. Kulil	760
<b>Preparation of Sub-Criteria for Mathematical Modeling of Multi-Criteria Decision Making</b> E. Berankova, F. Kuda and S. Endel	765
<b>The Methodology Suggestion of Capitalization Rates in the Real Estate</b> Z. Stefanovová and P. Procházka	769
<b>Sustainability of the Construction Sector in Poland in Comparison to other Economic Sectors</b> A. Mesjasz-Lech	776
<b>Managing the Local Economy on the Example of the Construction Sector Companies</b> J. Nowakowska-Grunt and A. Wiśniewska-Salek	783
<b>Modeling of Innovation Processes in the Management of SME's Enterprises Activities</b> J. Nowakowska-Grunt	789
<b>The Assessment of Construction Project Management Maturity Level in the Silesian Region in Poland</b> D. Jelonek, J. Nowakowska-Grunt and L. Ziora	796
<b>Peculiarities of Mountainous Area's Water Supply Systems</b> L. Dashtoyan	803
<b>Design Problems of Fish Passes at Water Level Fluctuation at Upstream of Intake Structure</b> A. Samvelyan, G. Gabayan and S. Nurişjanyan	807
<b>New Material Solutions for Road Surface Construction Made of WMA</b> J. Rajczyk	811
<b>The Problems of Preserving Zones of Monuments in Urban Structure and Natural Environment in Republic of Armenia</b> L. Khachikyan	817
<b>Experimental Design of Surface Modification of Expanded Obsidian and Determination of Water Sorption Capacity</b> G.S. Hovsepyan, M.A. Kalantaryan and T.V. Yedoyan	823
<b>Urban Spatial Justice in Australian Low-Carbon City: Perth as a Case Study</b> X. Wu	827
<b>Priority Determination Criteria and Strategic Trends of Funding in the Sphere of Water Economy Investments</b> M. Mkrtumyan, G. Grigoryan, R. Harutyunyan and G. Madatyan	834
<b>The Technical Data Analysis of Khachen Reservoir's Hydrosystem</b> A. Sarukhanyan and A. Manukyan	839
<b>Drinking and Waste Water Price Specificity Formation Process in the Republic of Armenia</b> A. Simonyan	844
<b>Construction Cluster: Trends and Prospects</b> G.F. Tokunova	849
<b>Development of Construction Cost Assessment Methods during Preparation for Tender</b> E.B. Smirnov and S.A. Ershova	854
<b>Choosing a Diversification Strategy for the Production Process in a Construction Company</b> P. Rodionov, J. Frková and V. Sojková	859
<b>Bim Management: The Use of GDL Language for Effective Work in BIM</b> J. Fridrich and K. Kubečka	865

<b>Peculiarities of Discharge and Purification of Sewage in the Sevan Basin</b> L. Levonyan, G. Hovsepyan, G. Madatyan and R. Harutyunyan	870
<b>Peculiarities of Urban Strategy Formation of the Republic of Armenia</b> A.A. Aloyan and A.Y. Safaryan	875
<b>Application of Risk Analysis for Building Evaluation</b> M. Bilanič, K. Kubečka and P. Vlček	879
<b>Multi-Criteria Optimization and its Application to Earthwork Processes</b> L. Paulovičová	883
<b>Design of Mechanized Concrete Processes</b> L. Prokopčák	888

## **Chapter 7: Education Engineering**

<b>Educational Process at the Faculty of Civil Engineering, VŠB – Technical University of Ostrava, in the Context of Evolution of the Bologna Process</b> L. Jurčíková and I. Kološ	895
<b>The Problems of an Internal System Formation in Quality Assurance for the Professional Tertiary Education of the Architects and Constructors</b> A. Markosyan, S. Tokmajyan and G. Ivanyan	900
<b>Development Prospects of the Organizational and Legal Status of Education System in the Republic of Armenia</b> N. Hakobyan and A. Ghazarosyan	904
