

Table of Contents

Introduction

Determination of Emissivity Characteristics for Controlled Cooling of Nickel-Alloy Forgings

P. Skubisz and P. Micek 1

Application of CFD in Hydraulic Directional Valve Modeling

P. Rosikowski and Z. Jędrzykiewicz 8

Wave Packet as a Model of Localised Disturbances Propagating along the Cables

J. Snamina 20

Dynamic Similarity of Wind Turbine's Tower-Nacelle System and its Scaled Model

J. Snamina, P. Martynowicz and W. Łatas 29

Development of Laboratory Model of Wind Turbine's Tower-Nacelle System with Magnetorheological Tuned Vibration Absorber

P. Martynowicz 40

Model Testing of the 2nd Phase of Die Casting Process

R. Dańko and J. Stojek 52

FEM Analysis of a Cantilever Sandwich Beam with MR Fluid Based on ANSYS

M. Romaszko and M. Węgrzynowski 63

Diagnosis of Supporting Structures of HV Lines Using Magneto-Mechanical Effects

M. Iwaniec, M. Witoś, M. Roskosz and S. Gontarz 70

Experimental Tests of an Electromechanical Transducer of Reverse Linear Motion into Electrical Energy

M. Węgrzynowski and M. Romaszko 86

A Project of a System for Measuring Child's Foot Pressure on a Shoe Sole

M. Apostoł and M. Siwiecki 93

The Application of Visual Evoked Potentials in Brain-Computer Interface

A. Nawrocka and M. Nawrocki 102

Design and Modeling of FEM Seals with Controlled Clamp Spring Elements

M. Apostoł, A. Jurkiewicz and Ł. Rajda 109

Interval Type-2 Fuzzy Logic Control of DM Series Shape Memory Actuator

I. Dominik 116

LQG Control of the Smart Truss with the Piezoelectric Active Members

D. Grzybek 125

Laboratory Research on Energy Harvesting of Ionic Polymer Metal Composite

J. Kwaśniewski, I. Dominik and F. Kaszuba 134

Simulation of 2S1 Tracked Vehicle Model with Modernized Suspension System during Crossing a Single Obstacle

T. Nabagło, A. Jurkiewicz, M. Apostoł and P. Micek 140

Shape Prediction of Non-Ferrous Pipe Elements Processed by Electro-Dynamic Forming

A. Kot 148

Effect of Interfaces on Mechanical Properties of Ceramic/Metal Multilayers

M. Kot, Ł. Major, J. Lackner and W. Rakowski 156

The Fractional Brownian Motion Approach to Analysis of Fractional Control System with Non-Stationary Plant

W. Lepiarz 167

The Analysis of the Different Frequencies Sound Waves Effect on the EEG Signal

A. Nawrocka and K. Holewa 177

Development of Research Methods for the Assessment of the Technical Condition of Ropes

G. Olszyna, A. Sioma and A. Tytko 183

Analysis of Dependence between Stress Change and Resonance Frequency for Self-Excited Acoustical System

J. Kwaśniewski, I. Dominik, K. Lalik and A.A. Sakeb 194
