

Table of Contents

Preface

Section I: Coatings / Corrosion Inhibitors

Green Chemical Treatments for Heating and Cooling Systems S. Drozd, V.F. Hock, D. Hurt and S. Maloney	1
Non-Chromate Surface Protection for Aircraft Maintenance G. Bockmair	7
Pyrrole-Based Silane Primer for Corrosion Protection of Commercial AA 2024 T3 M. Trueba and S.P. Trasatti	14
Simultaneous Reduction of Wear and Corrosion of Titanium, Magnesium and Zirconium Alloys by Surface Plasma Electrolytic Oxidation Treatment H.M. Nykyforchyn, V.S. Agarwala, M.D. Klapkiv and V.M. Posuvailo	27
Black Layers on Aluminum Substrate – Evaluation of Corrosion Behavior L. Anicai, A. Pertache, M. Buda and T. Visan	36
Graded Anodic Film Morphologies for Sustainable Exploitation of Aluminium Alloys in Aerospace M. Curioni, P. Skeldon, G.E. Thompson and J. Ferguson	48
Effect of Flow Disturbed Condition and MEA Inhibitor on Corrosion Behavior of an API 5L Grade A Steel R. Fako and M. Soare	56
Fracture Resistant and Wear Corrosion Performance of CrN/ZrN Bilayers Deposited onto AISI 420 Stainless Steel N.A. de Sánchez, H.E. Jaramillo Suárez (1), Z. Vivas, W. Aperador, C. Amaya and J.C. Caicedo	63

Section II: Corrosion Prevention Control

Electro-Osmotic Pulse Technology for Corrosion Prevention and Control of Water Intrusion in Below Grade Concrete Structures V.F. Hock, O. Marshall, M. McInerney and S. Morefield	79
Corrosion Control Cost Reduction through Improved QA Information Management - An OSD Funded Joint Navy Army Initiative V.F. Hock, S. Drozd, A. Seelinger and D. Doyle	88
Sustainable Building Materials for the Prevention of Corrosion R. Lampo, T. Napier and R. Schneider	93
A New Technique for Locating Coating Faults on Buried Metallic Pipelines L. Di Biase, R. Cigna and O. Fumei	113

Section III: Monitoring and Diagnostic

Wireless Sensors with Advanced Detection and Prognostic Capabilities for Corrosion Health Management K. Kwan, B. Caldwell, J. Morse, J. O'Day, B.C. Laskowski, T.K. Ooi and A. Corder	123
Water Distribution System Modeling and Remote Monitoring V.L. Van Blaricum and V.F. Hock	132
Acoustic Leak Survey of the Underground Potable Water System at a CONUS Army Installation S. Morefield and J. Carlyle	143
Use of Fiber Optic Sensors for Monitoring Crack Growth in Fatigue and Corrosion-Fatigue Tests A. Brotzu, F. Felli, A. Paolozzi, L. Caputo, F. Passeggio and S. Gaeta	155

Section IV: Management and Data Analysis

Measuring Rates and Impact of Corrosion on DOD Equipment S. Morefield, S. Drozd, V.F. Hock and W. Abbott	163
The Development of a Corrosion Prognostic Health Management System for Australian Defence Force Aircraft T. Trueman, P. Trathen, K. Begbie, L. Davidson and B. Hinton	182
<i>In Situ</i> Lining of a Pre-Action Fire Suppression System to Prevent Pitting Corrosion of the Carrier Pipe O. Marshall	201

Section V: Corrosion Mechanism / MIC

Anodic Alumina Membranes as Template for the Synthesis of 1-D Metal Oxide and Hydroxide Nanostructures P. Bocchetta, M. Santamaria and F. Di Quarto	213
Corrosion Behavior of some Sintered CuNi Alloys – Preliminary Laboratory Data A. Sorcoi, R. Fako and S. Cojocaru	229
Experimental Study of Propagation Stage of Pitting Corrosion of 20Cr13 Steel A.D. Davydov and V.S. Shaldaev	238
Effect of Surface Nanocrystallization on the Acid Corrosion and Corrosion Inhibition of Low Carbon Steel E.E. Oguzie, Y. Li and F.H. Wang	248
Microbial Contamination and Associated Corrosion in Fuels, during Storage, Distribution and Use E.C. Hill and G.C. Hill	257

Section VI: Stress Induced Cracking

Fatigue Behaviour of Corrosion Resistant Surface Thin Hard Coatings S. Baragetti	271
--	-----

Section VII: Metal Joining Concepts

The Effect of Heat Treatment and Welding Parameters on the Corrosion Behaviour of a Friction Stir Welded 6056 Aluminium Alloy T. Monetta, M. Montuori, A. Squillace and F. Bellucci	285
Corrosion Control of Friction Stir Welded Aluminium Airframe Alloy X. Zhou, Y. Younes, D. Wadeson, T. Hashimoto and G.E. Thompson	298
LBW of Similar and Dissimilar Skin-Stringer Joints Part I: Process Optimization and Mechanical Characterization A. Prisco, F. Acerra, A. Squillace, G. Giorleo, C. Pirozzi, U. Prisco and F. Bellucci	306
LBW of Similar and Dissimilar Skin-Stringer Joints Part II: Electrochemical Characterization G. Castagnola, A. Squillace, M. Montuori, V. Marzocchi, V. Casanova, P. Mastronardi, G. Campanile and F. Bellucci	320
