Committees and Sponsors

Introduction, Organizer

Preface by George F. Hays

Corrosion of Biomaterials

The History, Challenges and the Future of Biodegradable Metal Implants

F. Witte, A. Eliezer and S. Cohen

3

Perspectives on Analytical Methodology of Platinum Metals

L. Tofan, C. Păduraru, L. Bulgariu and R. Wenkert

9

Corrosion Behavior of Magnesium Alloys in Biomedical Environments

A. Eliezer and F. Witte

17

Corrosion and Protection

The Contribution of Neural Networks to Solve Corrosion Related Problems

S.P. Trasatti

23

Corrosion Control in the Desalination Industry

B. Valdez and M. Schorr

29

Effect of H₂S on Corrosion in Polluted Waters

M. Quintero-Núñez, B. Valdez and M. Schorr

33

Magnesium Science and Technology

Galvanic Weld Metal-Base Metal Corrosion in AZ31 Magnesium Weldments

C.E. Cross, P. Xu, D. Eliezer and G. Ben-Hamu

39

The Relation between Microstructure and Corrosion Behavior of New Mg-Al-X Alloys for Transportation Application

G. Ben-Hamu, D. Eliezer and K.S. Shin

43

Studies on the Influence of Chloride Ion Concentration on the Corrosion Behavior of ZSMX Magnesium Alloy

G. Ben-Hamu, D. Eliezer and K.S. Shin

47

Stabilization of Microstructures in Mg-Based Alloys: Modeling and Processing

A. Katsman and M. Bamberger

51

The Correlation between Plastic Deformation and Surface Properties of SiC Structured AM50 Magnesium Alloy

A. Eliezer, A. Karbian, E. Kiperwasser and A. Koritny

55

Corrosion in Concrete and Industry

Thickness of Concrete Cover for Corrosion Protection of Steel Reinforcement and Crack Control

R. Farhat

61

Influence of the Interfacial Transition Zone Properties on Chloride Corrosion in Reinforced Concrete-Characterization of ITZ

A. Kenny and A. Katz

69

Microbially Induced Corrosion in the Mineral Processing Industry

M. Stoytcheva, B. Valdez, R. Zlatev, M. Schorr, M. Carrillo and Z. Velkova

73

Surface Applications

Corrosion Behavior of Surfaced AM50 Magnesium Alloys under Stress Conditions A. Eliezer	79
Polyurea – The New Generation of Lining and Coating E. Zur	85
Microstructure of Ti-45Al-5Nb after Cathodic Charging E. Barel, G. Ben-Hamu and D. Eliezer	87
A New Chelating Sorbent for Removal of Copper (II) in Corrosion Mechanism and Pollutant Ions R. Wenkert, I. Bunia, V. Neagu and I. Sârghie	91
