## Preface

## Chapter 1: Corrosion Resistance of Ferrous Alloys in Various Environments

|                                                                                                                                                                                                       |    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>Corrosion Performance of TRIP Steels under Atmospheric Environment</b><br>H.X. Wang, Y.Q. Cai, Z. Li and Q. Zhou                                                                                   | 3  |
| <b>Determination of Bimetallic Corrosion Risk Using an Electrochemical Method</b><br>M. Hagarová, D. Jakubéczyová, G. Baranová and R. Šimko                                                           | 9  |
| <b>Temperature Effect on Pseudomonas Aeruginosa Growth and Its Presence on Corrosion of Steel Wire Rope</b><br>N. Hasim, N.S. Azmi, W.F.F. Wan Ali, E. Hamzah, A. Yahya, M.A. Mat Yajid and N. Nosbi  | 17 |
| <b>The Influence of H<sub>2</sub>SO<sub>4</sub>- NaCl Electrolyte Composition to the Electrochemical Noise Behaviour of a High-Alloy Cast Steel</b><br>M. Mandel, V. Kietov, M. Wendler and L. Krüger | 23 |
| <b>The Effect of Citric Acid Concentration on Corrosion Behavior of Austenitic Stainless Steel 316 L</b><br>Suwarno and H. Muhtadi                                                                    | 30 |
| <b>Evaluation of Corrosion Behavior of Different Grades of Cast Iron Insodium Chloride Solutions</b><br>A. Nofal, A.S.I. Ahmed, W.A. Ghanem, W.A. Hussein and N.K. Mohamed                            | 35 |
| <b>Electrochemical Corrosion Behavior of Iron Aluminides in Sulfuric Acid</b><br>P.P. Brito, C.T. de Carvalho Filho and G. de Andrade Oliveira                                                        | 41 |
| <b>Considerations about the Organic Acids Effect on Weldings in Food Processing Industry</b><br>M.B. Nistoran, G.V. Mnerie and D. Mnerie                                                              | 47 |
| <b>Liquid Metal Embrittlement of Copper Brazed Plate Heat Exchangers</b><br>R. Haubner, S. Strobl, L.P. Bichler and P. Linhardt                                                                       | 52 |
| <b>Corrosion Behavior of Super Austenitic Stainless Steel 904L Weldment in Sulfuric Acid Media Used for Leaching Application</b><br>G.M. Rashed, W.A. Mohrez, A.A.M.A. El-Hamid and I.M. Ghayad       | 58 |

## Chapter 2: Effect of Technological Processing on Corrosion Resistance of Ferrous Alloys

|                                                                                                                                                                                                                                    |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Corrosion Resistance of Vanadis 6 Steel after Conventional Heat Treatment and Sub-Zero Treatment in Cold Nitrogen Gas Followed by Tempering</b><br>A. Bartkowska and P. Jurčí                                                   | 69  |
| <b>Corrosion Behavior of a Predeformed Fe-Ni Lateritic Steel with Bainite Structure</b><br>M. Rohmah, M.S. Anwar, R. Roberto and F. Citrawati                                                                                      | 83  |
| <b>Effect of Grain Structure on the Mechanical and Corrosion Behavior of Advanced Medium Mn Stainless TWIP Steel</b><br>M.H.A. Gadelhaq, A.S. Hamada, I.M. Ghayad, A. Järvenpää, M. Jaskari and M. Hossam                          | 92  |
| <b>Anodic Polarization Behavior of Cold-Worked Austenitic Stainless Steel: A Newer Approach</b><br>N. Srinivasan, S.S. Kumaran and D. Venkateswarlu                                                                                | 98  |
| <b>Effect of Mechanical Properties and Corrosion Behaviour of Martensitic Stainless Steel 410 1.6mm Butt Welded by Plasma Arc Welding</b><br>M. Sree Arravind, S.R. Kumar, S.S. Kumaran and D. Venkateswarlu                       | 104 |
| <b>Corrosion Resistance of the Sintered Fe-Cu-C, Fe-Cu-Ni-Mo-C and Fe-Cr-Mo-C Alloys Coated with a Rust Preventive Oil</b><br>S. Sunada, M. Hatakeyama, K. Hibino, K. Tagishi, Y. Mizukoshi, S. Takeuchi, Y. Maekawa and N. Nagase | 110 |

|                                                                                                                                                                                                                                                           |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Structural Transformations Influence on Mechanical-and-Physical and Chemical Properties of Fe-Cr-Co Alloys in Heating</b><br>V.V. Berezovskaya and V.A. Sharapova                                                                                      | 120 |
| <b>Quantitative Analysis of the Sensitization of an Austenitic Stainless Steel Aged between 600 and 900°C through Electrochemical and Microstructural Measurements</b><br>R.C. Mesquita, A.R.M. Ribeiro, C.L. Gonçalves, D.M.L. Ribeiro and S.C.G. Caldas | 125 |
| <b>Laser Welding Influence on Corrosion Rate of Galvanized Sheets of DP600 Automobilitic Alloy</b><br>V.T. Mazur, S.R. Nascimento, M.d.F. Oliveira, W.C. Braz, C.G.C. de Castro, M.S.F. Lima and M.M. Mazur                                               | 131 |
| <b>Influence of Roughness on Corrosion Resistance of Carbon Steel SAE 1020 and DOMEX® 700 MC Steel</b><br>Y.d.A. Takahashi, E.d.P. Banczek, V. Teleginski Mazur and S. do Nascimento Rosa                                                                 | 136 |
| <b>Influence of Powder Condition on Surface Properties of Cold-Resistant High-Strength Steel Produced by Direct Laser Deposition Method</b><br>R.S. Korsmik, E. Alekseeva and A. Breki                                                                    | 142 |
| <b>Corrosion Behavior and Mechanical Properties of New Developed Oxide Precipitation Hardened Steels</b><br>O. Khalaj, E. Saebnoori, H. Jirková, O. Chocholatý and J. Svoboda                                                                             | 150 |

### **Chapter 3: Corrosion Resistance of Non-Ferrous Alloys**

|                                                                                                                                                                                                                |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Effect of Zr on Structure and Resistance to Intergranular Corrosion of Severely Deformed 2024 Aluminum Alloy</b><br>S.V. Krymskiy, R. Ilyasov, E. Avtokratova, O. Sitdikov, A. Khazgalieva and M. Markushev | 159 |
| <b>Development of New Wrought Mg Alloys: Improving the Corrosion Resistance by Addition of Alloying Elements</b><br>G. Ben Hamu and P. Metalnikov                                                              | 167 |
| <b>Corrosion Resistance of Zn-Al-Mg Alloys with Hypoeutectic Microstructure</b><br>G.R. Jiang, J. Zhou, T. Shang and G.H. Liu                                                                                  | 178 |
| <b>Corrosion Behaviour and Microhardness during Dry and Flood Milling of Ti-6Al-4V Alloy</b><br>E.T. Akinlabi, I. Mathoho and M.P. Mubiayi                                                                     | 185 |
| <b>Localized Corrosion and Microstructure of the Aircraft Aluminium Alloy</b><br>A.S. Gnedenkov, S.L. Sinebryukhov, D.V. Mashtalyar and S.V. Gnedenkov                                                         | 191 |
| <b>Electrochemical Characterization of Ti6Al4V Components Produced by Additive Manufacturing</b><br>A. Acquesta, A. Carangelo, P. Di Petta and T. Monetta                                                      | 197 |
| <b>Microstructural and Corrosion Studies by Immersion in 3.5% NaCl Solution on Aged Mg-9Al-1Zn-XCa Alloy</b><br>S. Manivannan, B. Narenthiran, A. Sivanantham and S.P.K. Babu                                  | 203 |
| <b>The Effect of Al Micro-Alloying on Corrosion and Thermal Properties of Sn-Zn Alloy</b><br>N. Jumali, N. Mohd Zaini, N.S. Sa'don, A.A. Mohamad and M.F. Mohd Nazeri                                          | 208 |
| <b>The Preliminary Study of the Addition Zinc in Tin-Copper Lead Free Solder</b><br>W.Y. Wong, R.A. Shamsudin, M.F. Mohd Nazeri and M.N. Masri                                                                 | 214 |
| <b>Effect of Increasing Salinity to Corrosion Resistance of 5052 Aluminum Alloy in Artificial Seawater</b><br>A.S. Darmawan, W.A. Siswanto, P.I. Purboputro, A.D. Anggono, Masyrukan and A. Hamid              | 219 |
| <b>On the Microstructure and Erosion Corrosion Behavior of Laser Processed Nickel Aluminium Bronze</b><br>A.K. Lakshminarayanan, S.R.K. Rao, K. Sridhar and A. Vignesh                                         | 224 |
| <b>Analysis of Pitting Corrosion for 2219 Aluminium Alloy under Different Corrosion Circumstances</b><br>Y.F. Li and S.L. Lv                                                                                   | 229 |
| <b>Degradation of Mechanically Surface Treated AZ31B Magnesium Alloy in 3.5 wt.% NaCl Solution</b><br>B. Arifvianto, Suyitno and M. Mahardika                                                                  | 234 |
| <b>Study of Corrosion of AA 3003 Aluminum in Biodiesel, Diesel, Ethanol and Gasoline Media</b><br>M. Soares, L.O. Berbel, C. Vieira, D.C.S. Oliszeski, C.B. Furstenberger and E.d.P. Banczek                   | 240 |

|                                                                                                                                                                                                |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Investigating the Effect of Friction Stir Welding on Microstructure and Corrosion Behaviour of Al-Zn-Mg Alloy</b><br>C. Sharma and V. Upadhyay                                              | 245 |
| <b>Correlation between Microstructure and Properties of Semi-Solid Products</b><br>A. Pola                                                                                                     | 252 |
| <b>Effect of Final Annealing Temperature on Corrosion Resistance of SZA-6 Zirconium Alloy Cladding Tubes</b><br>Z.B. Yang, J.J. Liao, S.Y. Qiu, Z.Q. Cheng, H. Liu, Z.P. Wu, J. Qiu and B. Gao | 264 |
| <b>Corrosion Behavior and Oxide Films of New Zirconium Cladding Corroded at Different Conditions</b><br>J.J. Liao, Z.B. Yang, S.Y. Qiu, Z.C. Li and Q. Peng                                    | 275 |

## **Chapter 4: High-Temperature Oxidation of Structural Metals**

|                                                                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>CHAPTER 1 Thermodynamics and Kinetics of the High Temperature Oxidation of Stainless Steels</b><br>S. Chandra-Ambhorn, T. Thublaor and C. Pascal                      | 285 |
| <b>Effect of Atmosphere on Duplex Oxide Formed on 9Cr Steel at 550 °C</b><br>M.H. Shirani Bidabadi, A. Rehman, Y. Zheng, L. Yang, S. Chandra-Ambhorn and Z.G. Yang       | 309 |
| <b>High Temperature Degradation of Thermal Oxides on AISI 304 Stainless Steels by Carbon</b><br>J. Tungtrongpaibroj, P. Thongyong, P. Saranyachot and S. Chandra-Ambhorn | 315 |
| <b>Deoxidation Process of Oxidized Zirconium Alloy</b><br>J.S. Zhang, C.S. Long, J.J. Liao, T.G. Wei and Z.B. Yang                                                       | 323 |
| <b>Oxidation and Corrosion of Al<sub>86</sub>Ce<sub>10</sub>Fe<sub>4</sub> Metallic Glass</b><br>J. Zhang, J. Jia, A. Chang, T. Zhao, C. Chang and S. An                 | 330 |
| <b>Corrosion of Fe-Cr and Fe-Cr-Ni Alloys at 700-800°C in CO<sub>2</sub>-0.3SO<sub>2</sub>-6O<sub>2</sub> Mixed Gas</b><br>M.J. Kim, D.B. Lee, X. Xiao and K.H. Lee      | 337 |
| <b>Effect of Additives on Ash Corrosion on Heat Exchanging Surface of Biomass Boilers</b><br>Y. Sun, Y.Z. Wang, K. Zhang and Y.G. Li                                     | 342 |
| <b>Corrosion Behavior and Mechanism of Heat-Resistant Steel T91 in High-Temperature Carbon Dioxide Environment</b><br>Y. Gui, Z.Y. Liang, M. Yu and Q.X. Zhao            | 349 |

## **Chapter 5: Stress Corrosion Cracking of Steels**

|                                                                                                                                                                                              |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Study on Stress Corrosion Cracking Sensitivity of CrNiMoV Steam Turbine Rotor Steels</b><br>S.X. Lin, Y.H. Huang, F.Z. Xuan and S.T. Tu                                                   | 357 |
| <b>Stress Corrosion Cracking of High-Pressure Scrubber in Urea Plant: A Case Study</b><br>M.M. Ghanem, H.A. Abdul Aleem and K.M. Hafez                                                       | 364 |
| <b>Effect of Thermal Aging on the Stress Corrosion Cracking Sensitivity of Z3CN20.09M Stainless Steel</b><br>H.C. Wu, W.X. Ti, C.T. Li, Z.J. Zhu, F.H. Cao, K.W. Fang, G.D. Zhang and F. Xue | 371 |
| <b>Crystal Orientation Analysis on Stress Corrosion Cracking Facets in Austenitic Stainless Steels</b><br>R. Wakinaga, N. Koga, O. Umezawa, M. Morita, S. Motoda and T. Shinohara            | 379 |
