

Table of Contents

Preface

Local Strain Hardening of Metal Components by Means of Martensite Generation B.A. Behrens, S. Hübner, A. Bouguecha, J. Knigge, K. Voges-Schwieger and K. Weilandt	1
Use of the Aging Effect to Change the Local Properties of Structure Components M. Asadi, N. Schulze and H. Palkowski	35
Production of Customized High-Strength Hybrid Sandwich Structures O. Sokolova, A. Carradó and H. Palkowski	81
Investigations into Manufacturing Composite Profiles Having Local Magnesium-Foam Reinforcements T. Plorin, D. Bormann, T. Heidenblut and F.W. Bach	129
Laser Bead-on-Plate Welding and Overlap Seams for Increasing the Strength and Rigidity of High Strength Steel M. Schimek, D. Herzog, D. Kracht and H. Haferkamp	161
Forging of Aluminium Components under a Superimposed Hydrostatic Pressure to Induce Local Strain Hardening B.A. Behrens, T. Hagen, A. Klassen, J. Knigge, J. Mielke and I. Pfeiffer	191
Development of Combined Manufacturing Technologies for High-Strength Structural Components B. Denkena, B. Breidenstein, L. de Leon and J. Dege	219
Investigation of the Process- and System-Induced Activation of Material Reactions during Discontinuous High-Frequency Welding V. Wesling, A. Schram and H. Wiche	247
Optical Quality Control of High-Strength Structures B. Denkena, H.C. Möhring, W. Acker and E. Zaretskiy	295
Fatigue Life Calculation Concepts for Structures with Locally Modified Properties T. Medhurst, A. Esderts and R. Masendorf	317
Low Heat Joining – Manufacturing and Fatigue Strength of Brazed, Locally Hardened Structures V. Wesling, A. Schram and M. Kessler	347
Setting of Gradient Material Properties and Quality Control of High Tension 3D NVEB-Weld Joints M. Diebel, G. Mroz, W. Frackowiak, J. Hauer, W. Reimche and F.W. Bach	375
Systematic Design Approach to the Development of High-Strength, Locally Adapted Structures with the Aid of the Finite Element Design (FED) Method A. Lohrengel, V. Wesling, G. Schäfer, A. Schram, S. Bessling, P. Echtermeyer and K. Stahr	413
Acoustic Measurements to Proof High-Strength Structures and Joints A. Lohrengel, D. Thoden and G. Schäfer	451
