

Table of Contents

Introduction	1
Solid Metals and Alloys	7
Liquid Metals and Alloys	68
Semiconductors	79
Oxide Systems	95
Halides and other Ionic Solids	127
Miscellaneous Substances	145
Bibliography	154
Book Reviews	232
Indexes	235
Solid Metals and Alloys	351
Liquid Metals and Alloys	403
Semiconductors	410
Oxides	420
Halides and other Ionic Substances	436
Carbides, Silicides and Organic Crystals	452
Bibliography	456
Book Reviews and Indexes	532
Solid Metals and Alloys	551
Liquid Metals and Alloys	579
Semiconductors	588
Oxides	592
Halides and other Ionic Substances	603
Miscellaneous Host Substances	617
References to the Data Sections	625
Additional References: General	634
Experimental Techniques, Solid Metals, Liquid Metals and Semiconductors	641
Oxides, Ionic Substances and Miscellaneous Materials	655
New Books	664
Indexes	669
