

Table of Contents

Introduction	
Semiconductors	1
Halides and other Ionic Substances, Halides, Arsenates, Carbonates, Chlorates, Nitrates, Phosphates, Sulfates and Silicates	23
Oxides, Spinel, Garnets and other Mixed Oxides	55
Carbon and Carbides, Nitrogen and Nitrides, Sulfides and Selenides, Organic Compounds, Non-Metallic Liquids, Metals and Alloys and Metallic Liquids	77
General References, Diffusion Processes, Electro- and Thermomigration, Point Defects, Defect Structures/Dislocations, Irradiation Effects and Ionic Conduction	143
Book Reviews	157
