

Table of Contents

Free Surface Relaxation and Two-Beam TEM Imaging of Straight Dislocations in Thin Foils	
R. Bonnet, S.B. Youssef, A. Boussaïd, C.H. Belgacem and M. Fnaiech	1
Free Volume Diffusion and Optimisation of Soft Magnetic Properties in Amorphous Alloys Based on Iron	
G. Haneczok and J. Rasek	13
Super-High Concentrations of Vacancies in Regions of High Concentration of Point Defects and Composition of Vacancy-Oxygen Complexes in These Regions in Pd, Ta, W and Pt Polycrystals	
S.M. Klotsman, V.N. Kaigorodov, A.V. Ermakov, V.K. Rudenko and N.I. Timofeev	27
Atomic, Electron and Phonon Aspects of the Edge Dislocation in Iron	
H.B. Liu and J.A. Ascencio	37
Calculation of Tracer and Chemical Diffusion Coefficients in the Intermetallic Compound β-AgMg	
I.V. Belova and G.E. Murch	45
Investigation of Hydride Formation in Crystalline and Amorphous Metallic Alloys Using Electrochemical Hydrogen Permeation Tests	
D.S. dos Santos	53
Vacancy-Formation Thermodynamics in Aluminium and Nickel: a Computational Study	
M. De Koning, S. Ramos de Debiaggi and A.M. Monti	59
Hydrogen Diffusion in Laves-Phase Compounds	
A.V. Skripov	75
Chemical and Intrinsic Hydrogen Diffusion in $\text{Pd}_{0.75}\text{Ag}_{0.25}$-H Alloys: NMR Aspects	
K. Tompa, P. Bánki and M. Bokor	93
A Discrete Dislocation Plasticity Model of Creep in Polycrystalline Thin Films	
A. Hartmaier, M.J. Buehler and H. Gao	107
A Simple Iterative Method for Analysing Experimental Tracer Diffusivities in Concentrated Binary Alloys	
I.V. Belova and G.E. Murch	127
Abstracts	1
