

Table of Contents

The Size Distribution of Defect Clusters in n-Si (FZ, Cz), Irradiated by Fast Neutrons A.P. Dolgolenko and G.P. Gaidar	1
Role of Diffusion in the Shaping of the High-Absorption State in a Resonatorless Exciton Bistable System Y.V. Gudyima and I.V. Kruglenko	9
On the Interaction of Dislocations with Impurities in Silicon D. Cavalcoli and A. Cavallini	15
Oxygen Enrichment of Silicon Wafer by Ion Implantation Method and Fabrication of Surface Barrier Detectors S.K. Chaudhuri, P.V. Rajesh, S.S. Ghugre and D. Das	23
DFT Analysis of the Indium-Antimony-Vacancy Cluster in Silicon M.M.D. Souza and J.P. Goss	29
Growth and Characterization of Boron-Doped $\text{Si}_{1-x-y}\text{Ge}_x\text{C}_y$ Layers Grown by Reduced Pressure Chemical Vapor Deposition H.H. Radamson and J. Hållstedt	39
Identification of the Nature of Deep Trap States in Molecular Beam Epitaxially Grown Gallium Arsenide N.C. Halder	51
Abstracts	1
