

Table of Contents

Recent Advances in Defect Characterization in 6H-SiC Using Deep Level Transient Spectroscopy and Positron Annihilation Spectroscopy	
C.C. Ling, C.D. Beling, M. Gong, X.D. Chen and S. Fung	1
Electronic State, Atomic Configuration and Local Motion of Hydrogen around Carbon in Silicon	
Y. Kamiura, K. Fukuda, Y. Yamashita and T. Ishiyama	25
Recent Advances in the Application of Slow Positron Beams to the Study of Ion Implantation Defects in Silicon	
A.P. Knights and P.G. Coleman	41
Diffusion Processes in Strained Silicon Germanium Island Structures	
T. Walther	53
Damage in III-V Semiconductors from very Low-Energy Process Plasmas	
M. Rahman	61
Influence of In-Doping on the Crystalline Quality of GaAs Epilayers on Si Substrates	
Y. Takano and S. Fuke	77
Point Defects in III-V Compound Semiconductors	
N. Chen	85
On the Role of Interdiffusion during the Growth of Ge on Si(001) and Si(111)	
R. Koch, B. Wassermann and G. Wedler	95
Point Defects and their Diffusion in Mercury Cadmium Telluride: Investigation Based upon High-Resolution X-Ray Diffraction	
N. Mainzer and E. Zolotoyabko	103
Morphological, Structural and Electronic Damage on InAs and InSb Surfaces Induced by (Reactive) Ion Beam Etching	
F. Frost, G. Lippold, A. Schindler and F. Bigl	127
Defects and Morphologies in $\text{In}_{0.8}\text{Ga}_{0.2}\text{As}/\text{InAlAs}/\text{InP}(001)$ for High Electron-Mobility Transistors	
J. Wu and F. Lin	147
Diffusion of Zinc in InP, InAsP and InGaAs by the Metal-Organic Vapor-Phase Diffusion Technique	
M. Wada, K. Sakakibara, T. Umezawa, S. Nakajima, S. Araki, T. Kudou and T. Ueda	153
Effect of Implant Temperature on Extended Defects Created by Ion Implantation in Silicon	
J. Wong-Leung, S. Fatima, C. Jagadish and J.D. Fitzgerald	163
Diffusion and Electrical Properties of Nickel in Silicon	
S. Tanaka, T. Ikari and H. Kitagawa	171
XPEEM Study of Liquid Au-Si Droplets on Si(111) near to the Eutectic Point	
B. Ressel, S. Heun, T. Schmidt and K.C. Prince	181
Effect of Surface Proximity upon Point Defects in Silicon	
V. Krishnamoorthy, M. Puga Lambers and K.S. Jones	189
Energetics of Extrinsic Defects in Si and their Role in Nonequilibrium Dopant Diffusion	
F. Cristiano, B. Colombeau and A. Claverie	199
Study of Diffusion and Defects by Medium-Energy Coaxial Impact-Collision Ion Scattering Spectroscopy	
T. Kobayashi, C.F. McConville, J. Nakamura, G. Dorenbos, H. Sone, T. Katayama and M. Aono	207
Transmission Electron Microscopic Study of Intersecting Stacking Faults in $\text{ZnSe}/\text{GaAs}(001)$ Epilayers and $(\text{SiGe})/\text{Si}(001)$ Multilayers	
K.K. Fung and N. Wang	215
Analytical In-Diffusion Profiles of Dopants in Semiconductors	
E. Antoncik	231
Abstracts	1
