

# Table of Contents

## Preface&Committees

<b>Assessment of Factors Affecting the Final Value of «Volume Loss» by TBM Tunneling</b> A.A. Skvortsov and E.B. Cherepetskaya	1
<b>Influence of Walkway Design on the Evacuation of Passengers within a Fixed Guideway Transit System</b> A. McDaid	11
<b>Scientific Principles for Shaping Underground Infrastructure of Megacities</b> B.A. Kartoza and A.V. Korchak	17
<b>Basic Directions of Improving the Durability of the Sewage Collector Lining</b> E.Y. Kulikova	25
<b>Investigation of Tubing Lining Loss of Tightness Causes</b> A.A. Mishedchenko and A.V. Kuzina	33
<b>Features of Numerical Modeling <i>In Situ</i> Stress State Massive of Rocky and Issues of Verification of the Data</b> I.E. Sas and E.B. Cherepetskaya	36
<b>The Impact of Construction Activities on Vegetation</b> V. Pospíchal and H. Kurth	45
<b>Study of Effects of Weathering Factors on Internal Structure of Rocks by Laser Ultrasonic Spectroscopy</b> A.A. Karabutov, E.B. Cherepetskaya, Y.G. Sokolovskaya, D.V. Morozov and V.A. Vinnikov	51
<b>Application of Stay Cable Systems in Large-Span Underground Construction</b> A.V. Korchak, V.A. Pshenichny and A.V. Oborin	59
<b>Improving the Efficiency of Artificial Ground Freezing in Urban Underground Construction by Using Solid Carbon Dioxide</b> M. Shuplik and P. Nikolaev	65
<b>Mathematical Model of the Painting Robot</b> M. Bruzl, V. Usmanov, P. Svoboda and R. Šulc	72
<b>Influence of Pipe Ramming on Stress State of Surrounding Soil and Nearby Tunnel Lining</b> A. Pankratenko, N. Quang Huy, N. Duyen Phong, A.S. Samal, A.B. Begalinov and D.B. Amantolov	81
<b>Relation of Construction Works to Water Quality</b> P. Svoboda and H. Kurth	87
<b>Protective Structure Design against Airblast Effect</b> J. Štoller and P. Dvořák	93
<b>The Effect of Redistribution of the Mixing Water of the Concrete Lining on its Quality</b> Y. Kulikov	103
<b>Environment Effects - Dust Pollution and Soil Protection</b> P. Svoboda and H. Kurth	111
<b>Contact Laser-Ultrasonic Evaluation of Residual Stress</b> E.B. Cherepetskaya, A.A. Karabutov, E.A. Mironova, N.B. Podymova and A.N. Zharinov	118
<b>New System of Ice Wall Strength Increase</b> I. Palankoev	125
