

Table of Contents

Preface and Committee

Chapter 1: Advanced Materials

Preparation and Swelling Characteristics of Hydrogel from Microbial Low Molecular Weight Poly(γ-Glutamic Acid) Y.B. Zhang, Z. Li, J.F. Zhang and C.S. Qiao	3
Effect of Meso-Submissions to Electronic Structure and Optical Properties of Ruffled Si Porphyrins Relatives G.J. Kang, C. Song and X.F. Ren	7
Age-Hardening Behavior of Pd-Ag-Sn-In-Zn Alloy H.J. Wu, X.Q. Zuo, Y.W. Wang, K.H. Zhang and Y.Z. Chen	14
Study on Properties of Hard Twist Cotton Yarn R.F. Cui and X.H. Li	20
Influence of Fabric Structure on Shielding Effectiveness of Anti-Electromagnetic Radiation Fabric J.M. Liu	25
A Molecular Dynamics Study of Fe Adatom Diffusion on Different Sized Fe Nanoparticles C. Dong	30
The Migration Behaviors of Individual Fe Adatom on Fe Nanoparticle C. Dong	34
Preparation and Properties of Capric-Lauric-Palmitic Acid Eutectic Mixtures/Expanded Graphite Composite as Phase Change Materials for Energy Storage X. Huang, Y.D. Cui, B.N. Zhang, G.Q. Yin and G.Z. Feng	40
The Application of New Material Development and Research in the Badminton Lines B.S. Wen	46
Analysis of the Cool Bending Fracture of HRB400 Y. She, W.M. Kong and Z.H. Zhang	50

Chapter 2: Material Processing Technology

Study on Data Analysis System of Multi-Information in Arc Welding J.H. Wang, C. Du and L.G. Ling	57
Discussion for the Calculation of Carbon Content and Heating Temperature in Austenitizing of Cast Iron W.B. Gong, Y. Zhang, H. Liu, H.F. Wang, Y.Q. Wu and L. Sun	62
DEFORM-Based Analysis and Discussion of Early Failure in Warm Extrusion Dies A.M. Zhang	68
Numerical Analysis of Sheet Metal Forming Limit for Local Forming R. Yang, Y. Liu, P.F. Wen and J.H. Zhang	76
Research on the Synthesis and Characterization of a Novel Dendritic Thickening Agent C. Wang, J. Ouyang, Z.Y. Zhu, G.F. Duan, F. Wang and Y.Y. Wang	84
Effects of Laser Cladding Process on Cladding Layer Qualities of Nickel-Base Alloy C.C. Zang, Y.Z. Wang and Y.D. Zhang	90
Prediction of Plastic Injection Shrinkage Ratio Using Grey Theory W.Z. Nie and T.P. Shi	96

Chapter 3: Designing and Manufacturing Technologies in Mechanical Engineering

Pre-Stressed Modal Analysis of the Shaft Based on ANSYS Workbench X.W. Song, Y. Wu, Y.A. He and F.Y. Chen	105
---	-----

Research on Influencing Factors of Manufacturing Listed Companies' Working Capital Policy in China Q. Hu, Y.Q. Wan and J.Q. Wang	111
Stability Analysis of Rectangular Thin Walled Structure under Nonlinear Distributed Stress D.H. Yu, Y.F. Hou and J. Sun	117
Testing Methods Selection for X-Ray Radiation Performance Index of Micro-Dose X-Ray Transmission Body Scanner C.X. Liu	122
Design and Research of Synchronous-Style Clamping Mechanism for Cable-Detecting Robot B.H. Wu and J.J. Xi	127
Study on Rigidity of Aluminum Alloy Portal-Type Frame Based on Finite Element Method X.Q. Zhong, F.X. Wei, T. Hu and Y. Liu	134
Fuzzy Yield Index for Optimal Tool Replacement Policy M.Y. Liao, C.W. Wu and F.Y. Zhang	139
Reliability Modeling on Time between Failures of NC Machine Tools Y.X. Xue, W. Xu and J.H. Li	145
Performance Comparison of the Fabricated Planet Carrier and the Integral Planet Carrier H. Zhang, S.H. Zhang, Z.S. Guo and H.M. Wang	151
Numerical Analysis of Elastic Rod Boundary Conditions X.Y. Qian, Z. Liu and J.L. Qu	155
Damage Detection Using Lamb Waves (Review) Z.L. Yang, H.M. Elgamal and Y. Wang	161
Research on Health Status and the Human Factors and Environmental Parameters of Special Equipment Maintenance Decision E.X. Du, W. Wang, W.Q. Niu and J.J. Ren	167

Chapter 4: Automation and Mechatronics

The Chopping Voltage Regulation System Based on PLC Control T. Zhang, Y. Luo, P. Gao and W.T. Lin	175
The Research on the Error Correcting Method for Acoustic Measurement the Missing Distance of Moving Areal Target X.W. Qi, H.Y. Liu, H.J. Gao and J.X. Dong	180
Control Strategy Used on UAV Motion System H.C. Zhou and Z.P. Jiang	186
Single Channel Control Simulation Used on Servo Control H.C. Zhou and C.B. Chen	191
Design of Permanent Magnet Synchronous Motor Rotor Position Detection System Based on TLE5012 Z. Wang, J.P. Luo and X. Qiu	195
Research on Automatic Checking of Protection Functions for Smart Substation Y. Lu, Y.P. Zhang and Y. Tian	200
Based on the Optimize Design of C/S Framework Automation System of Power Plant and Substation W.Y. Zhang, Y.M. Wang and Y.P. Zhang	208
Advanced Applied Research of Smart Substation Based on Multi-Element Data W.Y. Zhang, C.G. Wang, F. Yang, T.W. Yu and Y. Lu	214
Intelligent Protection Device of Dual-Core Feeder Switch Based on DSP X.Y. Mo, J.Y. Xu, P. Gao and X.Y. Hu	218
The Measurement Method of Distance from Vehicle Ahead Based on Infrared Technology N. Zhang	223
Research on Optimal Control Model for Ball Mill Based on Genetic Algorithm C.L. Zhang, J.F. Yang and Y.H. Cao	227
The Review of Development of Modern Technology of Surveying and Mapping Methods Y.J. Liu	231
Design of New Energy Vehicle Intelligent Anti-Collision System X.J. Ruan	234

On Robust Control System to Controlled Object of Large Change Y.H. Chen and Z.X. Han	239
Adaptive Active Control System of Vehicle Noise Design and Test J.G. Jiang and Y. Zeng	251
A Study on the Campus Public Safety Monitoring System Based on Intelligent Vision X.Z. Zhang	257
Research on Output Current Sharing and Synchronous Start-Up in Parallel Power Supply Modules C. Huang, J.J. Liao and H.S. Yu	262
Application of Media Assets Management in TV Program Production Y. Zhang	267
Design and Simulation of Enhanced Two-Transistor Forward DC/DC Converter G.Y. Xu, H.C. Zou, H. Yang and K.Y. Liu	272
The Study of LC Three Point Oscillation Circuit Based on the Multisim Simulation Software D.Y. Cao, Y. Zhang and Y. Zou	278

Chapter 5: Building Materials and Construction Technology

Study on the Seepage Defect at the Connection of the Overflow Dam and the Earth Dam of Banqiao Reservoir B.S. Nie and Z.Z. Shen	287
Atrium Fire-Proof Design in Ecological Strategy Taking the Library of Shandong Jiaotong University as an Example J. Yin	292
Application of Improved LEC Method in the Construction of Water Conservancy Project Hazard Evaluation Z. Yang and L.J. Feng	297
Stress Analysis of CFRP Externally Pre-Stressed Reinforcement Continuous Beam X.Z. Wang and C.X. Li	300
Analysis of Soil Liquefied and Damage Phenomenon at Home and Abroad Z.Y. Li and Y. Guan	305
Durability Evaluation and Prediction of Service Life for Cement-Based Grouting Materials P. Tu, Y.L. Hu and G.X. Zhang	311

Chapter 6: Product Design

The Influences of Slope and Slipperiness on Subjective Rating of MMH Y.W. Hsu and L. Chen	321
The Identity and Design of Thai Tradition Paintings S. Seviset and C. Louhapensang	327
About Product Design of Barriers Design J.S. Wang and X. Wang	333
The Application of Polymer Materials with High Mechanical Properties in Competitive Sports N. Li	337
Reliability Method on Product Innovation Design R. Zhang	341
The Application of “5W1H” in Industrial Design X. Su	346
The Application of Green Ecological Packaging Materials in Modern Packaging Design L.Y. Gao	350

Chapter 7: Agriculture and Food Industry

Analysis on the Influencing Factors of Grain Farmers' Income in Heilongjiang Reclamation D.H. Zhang	357
Comparative Study on the Coordination of Food Production and Farmers' Income in Heilongjiang D.H. Zhang	363
Sensitivity of Panicle Related Quantitative Characteristics of Rice DUS Test to Environmental Changes Y.F. Liu, J.M. Wang, Q.M. Huang, J.H. Zhang, X.H. Yang, H. Zhang, P. Zhang and J.J. Guan	368
Ultrasonic-Assisted Extraction and Antibacterial Properties of Polyphenols of Sweet Corncob X. Wang and L.P. Xu	374
