

## **Table of Contents**

<b>Materials: Metals and Alloys</b>	1
<b>Halides and other Ionic Substances</b>	92
<b>Oxides</b>	116
<b>Semiconductors</b>	152
<b>Carbon and Carbides, Hydrides, Nitrides, Inert Gas Solids, Organic Crystals and Liquids</b>	200
<b>General References: Diffusion Processes, Electrical Conduction, Electro- and Thermotransport, Point Defects and Defect Structures</b>	230
<b>Dislocations, Boundaries, Surfaces, Interfaces, Irradiation Effects, Ion Bombardment, Ion Implantation and Liquid State Properties</b>	250
<b>Book Reviews</b>	261
