

## Table of Contents

<b>Pressure and Stress Effects on Diffusion in Si</b>	
M.J. Aziz	1
<b>Boron Diffusion in Pre-Amorphised Silicon: Interactions with the End of Range Defects</b>	
D. Mathiot, A. Claverie and A. Martinez	11
<b>Stress in Silicon Nitride Films and Its Effect on Boron Diffusion in Silicon</b>	
S. Matsumoto, K. Osada, Y. Zaitsu, T. Shimizu, E. Arai, S. Tanigawa and F. Uberti	25
<b>Quantum Effects on Hydrogen Diffusion in Silicon</b>	
C.P. Herrero	45
<b>Self-Diffusion in Silicon</b>	
M.M.D. Souza and E.M. Sankara Narayanan	69
<b>Diffusion of Si Adsorbates on an Si(001) Surface</b>	
T. Doi, M. Ichikawa, S. Hosoki and K. Ninomiya	81
<b>Vacancies and Vacancy Defects in Si Observed by Positron Annihilation</b>	
P.J. Hautojärvi, K. Saarinen, J. Mäkinen and C. Corbel	97
<b>Vacancy Distributions in Silicon and Methods for Their Accurate Determination</b>	
H. Zimmermann	111
<b>Interaction and Migration Properties of Ion Beam Induced Point Defects in Crystalline Silicon: Basic Research and Technological Relevance</b>	
E. Rimini, S. Coffa, S. Libertino, G. Mannino, F. Priolo and V. Privitera	137
<b>Review of Growth Striations in CZ and MCZ Silicon Wafers</b>	
H. Yamagishi	159
<b>Theory of Reaction-Diffusion Processes at Very High Dopant Concentrations</b>	
E. Antoncik	183
<b>Diffusion and Reaction Kinetics of Fast-Ion-Induced Point Defects Studied by Deep Level Transient Spectroscopy</b>	
A. Hallén, N. Keskitalo and B.G. Svensson	193
<b>Analytical Expressions for the Length of Stacking Faults during Thermal Nitridation of Oxidized Silicon and Silicon</b>	
N.K. Chen, K.C. Yu and C. Lee	205
<b>Abstracts</b>	1
