

Table of Contents

Preface

Chapter I

An Overview of Selected Phenomena in Multicomponent Diffusion

M.A. Dayananda

3

Chapter II

Determining a Tracer Diffusivity by way of the Darken-Manning Equation for Interdiffusion in Binary Alloy Systems

T.R. Paul, I.V. Belova, E.V. Levchenko, A.V. Evteev and G.E. Murch

25

Chapter III

An Essay on the Heat of Transport in Solids and a Partial Guide to the Literature

A.B. Lidiard

57

Chapter IV

Surface Effects and Critical Dimensions of Iron Nanoparticles

G. Kozlowski, V. Chaudhary, Z. Turgut, H. Kosai, A. Sheets, T. Bixel, A. Wheatley, P. Abdulkin, B. Knappett, D. Jefferson, M. Matusiewicz, J. Kasperczyk and M. Makowska-Janusik

71

Chapter V

An Overview on Surface Hardening of Titanium Alloys by Diffusion of Interstitial Atoms

H. Güleriyüz, E. Atar, F. Seahjani and H. Çimenoglu

103

Chapter VI

The Entry of Ions into a Molecular Synthetic Channel in a Membrane

D.A. Morton-Blake

119

Chapter VII

Mass Diffusion in Process Metallurgy

N.N. Viswanathan, B.N. Ballal and S. Seetharaman

139
