

Table of Contents

Preface

An Analytical Method for Free Vibration Analysis of Composite Beams Subjected to Initial Thermal Stresses

A. Mahi, E.A. Adda-Bedia and A. Benkhedda 1

Polynomial Approach Modeling of Resonator Piezoelectric Disc

L. Elmaimouni, J.E. Lefebvre, F.E. Ratolojanahary, A. Raherison, B. Bahani and T. Gryba 11

Study of the Transmission of Ultrasonic Guided Wave at the Junction of Two Different Elastic Plates with the Presence of a Defect

T. Belhoussine Drissi, B. Morvan, M. Predoi, J.L. Izbicki and P. Pareige 21

Identification of the Dynamic Coefficients of Hybrid Bearings

K. Atchonouglo, O. Bonneau, P. Jolly and C. Vallée 31

Impact Resistance of Composite Materials under Biaxial Preloading

C. Garnier, T. Djilali, R. Brault and S. Mistou 39

Characterization of Grains Size by Ultrasounds

A. Badidi Bouda, M.S. Aljohani, A. Mebtouche, R. Halimi and W. Djerir 49

Identification of Materials Properties Using Displacement Field Measurement

M. Fazzini, O. Dalverny and S. Mistou 57

Physical and Mechanical Properties of the Reinforced Polyester: Characterization - Probabilistic Analysis

K. Ait Tahar and N. Harb 67

Seismic Vulnerability Assessment Using the Instrumentation of an Existing Building

F. Duco, J.P. Faye, S. Caperaa and E. Reubrez 79

High Temperature Tribological Behaviour of Metal Matrix Composites Produced by SPS

S. Orozco Gomez, K. Delbé, A. Benitez, J.Y. Paris and J. Denape 89
