

Table of Contents

Foreword

Electrical Properties of Metal Oxides at Elevated Temperatures T. Bak, J. Nowotny and C.C. Sorrell	1
Electrochemical Techniques in Studies of Solid Ionic Conductors S.P. Jiang, J.G. Love and S.P.S. Badwal	81
Electrochemical Aspects of Ionic Solids B.Y. Liaw	133
Equilibrium Electrical Property Measurements in Electroceramics B.-. Hong, S.J. Ford and T.O. Mason	163
Materials and Characterization of Solid Oxide Fuel Cell T. Kawada and H. Yokokawa	187
Defect-Related Properties of Nuclear Materials Studied by Electrical Method T. Matsui	249
Electrochemical Titration in Study of Nonstoichiometric Compounds Y.D. Tretyakov, A.F. Maiorova and Y.M. Berezovskaya	283
Electrical Properties of Grain Boundaries in Ceramic Semiconductors K. Mukae	317
Experiments to Determine the Cross Effect between Ionic Flow and Electronic Flow in an Oxide $A_{1-\delta}O$ with Prevailing Electronic Conduction H.I. Yoo	331
Electrical Properties of Anhydrous Iron Oxides C. Gleitzer	355
