

Table of Contents

Preface**Electron Energy Loss Spectroscopy**

E. Zeitler 1

Localised Valence Energy Loss Spectroscopy in the Scanning Transmission Electron Microscope

C.G. Fan, A. Howie, C.A. Walsh and J. Yuan 15

Analytical Scanning Electron Microscopy for Solid Surface

T. Ichinokawa 31

Profile Imaging of Surfaces and Surface Reactions

P. Lu, M.R. McCartney and D.J. Smith 59

Imaging of Oxygen Atoms in Cuprous Oxide and a New Series of Suboxides of Copper and Nickel

R. Guan, H. Hashimoto and K.H. Kuo 73

Convergent Beam Electron Diffraction Study of Semiconductor Superlattices and High T_C Superconducting Oxides

K.K. Fung 85

Electron Diffraction and Modulated Structures

R.L. Withers 103

Dynamics of Discommensuration in Commensurate-Incommensurate Phase Transition of Dielectrics and Alloys

K. Yagi, R. Ariyoshi, K. Tsuda and N. Yamamoto 115

The Roles of Defects during Phase Transitions in Complex Oxide Crystals

D. Feng, J. Chen, X.Q. Pan, M.S. Hu, Y. Tao and A. Pu 129

High Resolution Electron Microscopic Observation of Fission Tracks in Zircon

K. Yada 143

Electron Diffraction and Microscopy Evidences of Quasicrystals

K.H. Kuo 153

Electron Diffraction and HREM Study on Imperfect Icosahedral Quasicrystals

F.H. Li 169

Crystal Structure Analysis of Organic Solid Solutions and Eutectics in the Electron Microscope: Paraffins, Polymers and Lipids

D.L. Corset 185
