

Table of Contents

Preface

Defect Structure and Electrical Properties of Barium Titanate

J. Nowotny and M. Rekas 1

Dielectric Ceramic Materials Based on Alkaline Earth Metal Titanates

J. Nowotny and M. Rekas 45

Recent Developments in the Manufacture of Barium Titanate Powders

A.D. Hilton and R. Frost 145

Effect of Microstructure on the Dielectric Property of Ceramics

T. Ota, J. Takahashi and I. Yamai 185

Powder Processing and Dielectric Property of Lead-Based High-Epsilon_r Materials for Multilayer Ceramic Capacitor

S. Takahashi and A. Ochi 247

Piezoelectricity and Piezoelectric Materials

J. Unsworth 273

Applied Aspects of Piezoelectricity

K. Uchino 311

Thermistors

A. Amin and R.E. Newnham 339

Interfacial Effects in Perovskites

S.B. Desu 375

High Resolution Electron Microscopy of Electronic Ceramic Materials

L.A. Bursill and J.L. Peng 421

Basic Properties of High-T_c Superconductors: Fabrication, Current Materials Research and Applications

E.R. Vance 461

Defect Chemistry of High T_c Superconducting Cuprates

T.O. Mason 503

Thermodynamical Aspects of Ferroelectric Phase Transformations

W.S. Ptak and K. Tkacz 537
