

Table of Contents

Colloidal Probe AFM Measurements of the Electrophoretic Force L. Stappers and J. Fransaer	1
3D Particle Assembly in Micro-Scale by Using Electrophoretic Micro-Fabrication Technique J.I. Hamagami, K. Hasegawa and K. Kanamura	7
The Evolution of the Electrical Field Drop over the Suspension during EPD G. Anné, B. Neirinck, K. Vanmeensel, O. Van der Biest and J. Vleugels	13
Adsorption Processes at Solid Surfaces-Studied by Electrokinetic Investigations C. Bellmann and A. Caspari	19
Design of Alumina/Alumina Laminate Composites with Crystalline-Orientated Layers Produced by Electrophoretic Deposition under a High Magnetic Field T. Uchikoshi, T. Suzuki, H. Okuyama and Y. Sakka	25
Electrophoretic Deposition of Nanocrystalline SiC Ceramics S. Wildhack and F. Aldinger	33
Electrophoretic Deposition of Zeolite 5A for Use in Supported Gas Separation Membranes W.S. Sweet, J.B. Talbot and R. Higgins	39
Electrophoretic Deposition of Green Parts for LPS SiC-Based Ceramics S. Novak, G. Dražič and K. Mejak	45
Electrophoretic Deposition of Ceramic Powders-Influence of Suspension and Processing Parameters K. Moritz and E. Müller	51
Fabrication of Microstructures by Means of Electrophoretic Deposition (EPD) J. Zeiner and R. Clasen	57
Thermogelation of Composite Films Produced by Electrophoretic Codeposition B. Ferrari, I. Santacruz, I.M. De Francisco, M.I. Nieto and R. Moreno	63
Effect of Particle Size Distribution and Sedimentation Behaviour on Electrophoretic Deposition of Ceramic Suspensions S. Bonnas, J. Tabellion and J. Haußelt	69
Electrophoretic Deposition of Different Yttria-Stabilized Zirconia Powder on Stainless Steel and Carbon Electrodes S. Hayashi and Z. Nakagawa	75
Influence of Dopants on the Suspension Properties and Reactive Electrophoretic Deposition (REPD) D. Jung, J. Tabellion and R. Clasen	81
Electrophoretic Deposition of Functionally Graded Monomorph Y.H. Chen, T. Li and J. Ma	89
EPD of Metallic Silver Particles: Problems and Solutions M. Zarbov, D. Brandon, L. Gal-Or and N. Cohen	95
Preparation of SOFC Cells by Means of Electrophoretic Deposition C. Argiris, T. Damjanović and G. Borchardt	101
Electrophoretic Deposition of Sol-Gel Derived V₂O₅ Microparticles and Its Application for Cathodes for Li-Secondary Batteries A. Matsuda, Y. Higashi, K. Tadanaga, T. Minami and M. Tatsumisago	107
Fabrication of Colored Silica Glasses by Incorporation of Nano-Sized Colloids via Reactive Electrophoretic Deposition (REPD) J. Zeiner and R. Clasen	115
Electronic Properties of Wires Fabricated via Dielectrophoresis of Colloidal Gold Nanoparticles D.R. Oliver and C.T. Harrower	121
Cathodic Electrophoretic Deposition of Ceramic Nano-Particle Manganese Zinc Ferrite C. Washburn, J. Jorne and S. Kurinec	127
Electrophoretic Deposition of Nanocrystalline BaTiO₃ in Ethanol Medium A. Dogan, G. Günkaya, E. Suvaci and M. Niederberger	133
Electrophoretic Deposition of Carbon Nanotubes on Metallic Surfaces B.J.C. Thomas, M.S.P. Shaffer, S. Freeman, M. Koopman, K.K. Chawla and A.R. Boccaccini	141

Preparation of Mesoporous Silicate Thick Films by Electrophoretic Deposition and Their Adsorption Properties of Water Vapor	
H. Negishi, A. Endo, M. Nakaiwa and H. Yanagishita	147
Texturation of $\text{YBa}_2\text{Cu}_3\text{O}_{7-\delta}$ Thick Films by Electrophoretic Deposition under Magnetic Field	
L. Dusoulier, S. Denis, N. Nutal, C. Henrist, B. Vanderheyden, P. Vanderbemden, A. Rulmont, M. Dirickx, M. Ausloos, R. Cloots and B. Vertruyen	153
Micropatterning of Phenylsilsesquioxane Thick Films by the Electrophoretic Sol-Gel Deposition Process Using ITO Substrates with a Hydrophobic-Hydrophilic Patterned Surface	
K. Tadanaga, K. Takahashi, M. Tatsumisago and A. Matsuda	159
Mechanisms of Electrophoretic Deposition	
J.J. Van Tassel and C.A. Randall	167
A Resistivity Model for Electrophoretic Deposition	
B. Ferrari, R. Moreno and J.A. Cuesta	175
Influence of Electrostatic Interactions in the Deposit on the Electrical Field Strength during Electrophoretic Deposition	
G. Anné, B. Neirinck, K. Vanmeensel, O. Van der Biest and J. Vleugels	181
Throwing Power during Electrophoretic Deposition	
G. Anné, B. Neirinck, K. Vanmeensel, O. Van der Biest and J. Vleugels	187
Progresses in the Electrophoretic Deposition Technique to Infiltrate Oxide Fibre Mats for Fabrication of Ceramic Matrix Composites	
E. Stoll, P. Mahr, H.G. Krüger, H. Kern and A.R. Boccaccini	195
Electrophoretic Deposition of Mullite Based Oxygen Diffusion Systems on C/C-Si-SiC Composites	
T. Damjanović, C. Argirusis, B. Jokanović, G. Borchardt, K. Moritz, E. Müller, R. Herbig and R. Weiss	201
Development of Ceramic Dental Crowns and Bridges Using Electrophoretic Deposition	
T. Moritz, D. Linaschke and W. Eiselt	207
Electrophoretic Deposition as a Novel Near Net Shaping Technique for Functionally Graded Biomaterials	
G. Anné, K. Vanmeensel, J. Vleugels and O. Van der Biest	213
Bioglass® Coatings on Superelastic NiTi Wires by Electrophoretic Deposition (EPD)	
A.R. Boccaccini, E.J. Minay and D. Krause	219
EPD of a Sub Micron HA Powder for Biomedical Applications	
H. Mayr, M. Ordnung and G. Ziegler	225
Electrophoretic Deposition of Wollastonite on 316L Stainless Steel from Different Dispersing Media	
H.H. Rodríguez, G. Vargas and D.A. Cortés-Hernández	231
Water Versus Acetone Electrophoretic Deposition of Hydroxyapatite on 316L Stainless Steel	
G. García-Ruiz, G. Vargas, J. Méndez-Nonell and A. Uribe S.	237
Engineering Tolerances & Performance in Applied EPD	
M. Zarbov, D. Brandon, A. Thon and N. Cohen	245
The Role of Particle Filtration in Industrial Scale EPD Processes	
P. Hope	251
Electrophoresis in Membrane Separation Processes: From Lab to Field Scale Experiments	
G. Falk	257
EPD-Sintering of Hydroxyapatite, Porcelain and Wollastonite on 316L Stainless Steel	
G. Vargas, P. Mondragón, G. García-Ruiz, H.H. Rodríguez, A. Chávez-Valdez and D.A. Cortés-Hernández	263
