

Table of Contents

Preface, Committees and Sponsors

Chapter 1: Energy and Power Engineering

Research on Peak Load Shifting for Mixing Procedure in the Tyre Industry D.C. Yang, W.W. Ning and K. Wang	3
A Simple Model Used to Predict the Thermal Performance of Flat-Plate Closed-Loop Pulsating Heat Pipe Q.P. Wu, R.X. Wang, X.P. Liu, Y.J. Li, R.J. Xu and Y.Z. Li	7
Thermal Performance of an Experimental Solar Pond Operating in Winter of Tibet S.Y. Xiao, B. Li, Y.P. Dong, Q.F. Meng and W. Li	13
Spray Flame Study Using a Model Gas Turbine Swirl Burner C.T. Chong and S. Hochgreb	17
Thermogravimetric Analysis on the Combustion Characteristics of the Blend of Organic Waste Liquid and Coal H. Fu, S.Z. Wang and M. Luo	23
Study of a Hybrid Wind and Solar Energy Power System H.Y. Chen, Q. Zhang, Q. Zhou and Y.H. Xie	28
Studies on Rapid Pyrolysis Characteristics of Huainan Coal Z.J. Shi, M.X. Fang, Q.H. Wang and Z.Y. Luo	32
Exergy Analysis of Solar Energy Systems for Sustainable Buildings X.M. Pei, Q.Y. Shou, S. Su and K. Liu	36
Optical System Design of Solar Light Collector Y.Y. Li, Y. Che, F. Wang and N. Li	40
A No-Pump Cycling Water-Saving System for Solar Water Heater Q.R. He, X.Y. Zhao, S.S. Zhang, Z.F. Shao and Y.J. Wang	44
Experimental Study on New Sewage Source Heat Pump Unit Z.Y. Wang, J.J. Li and Z.D. Pan	49
Analysis of Criterion Number of Heat Transfer in Micro Catalytic Combustion Process S. Hu, P.J. Feng, A.K. Tang, X. Shao and Y.X. Liu	53
Chaos Control and its Application in Power Systems X.S. Zhou, S.Y. Li and Y.J. Ma	60
The Research of Voltage Stability in Wind Power System Y.J. Ma, Y. Zhang and X.S. Zhou	64
Study on the Protective Effect of Isolated Operation Mode on Micro-Grid S.Q. Zhang, X.F. Li, X.C. Hu and G.H. Ma	68
Effect of Pocket Location on Combustion Process in Natural Gas-Fueled Rotary Engine F.B. Wei, P.J. Feng, L.Y. Xian, C. Rui and W. Di	73
Experimental Investigation of a Heat Storage Solar Water Heater-Water/Air Source Heat Pump Double Stage Coupling Capillary Network Heating System H.C. Zhang and E.J. Xu	80
Numerical Analysis on the Performance of Miniature Stirling Engine Driven by Double Swash Plates Y. Qu and S.C. Zheng	84
Institutionalization of Industrial Best Practice of Energy Efficiency: The Case of a Global Manufacturing Organization B. Wu, S. Ponte and C. Pinthuprapa	91
Investigation of Chemical-Looping Combustion of Solid Fuels M. Luo, S.Z. Wang and L.F. Wang	95
Advances in Chemical-Looping Combustion for Solid Fuels M. Luo, S.Z. Wang and L.F. Wang	99
Steam Gasification of Catalytic Pyrolysis Char for Hydrogen-Rich Gas Production W.X. Sun, Y. Zhou, Q. Wang and S.R. Wang	105

Experimental Study on a Solar Photovoltaic DC Refrigerator G.N. Xi, C.S. Cai, J. Li and Y. Deng	109
Analysis on the Effect of Fixed Shading over External Window on Energy Consumption and Efficiency of Residential Building in Shanghai G.J. Zhao, Y. Gao, H.S. Li and Y.Z. Jing	113
Numerical Study of Heat Transfer Enhancement in Microchannels of the MTPV Systems G.P. Wu and P. Lu	119
Hydrogasification of Low-Oxygen Semi-Coke to Produce Methane by Consuming Less Hydrogen X.K. Ding, T.K. Zhang, Y.F. Zhang, Y. Xu and G.J. Zhang	124
A Transmission Pricing Method Considering Long-Term Capacity Cost X. Liu and Y. Liu	128
A New Transmission Network Planning Method with Consideration of Transmission Cost X. Liu and C.L. Tang	132
Dynamic Voltage Scaling Algorithm for Battery Powered System with Discrete Voltages S. Xu, W.S. Li and J.S. Li	136
Analysis and Application of Electronic Instrument Transformer in Digital Substation Y.X. Gao	141
Running Analysis of Substation Integrated Automation System in Unattended Y.X. Gao	145
Study on Effect of Micro-Power System Operation and Market Environment Y.X. Gao	149
Component Characteristic of Lignite Semi-Coke Hydrogasification Residue T.J. Lu and Y.F. Zhang	153
Conversion of Glucose to 5-hydroxymethylfurfural with Tetraethylammonium Bromide and Chromium (III) Chloride as Catalysts H.Y. Zhang, X.J. Liu, N. Ai, Y. Nie and J.B. Ji	157
Simulation Study on Amplitude of the Overhead Line Based on Simulink M.Y. Zhao, Z.L. Liu, X.Z. Zhao and R.F. Wang	161
Prediction of Energy Usage Intensity of the Commercial Blocks in the Urban Areas of Taiwan H.T. Lin, K.L. Wu and L.H. Lai	167
Developing an Evaluation Framework for Solar Building from the Viewpoint of Sustainable and Ecological Cities K.L. Wu, S.T. Yeh and K.Y. Chu	171
Energy Consumption Analysis of Animation-Park in Sino-Singapore Tianjin Eco-City X.J. Zheng, M.J. Yang, W.D. Zheng and Y.K. Bu	176
Thermal Analysis Characteristics of the Eucalyptus Leaves under Various N₂/O₂ Conditions Z.Q. Wu, S.Z. Wang, J. Zhao, L. Chen and H.Y. Meng	181
Study on Pitch Diameter Ratio Optimization of Transmission Line Based on Genetic Algorithm X.Z. Zhao, S.Q. Zhang, Z.C. Yang, Z.X. Yang and M.Y. Zhao	185

Chapter 2: Environmental Engineering

Based on the Decision Tree Classification of Remote Sensing Image Classification Method Application C.G. Xu and A. Anwar	193
Level of Urbanization and Land Use/Land Cover Landscape Pattern of Relationship Analysis C.G. Xu and A. Anwar	197
Synthesis, Characterization and Application of Novel Hyamine-Containing Crosslinked β-Cyclodextrin Resin Y.J. Dai, J. Li, S.M. Wei, Y.W. Huang, F.F. Liu, H.K. Wang and L.M. Zhang	200
Researches on Drought Resistance of Mulberry Trees Applied to Vegetation Recovery Engineering in Chongqing Section of the Jialing River Basin, China X.H. Huang, D.L. Feng, Y. Liu and Y.H. Geng	207

A Novel Method on Simultaneous Removal of SO₂, NO and Hg⁰ from Simulated Flue Gas Y. Zhao, F.M. Xue and Y. Shao	214
A Study on Urban Construction Land Expansion Mode in Fuzhou City L.Y. Bai and Z.Q. Chen	219
Stable Carbon and Nitrogen Isotopes in the Tidal Flat Sediments of Northern Yellow Sea B.Z. Liu, Y. Liu, Y. Li and H.X. Wang	223
Nitrogen Pollution Characteristics and Genetic Analysis of FengHe River and its Tributaries J.H. Zhi, A.Z. Ding, L.R. Cheng, S.R. Zhang and X. Zhao	227
The Spatial Distribution Characteristics of BOD₅ and the Biodegradability of Seawater in Coastal Areas of Leizhou Peninsula, China in Summer Q. Xie, C.L. Chen and M.H. Wu	231
Analysis of the River Flow and Sediment Concentration Change before and after Wenchuan Earthquake F. Qian, B. Hu, J.J. Liu, M.B. Xiong and H. Hu	236
Effects of Air/Liquid Ratio on Treatment Efficiency of Textile Wastewater in a Biological Aerated Filter Reactor X.J. Lu	241
The Quantitative Evaluation of Ecological Assets in Sanjiang Plain Based on Remote Sensing Technology F.Y. Meng and Z.H. Miao	245
Effects of Nitrogen on Zinc Uptake, Accumulation and Partitioning of Wheat H. Chang, X.B. Zhou, S.H. Yu and Y.X. Zhou	250
Contrastive Analysis between Wind Power Generation and Coal Generation on the Environmental Impact Assessment J.H. Dong, W.G. Zhu, C.K. Gao and H.M. Tang	254
Evaluation of Seawater Quality in Tianjin Offshore Based on Grey Clustering Method G.K. Hu and Q.T. Zhang	259
Research on the Rheological Property of Low-Rank Bitumite Coking Wastewater Slurry G. Yang, X. Yang and Y.N. Tu	264
The Research of Eutrophic Wastewater Treatment Process Design Y. Meng and L.Q. Qi	268
Experimental Study on Biological Treatment of Organic Waste Gas from Laboratory H.L. Sha and G.J. Xie	273
Study on Determination of Trace Cobalt in Environmental Water Samples after Separation/Enrichment Using Microcrystalline Phenolphthalein Modified with 8-Hydroxyquinoline X.R. Wen and C.Q. Tu	279
Research on Sedimentary Palaeoenvironments of the Sanmianjing Formation in Zhengxiangbaiqi, Mongolia Z.R. Liu, J.G. Huang, L.N. Lu, Z.D. Chen and X.L. Li	286
Fast-Growing Trees Planting and its Relationship with the Grain Production in Hebei Province T.C. Shi and X.H. Xu	291
A New Metabolic Pathway of Heptachlor Epoxide Biotransformation by <i>Cordyceps brongniartii</i> ATCC66779 P.F. Xiao and Y.Z. Song	295
Spatial Distribution and Reserves Estimation of Soil Organic Carbon Based on GIS in Maiji Area of Tianshui A.H. Gai, R.Z. Zhang, F. Chen and X.L. Wang	299
Effect of Salinity on Cu and Pb Release from Excess Sludge C.M. Gao, X.Y. Zhu, H. Yang, H.C. Feng and Q. Huang	307
Research on the Sulfur-Fixing Effect of Compound Sulfur-Fixing Agents from Carbide Slag and Wastes Q.W. Yang, Y. Zhu, C. Liu, P.F. Li, J.X. Wang, Z.Z. Yang and W.Y. Lu	312
Variation Characteristics of Water Content in Two Typical Eremophytes under Drought Stress in the Drift Desert Hinterland Z.Z. Jin, R. Zaynulla, J.Q. Lei and M.A. Yakubov	316

Characterization and Source of Trihalomethane Formation in the Secondary Effluent by Sequencing Batch Reactors	
C.J. Zhang, S.B. Li, Q. Chen and Q. Zhou	323
The Environmental Matrix Effects of Inorganic Ions to Photo-Reductive Defluorination of Perfluorooctanoic Acid	
C.J. Zhang, P. Chen, Y. Qu and Q. Zhou	327
Abatement of Perfluorocarbons in Teflon-Manufacturing Wastewater with Photo-Reduction Method	
C.J. Zhang, G. Zhang, P. Chen, Y. Qu and Q. Zhou	331
Suitability Evaluation of Tunnel Engineering to Protect Ecological Environment	
J. Song, Z.Y. Li and Y.Y. Fan	335
The Research on the Adaptation of Grain Production in China to Climate Changes Based on Structural Equation Model	
J.L. Xue	340
The Experimental Research on Treatment of Schoolyard Wastewater by Constructed Wetland	
B. Xu, H.Y. Pei and J. Liu	345
Screening, Identification and Characterization of a Cyanoethylated Wastepaper-Degrading Bacteria	
C.H. Zhang, D.D. Xiao, P.S. Sun, P. Zou and Q.L. Chen	349
Full Scale Evaluation and Suppression of Mercury Re-Emission in Wet Flue Gas Desulfurization System	
C.L. Wu, Y. Cao, H.X. Li and W.P. Pan	354
Effect of Aboveground Biomass, Temperature and Moisture on Soil Microorganism of Alkali-Saline Grassland	
H.M. Sun and C.S. Mu	358
Theoretical Analysis of Moisture Dynamics on the Irrigated Areas	
Z. Rahmutulla, M.A. Yakubov, R.A. Muradov, J.Q. Lei and K. Yakubova	362
Study on Modification and Performance of Nano Catalyst Used for Ceramic Purification	
X.B. Tian and W.C. Qin	368
Analysis of Influencing Factors on Environment Vibration Induced by Metro Transit and Fuzzy Comprehensive Evaluation	
C.C. Zhang, Z.D. Qian, L.L. Chen and X.H. Li	375
Heterogeneous Catalytic Ozonation of COD and Quinoline from Coal Gasification Wastewater Secondary Effluent with Carbon Supported Copper Oxides as Catalyst	
H.J. Han and H.F. Zhuang	379
Headspace Solid Phase Microextraction Procedure for the Detection of Polychlorinated Biphenyls in Seawater Sample	
X.Y. Ping and Y.L. Wang	383
Fluoride Removal of a Novel Ultrasonic-Assisted Supported Fe/γ-Al₂O₃ Adsorbent	
W.H. Zou, Y. Liu, L. Hong and Z.Y. Luo	387
Adsorption of Ce(III) by Magnetic Chitosan/Yeast Composites from Aqueous Solution: Kinetic and Equilibrium Studies	
H.X. Ou, W.B. Bian, X.M. Weng, W.H. Huang and Y.L. Zhang	391
The Annual Variations of Major Nutrients and Assessments about Environmental Impacts of Xiangshan Bay East China Sea	
G.H. Zhu, J. Qian, L.H. Chen, M. Jin, J.J. Liu and J. Zhang	395
Prediction Model of Flush Flood and Debris Flow in Taihang Mountains Areas Based on Bayes Discriminatory Analysis	
T. Yang and J.D. Wang	400
Numerical Simulation of Salt Particle - Supercritical Water Flow in a 90° Bend Pipe	
Y.Z. Wang, S.Z. Wang, Y. Guo, D.H. Xu, G.X. Yu, H. Yu and J.P. Sheng	404
Improvements on Reusing Reclaimed Water in Rivers and Lakes by Different Kinds of Aquatic Plants and Compound Microbiological Preparations	
Q. Lang, S.M. Ren, P.L. Yang, Y.K. Li, M.C. Liang and Q.H. Zou	408
Application of Spatial Extraction Model for Soil Environmental Quality Anomaly Regions	
C.L. Yang, R.P. Guo and Q.L. Yue	415
Ocean Current Model Using SINS/GPS/DVL Integrated Navigation	
Y.Y. Ben, X.Y. Liu, Z.J. Zhu and H. Du	419

The Application and Analysis of Reinforcing Mechanism with Vet. for Slope Ecological Protection in Highway	423
J.M. Li, X.B. Xiong and A.H. Tao	
Purification of Nitrogen and Phosphorus in Lightly Polluted Landscape River by Effective Microorganisms Combined with Submerged Plants	430
D.Q. Chen, H. He and Y.Q. Chen	
A Rough Estimation of Energy Consumption and CO₂ Emission in Tourism of GanSu Province Based on Low-Carbon	435
B.B. Jiao and P.J. Shi	
Study on the Characteristics of Harmful Gas Distribution of Welding Semi-Closed Environment	441
S.S. Qi, S.J. Chen, S. Hu and W.Q. Zhu	
The Potential of Cultural Heritage Tourism to Promote Sustainable Urban Development: The Case of Tainan City	446
H.P. Kuo and K.L. Wu	
Responses of Weedy Rice to Drought Stress at Germination and Seedling Stages	451
G.H. Ding, X.L. Liu, D.R. Ma, X.X. Wang, G. Yang, M.C. Gao, Q. Gao, J. Sun and W.F. Chen	
Evaluation of Chromium Pollution on Soil Surrounding Chromium-Containing Slag Heap	460
Q. Zhao, P.F. Cao, T.B. Xu and W.H. Yu	
Geostatistical Analysis of Soil Water Content in Natural and Secondary Forests of Changbai Mountain, China	464
Y.L. Wang, P.T. Guan, S.W. Jiang and X.K. Zhang	
Effects of Sediments Nutrition Status on the Growth of <i>Potamogeton crispus</i>	469
L.P. Zou, R.R. Sun, J.Y. Liu, F. Chen, Y.D. Huo and Z.M. Wu	
Method of Detecting Sea State from Image Taken by Autonomous Surface Vehicle	475
J.H. Wang, G. Li, Y.Z. Xiong and K.K. Liu	
Electrochemical Treatment to Mitigate the Alkali Leaching from Concrete to an Aquatic Environment	479
K.Y. Ann, J.W. Kim and M.S. Jung	
Effect of Freeze-Thaw Action on Phosphorus Adsorption and Desorption in Forest Wetland Soils at High Latitudes	487
Y.B. Ren and N.Q. Ren	
Application of Interval-Fuzzy Linear Programming for Total Amount Control Optimization Model on Regional Atmospheric Pollutants	493
J.Y. Wen, Z.S. Wang, Y. Hu, Z. Li and Y. Li	
An Interval-Fuzzy Emissions Reduction Optimization Model for Regional Water Pollutant Total Amount Control	497
Z. Li, J.Y. Wen, Z.S. Wang, Z. Sun and Y. Li	
Hierarchical Clustering Assisted Human Health Risk Assessment of PAHs in a Typical Oilfield, China	501
Y. Hu, Y. Wang, Z.S. Wang, D.Z. Wang and Y. Li	
Research on Tailings Water of Phosphate Concentration	505
R.D. Deng, Q.J. Liu, T. Hu and F.H. Ye	
Adsorption of As(V) from Aqueous Solution by the Fe(III)-Impregnated Sorbent Prepared from Sugarcane Bagasse and Applicability of Different Adsorption Models	509
H. Zhang, X.H. Zhang, Y.N. Zhu, M.N. Liang and R.R. Lu	
Experimental Study on the Treatment of Uranium-Contaminated Mine Wastewater Using Zero-Valent Iron Nanoparticles	516
T.G. Yuan and D.Y. Chen	
Terrestrial Water Storage Changes in the Tangnaihui Basin Measured by GRACE during 2003-2008, China	520
M. Xu, B.S. Ye and Q.D. Zhao	
The Study of Cadmium-Calcium Hydroxyapatite Solid solutions An Overview	527
L.Q. Dai, Y.N. Zhu, J. Li and Z.Q. Zhu	
Effects of Thermal Discharge from a Coastal Power Plant on Phytoplankton in Zhanjiang Bay	532
X.Y. Li, B. Li, X.L. Sun and H.L. Sun	

Influence of Desalinated Seawater with Softening Pretreatment on the Efficiency of Power Plant Heat Transfer System W.B. Chen and J.H. Ma	540
Design and Implementation of the Regional Land Use and Optimal Regulation Decision Support System B.Q. Hu and K.X. Qin	544
Identification of Chlorpyrifos-Degrading Strain DX1 with 16S rDNA Sequence Analysis M.F. Niu, C. Liang, J. Wei and H.J. Jiao	553
Research on Land Carbon Equilibrium of New City during Initial Stage of Urban Plan: A Case in Panjin New City, China H.B. Guo and L.L. Zhang	558
Effect of Sludge Retention Time in a Continuous-Flow Two-Sludge System Y.J. Luo, Y.M. Chen and L.F. Qiu	563
Study on Substrate Inhibition Kinetics in Anammox-UASB Reactor J. Zhang, L.F. Qiu and Y.M. Chen	567
Research of Dry Cutting Technology Based on Green Manufacturing G.N. Xi, W.A. Xie and G.R. Xie	571
Study on the Biodegradability of Oxidized Sulfiting Rapeseed Oil L.F. Ren, G.H. Zhao, X.C. Wang and Y.Q. Ren	574
Primary Studies on the Offshore Oil Spill Detection System Using the Satellite Remote Sensing Technology Developed by China National Offshore Oil Corporation J. Liu and S.F. Zhu	580
Carbon Capture and Geological Storage (CCS) in Brazil as a Project under the Clean Development Mechanism (CDM) F. Dias, V. Esteves, E. Freire and C. Morgado	586
Response Analysis of Cooling Tower Plume Dispersion to the Release Height R.P. Guo, C.L. Yang and C.M. Zhang	590
Isolation and Identification of High Efficient Oil-Degrading Bacteria and Formulation of Complex Bacteria W.J. Hao, J. Mu and Y. Li	594
Predication of River Water Quality Based on Gray Dynamic Model Group in Wenchuan Earthquake Disaster Area F. Qian, W. Lin, B. Hu, J.J. Liu and M.B. Xiong	599
Estimation of Chemical Oxygen Demand by Ultraviolet Spectroscopic Profiling and Physical Parameters Using IPW-PLS Algorithm J.C. Li, P.J. Huang, D.B. Hou and G.X. Zhang	606
The Development of Bisphenol A Removal Methods Z.L. Wang and C. Li	610
The Review of NDMA Removal in Aqueous Solution Bayiermingda, C. Li and Z. Yan	614
Diversity of Microbial Communities under High Flocculating Characteristics by Biolog S. Li, Y.B. Zhu, F. Ma and D.X. Li	618

Chapter 3: Water Resource: Treatment, Cleaning and Distribution

Enhanced Heterotrophic Denitrification for the Treatment of Nitrate Contaminated Groundwater by Wheat Straw J.M. Zhang, C.P. Feng, S.Q. Hong and H.L. Hao	625
Study on the Test Method of Trace Phosphorous in Drinking Water Y.F. Li, H.Y. Li and X.L. Xie	629
Channeling Flow and Solute Transport in a Single Fracture Y.F. Tan, Z.F. Zhou, S.Q. Wu, X.H. Xie and B. Ning	632
Coping Strategy for Jingzhou City in Rural Drinking Water Security C.Z. Deng, J.Q. Zhu and S. Liu	636
Sorption of Tetracycline Antibiotics from Water H. Xiao, M. Yu, W.H. An, Y.X. Xu, X.Y. Chen and W.M. Zhou	641
Improvement of Sediment Quality by Emergent Vegetation Restoration in Chaohe River Q.H. Wang, X. Que, S.H. Yao, B. Xiao and C. Li	645

Development and Outlook of Environmental Public Interest Litigation against Source Water Pollution – A New Judicial Practice in China X.Q. Zhu and J.L. He	649
Regeneration Effect of Fluoride-Rich Granular Activated Alumina on Desorption Regent NaOH Solution B.J. Niu, W.M. Ding and D. Dang	653
The Disinfection Efficacy of Chlorine on Sulfate-Reducing Bacteria and Iron Bacteria in Water Supply Systems B.M. Qi, B.J. Wang, C.G. Wu and Y.X. Yuan	657
The Experiment Study on the Soil Infiltration Characteristics of Yumenkou Water Pumping Station Irrigation District of Regional Scale L.H. Yuan and G.S. Fan	661
Study on Sustainable Water Resources System Assessment by Applying Set Pair Analysis Theory C.Y. Du, H.P. Zhong, Y.D. Shi, F. Xu and L.J. Mo	665
Cloud Simulation Platform for Water Environment Assessment X.F. Ge, D.B. Hou, G.X. Zhang and P.J. Huang	670
Design of an Automatic Three-Dimensional Sampling Device for Water Quality Emergency Monitoring T.L. Lu, G.X. Zhang, P.J. Huang and D.B. Hou	674
Development of a Web System for Water Quality Monitoring Information Management G.X. Wei, D.B. Hou, P.J. Huang and G.X. Zhang	678
Research on Dynamic early Warning Technology of Water Pollution Emergency Based on Pollutant Dispersion Simulation X.X. Song, D.B. Hou, P.J. Huang and G.X. Zhang	682
Study on Methods of Water Quality Analysis Based on Conventional Water Quality Monitoring Parameters T.H. Feng, P.J. Huang, D.B. Hou and G.X. Zhang	686
Water Quality Detection Using UV Spectra Based on the PCA Algorithm L.L. Dai, P.J. Huang, D.B. Hou and G.X. Zhang	690
Methods for Water Quality Abnormity Assessment Based on Single Factor Y. Bao, S. Liu, G.X. Zhang, P.J. Huang and D.B. Hou	694
Research Progress of Typical Taste and Odor Compounds Produced by Chlorination in Drinking Water M.M. Mao, K.J. Zhang, T.Q. Zhang and H.L. Yu	698
The Effect of Membrane Treatment on Chlorine Decay and Trihalomethanes Formation in Water Distribution Systems T.T. Zhao, C. Li, H.L. Yu, Z.L. Wang, B.Y.E. Minda and X.W. Mao	703
Study on Biofilm Colonization in Different Types of Packing Y.N. Chen, Z.L. Guo, H.T. Wu and L. Liu	707
Monitoring and Assessment of Water Quality in Fuchunjiang and Hangzhou Reaches of Qiantangjiang Estuarine Zone Z.Y. Dong, Y. Gu, S.S. Wang, Y.B. Shi, R.H. Li and L.H. Xiong	711
Theoretical Considerations of Joint Optimal Model for Water Allocation and Pipe Placement L. Bai, S.M. Liu and H.H. Wang	715
Investigation of the Impact of Anti-Negative Pressure Facility on a Water Distribution System H.H. Wang, S.M. Liu, F.L. Meng and L. Bai	719
Seismic Damage Assessment of Urban Water Supply Pipeline J.Q. Jiang, X.W. Yao and Y.T. Lu	723
Analysis of Chinese Media Reports on Water Pipe Burst Events in 2010 W.Y. Di, S.P. Li and X.G. Liang	727
Optimal Model of Hydrodynamic Controlling on Pumps and Slice Gates for Water Quality Improvement H.P. Zhou, W.Y. Shao and L.J. Jiang	732
A Comprehensive Indicator Representing Process: Water Environment Sustainability Index for Downstream Marsh Z.L. Wang, Y.J. Wang and J.M. Luo	741

Evaluation and Analysis of Water Quality at the Dahuofang Reservoir Based on the Fuzzy Evaluation and Analytical Hierarchy Process	
R. Huang, L.X. Han, H. Zhang and H. Peng	748
Adsorption and Removal of As (V) from Drinking Water Using D301-Fe	
C.H. Li and W. Xu	754
Two-Step Optimization for the Design of Water Distribution Networks	
S.Z. Zhang, Y.X. Yuan and P.M. Li	758
Hydraulic Transient Prevention with Dipping Tube Hydropneumatic Tank	
R.H. Wang, Z.X. Wang, F. Zhang, J.L. Sun, X.X. Wang, J. Luo and H.B. Yang	762

Chapter 4: Mining and Processing of Mineral Resource: Techniques and Technologies

Field Test of Carbon Dioxide Gas Channeling Foam Plugging	
Y.B. Bao	769
Research and Application of a Novel Deep Profile Modification Agent for Complex Sandstone Reservoirs	
H.M. Dou, X.Y. Zhu, X.W. Shi, J.Z. Ge and Y.Z. Liu	773
The Research of Complex and High Oxidation Copper Flotation	
J.L. Yang, Q.J. Liu, Y.H. Guo, H. Xiao and M.G. Jiang	777
Performance of Silicate Gel and Polymer/Cr(III) Gel Treatments in High Temperature Reservoirs	
G.X. Shen, J.H. Lee and K.S. Lee	782
Engineering Practice of Water Control by Nearly Orebody Curtain Grouting in Laixin Iron Mine	
R.L. Shan, J.F. Xu, X. Zhao, Q.A. Wu, S.J. Wu and F. Huang	786
Effects of Bottom Aquifer on the Productivity of Chemical Flooding Applied to Multi-Layered Heterogeneous Reservoirs	
B.I. Choi, M.S. Jeong and K.S. Lee	791
Identification of Coal Petrologic-Structure by Using Geophysical Logging Data: A Case Study of the Coals of Hancheng Coalbed Methane Field	
J. Teng, Y.B. Yao, D.M. Liu, Z.Q. Liu and B. Liu	795
Numerical Simulation on the Stress Distribution of Thin Seam Containing Iron-Sulfide-Cores	
Y.L. Tan, W.M. Li, S.J. Miao, P. Wei, T.B. Zhao and Q. Li	799
Data Application Functions Implementations of Oil Spill Net Monitoring System	
J. Xu, Y. Li, B. Li, Z.Z. Xu, X.F. Yu and H.Y. Feng	803
Flow Field Characteristic Study of Horizontal Section PDC Bit in the Southeast of Chong Qing Wu Feng – Long Ma Xi Shale Reservoir	
P. He, L.J. Cheng, M. Gong, K.X. Song and Y. Zhu	807
Proof of Sinian Reservoir Bitumen in Sichuan Basin as Oil Cracking Cause	
D. Liu, J. Li, Z.Y. Xie and A.S. Hao	815
The Process Mineralogy Research on Card Cover Type Gold Mine Tailings	
M.G. Jiang, Q.J. Liu, H. Xiao and J.L. Yang	819
Fracture Qualitative Identification Using Conventional Logging Data	
C.J. Feng and W.L. Yan	822
Characteristics of Fracture and Fractured Reservoir of Hailaer Basin Budart Group	
C.J. Feng and W.L. Yan	826
Study on Pre-Concentration and Calcium Removal of Low Grade Zinc Oxide Ore	
M.X. Li, S. Jian and W.J. Zhao	830
Methods Study on Gas Channeling of <i>In Situ</i> Combustion Development in Developed Heavy Oil Reservoir	
Z.Z. Xue, D.F. He and X.H. Wang	834
Tahe Oilfield Ground Stress Analysis Model and its Application in the Barefoot Hole Wall Collapse	
X.Z. Yi, S.Z. Jiang, Y.Q. Ji and W. Chang	838
Cuttings Characteristics and Mechanics Behavior in Horizontal Wells of Liaohe Oil Field	
X.Z. Yi, J.F. Zhang and S.Z. Jiang	842

Flotation of Indium-Bear Marmatite in the Low Alkali Conditions Z.B. Deng, X. Xie, X. Tong, Y.C. Zhou, X. Wang and X.W. Lv	846
Effect of Experimental Conditions on Parameters Derived from Micro Calorimeter Measurements of Coal Low-Temperature Oxidation X.X. Zhong, Y. Chen, G.L. Dou and D.M. Wang	850
A Study on the Technology of Steam - Hot Water - Nitrogen Compound Drive after Steam Channeling in Steam Flooding Y.C. Cai, Y.J. Liu, X.F. Li, Y.Z. Li, X.L. Zhang, X.N. He and Q. Cheng	854
Well Control Technology of High Temperature and High Pressure with Different Well Shapes Y.J. Li, X.N. He, X.W. Feng, Y.Q. Zhang, L. Wu, X.F. Li, K.W. Huang, Y. Huang and L.M. Luo	860
Beneficiation Test Research on Certain Iron Mining of Burma Y.H. Guo, H.X. Dai and J.L. Yang	867
A Study on Influence Factor of Steam Flooding Development Effect in Heavy Oil Reservoir Y.C. Cai, Y.J. Liu, X.F. Li, J. Fan, J. Yang, Z.Y. Peng and Y.Y. Li	872
Concentration of Silicate-Calcareous Phosphate Rocks R.D. Deng, Q.J. Liu, T. Hu and F.H. Ye	878
Study on Direct Acid Leaching Vanadium without Grinding and Roasting from Clay Vanadium Ore in Hunan W. He, G.H. Ye and X. Tong	882
Effect of Coal to Liquids on Real Road Emission Characteristics of Diesel Bus D.M. Lou, W.G. Wang, Y.H. Zhi and P.Q. Tan	887
Factor Analysis of Vertical Hydraulic Fracture Geometry in Coal Bed B.L. Wu, Y.F. Cheng, Y.Z. Li, P. Xu and Y.T. Zhang	892
A Dynamic-Programming Based Model for Phase-Mining Optimization in Open-Pit Metal Mines Q. Wang, X.C. Xu and X.W. Gu	896
Application of Gas-Assisted Solvent Flotation Technique on Oil-Field Polymer-Bearing Produced Water R.Y. Li	902
Research of Preparation of $\text{SO}_4^{2-}/\text{TiO}_2\text{-ZrO}_2$ and its Application on Synthesis of Biodiesel from Waste Cooking Oil H.B. Zhou, Y. Cao and J. Li	906
Primary Geology Factors Controlling Coalbed Methane (CBM) Enrichment in Jixi Basin X.Q. Guo, D.M. Liu, Y.B. Yao, Y.D. Cai and J.Q. Li	911

Chapter 5: Materials Science, Applied Chemistry and Material Processing

Theoretical Investigation of Methane's Dehydrogen-Reforming with Supercritical Carbon Dioxide over Transition Metals (Pt,Rh,Ru) W.Y. Xu, J. Tang, W. Long, L. Hu and S.G. Hong	919
Surface Properties and Application of Fluorinated Emulsifier-Free Emulsion Surface Sizing Agent Y. Su, Y.D. Shen, L. Wang, X.R. Wang, X.J. Lai, F.S. Zhang and G.J. Liu	923
The Research of Cleaning Method of Membrane Modules in Ultrafiltration Pretreatment System L.Y. Wu, F.Y. Shang, C.J. Gao and Y.D. Hu	927
A Theoretical Study of the $\text{O} (^3\text{P}) + \text{HCONH}_2$ Reaction T.C. Xiang and H.Y. Si	933
Effect of Common Dissolved Ions on the Reduction of Nitrobenzene by Sucrose-Modified Zero-Valent Iron H. Li, Y.S. Zhao, R. Zhou and Z.F. Chen	937
Research on Synthesis Regularity of Epoxysuccinic Acid Q.H. Gao, Y.C. Wang, Z.F. Hou, H.J. Qian, Y. Zhang, J. Liu and X.P. Chen	942
Hydrogen Storage in Metal-Organic Frameworks Y. Huang and S.H. Ke	946

Anti-Friction and Anti-Wear Properties of SiO₂ Nanoparticles X.Y. Song, S.H. Zheng and Q. Chen	950
Experimental Study on Fire Resisting Capacity Using Silicone Compound Material I.Y. Jang, S.K. Kim, S.J. Lee, W.Y. Park, W.G. Kim and S. Youn	954
Electrodes with Supported Catalyst Layer in Unitized Reversible Fuel Cell System: A Review M. Gabbasa and K. Sopian	960
The Experimental Study on Tensile Forces of Liner System S.F. Xu and M.L. Yao	964
Study on Thermal Radiation Properties Enhancement of the Lower-Heat-Storage Asphalt Concrete N. Ding, J.G. Xie, L.L. Liang, Y. Hu, H. Xiao and Y.J. Wang	968
The Sweep Efficiency of Viscoelastic Polymer Solution H.M. Jiang, J.Q. Zhang, S.X. Zhang and X.K. Sun	975
Experiments of Green High-Ductile Fiber Low Cementitious Composites C.G. Cho and H.J. Lim	979
A Novel NiCl₂-CuCl₂/HMOR Catalyst for Direct Vapor-Phase Carbonylation of Methanol H.X. Wang, W.W. Guo and L.J. Zhu	983
Temperature Dependence of Reaction Rate in the Oxidation of Dafosi Coal X.X. Zhong, G.L. Dou, Y. Chen and D.M. Wang	987
Dissolving Effect of [BMIM]Cl and DMSO to Straw under High Temperature Conditions Q. Yin, G.F. Qu, C.H. Liu, Y.B. Xie and Y.H. Liu	991
Large Room Temperature Magnetocaloric Effect in Ni₅₀Mn₃₄(Co,Cu)In₁₅ Z. Li, C. Jing, J.J. Wu, L.X. Wu, J. Yin, K. Xu and X.F. Zhou	996
Research on Precision Experimental Table for CO₂ Laser Machining Microfluidic Chip H.F. Xiang and L.J. Zhang	1002
Progress and Research Status of CO₂ Laser Machining Polymer Microfluidic Chips H.F. Xiang and L.J. Zhang	1007
Study on Catalysis Properties of Graphene Catalyst Loading Iron Oxide Q.W. Yang, P.F. Li, Y. Zhu, C. Ying, J.L. Zuo, H.J. Dan and S.H. Shi	1014
Cr-Substituted Mesoporous Aluminophosphate Molecular Sieve: Synthesis, Characterization, Crystallization Kinetics and Catalytic Activity X.Z. Li and J.S. Zhang	1018
Morphology and Microstructure of Ir_xSi_{1-x}O₂ Oxides as Anodic Electrocatalyst for Electrosynthesis of Dinitrogen Pentoxide M.M. Sun, Q.F. Wang and L. Wang	1024
Experimental Research on the Recovery of Copper from Pregnant Solution Highly Containing Cu Y.M. Zhang, P.Z. Xiang and Y.B. Mao	1029
Modification of PVDF Membranes by Alkaline Treatment Q.F. Liu, Q. Wang and S.H. Yan	1033
Corrosion Behavior of 316L Stainless Steel and Alloy 625 in Supercritical Water Oxidation for Coking Wastewater Treatment Y.Z. Wang, S.Z. Wang, Y. Guo, D.H. Xu, X.Y. Tang, G.X. Yu and H. Yu	1037
Preparation of Nd³⁺/TiO₂/HNTs by Ion Imprinting Technology and its Photodegradation Property on Tetracycline X. Gao, P.W. Huo, X.L. Liu, D. Wu, Z.Y. Lu and Y.S. Yan	1041
Efficient Synthesis of 3,4-Dihydropyrimidin-2(1H)-Ketone Using SbCl₃ as Catalyst under Ultrasonic Conditions J. Lin, J.F. Li, B.B. Zheng, X.T. Dai, J. Feng and T.T. Yu	1045
Detection of Reinforced Concrete Crack Using Mechano-Luminescence Paint I.Y. Jang, S.K. Kim, J.S. Kim, K.Y. Ann and C.G. Cho	1049
Influence of Non-Pitch Based Activated Carbon on Flue Gas Desulfurization J.L. Ding, Y.Q. Zhao, Y.F. Zhang and Y.L. Fu	1055
Preparation of Heterojunction Semiconductor SnS₂/SnO₂ with Enhanced Photocatalytic Properties P. Chen, M.S. Qin and F.Q. Huang	1059

Development of Cement-Free Concrete Using Finely Grained Slag for Portland Cement K.Y. Ann, J.W. Kim and S.Y. Song	1063
Simulation of Nucleation, Growth, and Aggregation of Nonparticles in Supercritical Water L. Zhou, S.Z. Wang and H.H. Ma	1071
Lubrication Properties of Biodiesel: Experimental Investigation and Molecular Dynamics Simulations H. Luo, W.Y. Fan, Y. Li and G.Z. Nan	1075
