

# Table of Contents

## Preface

## Chapter 1: Building Materials, Components and Structures

<b>Applicability Analysis of Selected Methods of Determining the Moisture Content of Highly Porous Thermal Insulations</b>	
L. Kalousek, R. Brzoň and Z. Fišarová	3
<b>Case Study of Chimney and Flue Fires in Timber Constructions in Slovak Republic</b>	
J. Olbřímek, Z. Lišková and S. Leitnerová	11
<b>Case Study on Determination of Tensile Properties of Construction Sealants at Variable Temperatures</b>	
B. Nečasová, P. Liška, J. Šlanhof and M. Šimáčková	18
<b>Characteristics of Mechanically Fastened Joints of Single-Layer Bitumen Sheets</b>	
T. Petříček, J. Plachý, P. Kacálek and R. Smolka	27
<b>Compare of Experimental and Numerical Evaluation of Structure with Application of Reflective Insulation</b>	
J. Kalánek, L. Šteffek and M. Ostrý	34
<b>Modern Lightweight Structures</b>	
Z. Vaník and M. Magura	42
<b>Experimental Investigation of the Tensile Properties of Ventilated Facade Cladding with Bonded Joints</b>	
P. Liška, J. Šlanhof, B. Nečasová and B. Kovářová	50
<b>Dependency Analysis of Selected Thermal Properties of Reinforced Bitumen Sheets for Waterproofing</b>	
J. Plachý, J. Vysoká, J. Šulistová and R. Vejmelka	60
<b>Designing and Testing of the Recycled Vegetative-Retention Layer of the Vegetative Upper Skin of the Pitched Roof</b>	
K. Necadova, P. Selník, M. Mohapl and H. Bedliva	67
<b>Gluing as a Type of Stabilization Flat Roofs</b>	
M. Bogárová and J. Stodůlka	77
<b>Graphic Survey and Analysis of the Outer Walls and Floor Plan of the Royal Corpus Christi College-Seminary in Valencia</b>	
C. Lerma, Á. Mas, E. Gil, J. Vercher and M. Galiana	84
<b>Impact of Hydrophobic Additives on Properties of Clay Plaster</b>	
B. Lišková, P. Jelínek and M. Ostrý	92
<b>Measuring the Thermo-Technical Parameters of Autoclaved Aerated Concrete</b>	
A. Struhárová	100
<b>Nanomaterials, Nanocomposites Uses in Construction</b>	
M. Ledererová	108
<b>Optimization of Re-Mixing Recyclated Concrete Aggregates</b>	
V. Venkrbec	116
<b>Modern Stucco Elements</b>	
A. Holešovská	124
<b>Risk Analysis of Foundation Structures According to the Method of Founding</b>	
M. Bilanič, P. Vlček and K. Kubečka	132
<b>Stone in the Restoration of Architectural Heritage - Deterioration of Stone Structures Caused by Humidity</b>	
P. Pauliny	140
<b>The Assessment of Reaction to Fire of Crushed Straw</b>	
J. Teslík, M. Vodičková and K. Kutilová	148
<b>The Influence of Additional Insulation of Facades to their Aesthetic Devaluation by Vegetation of Algae, Fungi and Cyanobacteria</b>	
V. Kučeriková, D. Donová and D. Kubečková	156

<b>Verification of Sealing Possibilities of Cement – Based Structures without Additional Surface Treatment</b>	
J. Šlanhof, B. Nečasová, P. Liška and M. Šimáčková	164
<b>Understructure of Passive Houses in Terms of Materials</b>	
K. Kubenková and M. Jašek	172
<b>The Operational and Environmental Consequences of the Polystyrene Insulation Disposal</b>	
J. Pasek, M. Casensky and J. Stransky	180
<b>Construction Details from Secondary Raw Materials</b>	
R. Smolka, J. Plachý, P. Kacálek and T. Petříček	188

## Chapter 2: Indoor Environment and its Hygienic Aspects

<b>Analysis of the Relationship of the System “Operationally Efficient Building – Indoor Environment Quality – User”</b>	
J. Pasek, I. Matouskova, P. Ort, V. Chlubna, K. Paskova, M. Cupal, L. Kolarova, D. Tvrznikova and J. Horak	199
<b>Architecture Indoor Environment as a Healing Factor of Depression and Seasonal Affective Disorder</b>	
G. Szántová and M. Rychtárikova	210
<b>Indoor Environment Influenced by Radiant Effect of Floor Heating</b>	
M. Budiaková	218
<b>Latex Paint Influence on the Oriented Strand Boards and the Indoor Climate</b>	
T. Bečkovská, L. Vacková and V. Tichomirov	226
<b>Mold Growth Risk Analysis on the Surfaces of an Organic Building Structure Based on <i>In Situ</i> Monitoring</b>	
D. Bečkovský, F. Vlach, J. Vitík and E. Šuhajdová	235
<b>Movement of CO<sub>2</sub> Concentration in the Room</b>	
M. Vodičková, Z. Jaroň and V. Šípková	243
<b>Quantitative Microbiological Aspects of the Indoor Environment</b>	
L. Frič, I. Sýkorová, E. Velísková and O. Rubinová	251
<b>Reduction of Environmental Stress through Spatial Arrangements and Different Choices of Body Positions in Indoor Environment</b>	
V. Kotradyová and E. Vavrinský	259
<b>Influence of Orientation of Building on Indoor Conditions in a Roof Truss</b>	
L. Sibilla, M. Vlček, K. Struhala and P. Kříž	267
<b>Potential of Vegetation in Improving Indoor Thermal Comfort and Natural Ventilation</b>	
F. Szkordilis and M. Kiss	278
<b>Acoustic Analysis of Double Transparent Facades in Bratislava</b>	
D. Urbán and P. Tomašovič	288

## Chapter 3: Energy Performance of Buildings

<b>The Use of a Mathematical Model for the Management and Distribution of Heat</b>	
P. Komínek and J. Hirš	299
<b>The Influence of Thermal Bridges on the Energy Need for Heating after Renewal: A Case Study</b>	
R. Mend'an and M. Pavčeková	307
<b>The Impact of Balcony Glazing on the Selected Building Envelope</b>	
Z. Perina, H. Sevcikova, R. Fabian, M. Halirova and E. Rykalova	315
<b>The Effect of Thermal Bridges on Energy Balance of Wood Frame Houses</b>	
T. Varga and R. Ingeli	323
<b>The Applicability of Existing Methods for Testing the Base Layers of ETICS</b>	
M. Novotny	331
<b>Added Convex Windows for Improving the Energy Balance</b>	
A. Kerekes and A. Zold	339
<b>Analysis of Energy Consumption in Building with NZEB Concept</b>	
R. Ingeli and M. Čekon	347

<b>Spreading of Temperature Field Caused by Microwave Radiation</b> M. Procházka and J. Sobotka	355
<b>Analysis of the Internal Insulation of Renovated Building</b> S. Baďurová, J. Jošt, F. Bahleda and J. Ďudák	363
<b>Analysis of Thermal Performance of Energy Storage System</b> M. Jurigová, M. Minarova and I. Chmurný	371
<b>Annual Analysis of Boundary Conditions on Air Flow through Building Envelope</b> M. Horáčková	379
<b>Application of Data Sets Obtained from the Detached Experimental Weather Station in Conditions of Real Building</b> D. Štaffenová, P. Juráš and P. Ďurica	387
<b>Assessment of Energy Efficiency in Different Façade Solutions</b> J. Vercher, E. Gil, C. Lerma, Á. Mas, M. Vidal and F. Cubel	395
<b>Contemporary State and Development of a Concept of Passive House</b> M. Kraus, P. Bednářová and K. Kubečka	403
<b>The Effect of the Vegetative Roof Construction and the Influence of the Effect of the Designed Air Gap on the Thermal Stability in the Testing Building</b> K. Necadova, P. Selnik, M. Majsniar and H. Bedliva	411
<b>Development of a Mathematical Model to Find the Best Solutions for the Refurbishment of Energy-Efficient Buildings</b> R. Leuck	421
<b>Heat Thermal Transmittance of Log Wall</b> P. Řihák and P. Školník	429
<b>High-Tech Solutions for Building Retrofit: Investigation of Window Systems with Vacuum Glazing</b> O. Proskurnina, U. Pont, M. Schuss, C. Sustr, E. Heiduk, P. Schober and A. Mahdavi	437
<b>Influence of External Surface Resistance and Thermal Insulation Level on Energy Need for Cooling</b> I. Chmurný	445
<b>Influence of Structural Design of Balcony Panels on the Course and the Size of Thermal Bridges</b> M. Lavický, Š. Karlík and J. Pěněčík	453
<b>Mechanically Fastened Single Casing Roof in Terms of Building Physics</b> J. Stodůlka, L. Matějka, J. Plachý and M. Bogárová	461
<b>Nearly Zero-Energy Buildings &amp; Buildings Built with Industrialized Technology: The Case of Hungary</b> A. Talamon, V. Sugár and F. Pusztai	469
<b>Obtainable Method of Measuring the Solar Radiant Flux Based on Silicone Photodiode Element</b> M. Čekon, R. Slávik and P. Juras	477
<b>Optimalization of the Heat Pump Design in the Phase of the Evaporator Selection</b> P. Vlček, M. Formánek, P. Tomáš and S. Jobánek	485
<b>Overhead Reduction or Energy Efficiency Measures</b> K. Severnyak	493
<b>Dependence of the Shape of the Temperature Field around Basement Structures on the Properties of Surrounding Soils</b> P. Kacálek, J. Plachý, R. Smolka and T. Petříček	503
<b>Energy Consumption for Heating Considering Interior and Exterior Conditions in Production Buildings</b> D. Katunský, J. Katunská and M. Zozulák	511
<b>Operative Temperature Predicting of a Room in Summer: An Approach for Validating of Empirical Calculation Models</b> R. Slávik, M. Čekon, P. Oravec and R. Kolář	519
<b>Numeric Thermal Bridges Simulation: Approaching Optimized Usability for Sloped and Rounded Shapes</b> T. Kornicki, C. Volko, M. Kornicki and U. Pont	527
<b>Simulation of Summer Thermal Stability and Comparison with Measurement</b> L. Šteffek, J. Kalánek and M. Ostrý	536

<b>Summer Thermal Stability of a Passive House in Moravany - The Czech Republic and Thermal Storage Mass</b> M. Němeček and M. Kalousek	544
<b>Usage of Raspberry Pi for Temperature and Relative Humidity Measurements and Comparison with HAM Simulation</b> P. Juras and R. Slávik	552

## Chapter 4: Hygrothermal Performance of Buildings

<b>Analysis of Thermal – Moisture Problems in Massive Wooden Sandwich Structures</b> J. Dohnal and J. Pěňčík	563
<b>Diffusion of Water Vapour through the Damaged Light Weight Wooden Wall</b> M. Uvizlová, T. Bečkovská, L. Vacková and V. Tichomirov	571
<b>Hygrothermal Properties of Steel Fiber Reinforced Concretes</b> B. Nagy and D. Szagri	579
<b>Initial State Sorption Measurements</b> A. Lakatos	589
<b>Simulation and Measurement of Hygrothermal Behaviour of Newly Developed Plasters</b> J. Hroudová, M. Sedlmajer, V. Novák and J. Zach	598
<b>The Effect of Moisture and Relative Humidity on Oriented Strand Boards Properties</b> L. Vacková and D. Bečkovský	606
<b>Vaporization Box for Monitoring of Moisture Generation Depending on the Temperature and Relative Humidity</b> R. Kolář and R. Brzoň	614

## Chapter 5: Ventilation of Buildings

<b>Analysis of Natural Ventilation Systems in Schoolrooms</b> M. Budiaková	625
<b>Dust Analyses in Ventilation Ducts</b> K. Vyhřídlová, P. Vlček, O. Rubinová and J. Bernard	633
<b>Experimental Assessment of the Influence of Outlet Geometry on the Airflow and Temperatures in the Ventilated Facade Cavity</b> E. Šagát, L. Matějka and J. Pěňčík	641
<b>Optimization of Air Distribution of Social Hall</b> P. Vojkůvková, O. Sikula and T. Kral	649
<b>Risk Assessment of Airtightness of Building Envelope</b> M. Kraus, P. Bednářová and K. Kubečka	657

## Chapter 6: Daylighting

<b>Annual Daylight Condition in Bratislava</b> M. Fabian, D. Janal and S. Darula	669
<b>Errors of <i>In Situ</i> Illuminance Measurements</b> M. Hlásková, L. Gábrová and F. Vajkay	676
<b>Testing of Illuminance Meters</b> L. Prokopová, S. Darula and D. Bošová	684
<b>Architectural Models for Measurement of Daylight Factor</b> D. Bošová and L. Prokopová	692
<b>Insolation of Interiors: The Dead Angle Analysis</b> S. Darula and M. Malíkova	699
<b>The Influence of Selected Type of Daylight Device on Horizontal and Vertical Internal Illuminance</b> L. Maňková, P. Hanuliak and P. Hartman	707

<b>The Effect of Colored Surfaces and Tinted Window Glazing on Daylight Spectral Characteristics and Illuminance Levels in Deep Space Rooms and its Evaluation for Human Visual and Biological Response</b>	
P. Hartman, L. Maňková and P. Hanuliak	715
<b>Measurement and Calculation of Luminous Characteristics of Photovoltaic Glazing Samples</b>	
P. Šujanová and J. Hraška	724
<b>Comparative Evaluation of Daylighting Simulation Programs</b>	
L. Gábrová, M. Hlásková and F. Vajkay	732
<b>Implementation of Simulation-Based Virtual Sensors Using Radiance and Java</b>	
V. Jain and A. Mahdavi	740

## **Chapter 7: Sustainable Buildings and Environmental Assessments**

<b>Green Building – Towards Sustainable Architecture</b>	
B. Bielek	751
<b>LCA of Fibre Flax Thermal Insulation</b>	
K. Struhala, Z. Stránská and J. Sedlák	761
<b>Facades with Photovoltaic Elements: A Review</b>	
J. Hraška	770
<b>Cool Roofs vs Solar Systems</b>	
D. Kassai-Szoó and A. Zöld	779
<b>Decreasing Negative Influence of Under-Flow Rainwater Inverted Green Roofs on Passive Houses, Using Accumulating Hydrophilic Mineral Wool Panels</b>	
P. Vacek and L. Matějka	786
<b>Extensive Roof Green in Central European Climate</b>	
M. Kravka, M. Daněk and R. Rabenseifer	795
<b>Exploitability of Renewable Resources in Administrative Buildings</b>	
J. Šibal and M. Kalousek	803
<b>Effect of Vegetation on Wind-Comfort</b>	
F. Szkordilisz and A. Zöld	811

## **Chapter 8: Engineering Management in Architecture and Construction**

<b>Bridging the Gap between Systems Controls and Architectural Design</b>	
B. Rader and A. Mahdavi	821
<b>Toward Visual Accessibility in the Built Environment: The ViDeA Project</b>	
M. Maringer, D. Wolosiuk, N. Hauck, U. Pont, C. Vogelauer, E. Fürst, F. Buser and A. Mahdavi	829
<b>Effort and Effectiveness Considerations in Architectural Design: Two Case Studies of Architectural Design Studios</b>	
U. Pont, S. Swoboda, A. Jonas, K. Tavoussi and A. Mahdavi	836
<b>The Issue of Escape Routes in the Setting up Additional Kindergarten in the Existing Elementary School Building</b>	
M. Rusinová and J. Šlanhof	845
