Preface to “Engineered Materials for Sustainable Structures”

Chapter 1: Innovative Building Materials

Binder Jet 3D Printing of Magnesium Oxychloride Cement-Based Concrete: A Framework to Design the Rate of Voxel F. Salari, P. Bosetti and V.M. Sglavo	3
Triaxial Tests on Hempcrete for Prefabricated Blocks Production M. Caruso, N. Cefis, G. Dotelli, C. Moletti and S. Sabbadini	15
Mechanical Properties of Concrete Incorporating Calcined Ebonyi Shale (CES) at Elevated Temperature V.T. Ibeabuchi, C.U. Nwoji and C. Esonye	21
Characterisation of Recycled Quarzitic and Plastic Aggregates for Sustainable Lightweight Screeds V. Volpini and M.S. Pianesi	28
Analytical Approach for Modelling the Pull-Out Mechanism of Recycled Synthetic Fibres in Fibre-Reinforced Concrete (FRC) A. Sorzia, C. Signorini, V. Volpini and P. di Maida	35

Chapter 2: Advanced Composite Materials for Structural Strengthening

Numerical Analysis to Evaluate the Structural Performance of NFRCM (Natural Fabric-Reinforced Cementitious) Strengthened Masonry J. Baldelli, D. Baraldi, G. Boscato, A. Cecchi, C.B. de Carvalho Bello, M. Boscolo Zemelo and N.P. Thatikonda	49
Determination of the Matrix-Fiber Cohesive Material Law of FRCM-Concrete Joints F. Focacci, T. D'Antino and C. Carloni	55
Advanced Composites with Alkali-Activated Matrices for Strengthening of Concrete Structures: Review Study I. Skyrianou, C.G. Papakonstantinou and L.N. Koutas	65
Tensile and Pull-Out Behavior of Steel Reinforced Grout Connectors S. Fares, R. Fugger, S. de Santis and G. de Felice	72
Retrofitting with FRCM Composites: Shear and Flexural Behaviour of Strengthened Masonry Walls A. Incerti, A. Bellini, A.R. Tilocca and M. Savoia	80
Influencing Parameters for the Failure Mechanism of Carbon-FRCM (Fibre Reinforced Cementitious Matrix Systems) B. Malchiodi, G. Grana Castagnetti and C. Siligardi	90
Preliminary Assessment of Rice Husk Ash (RHA) as Functional Interphase Agent in Sustainable Composite Systems for Structural Strengthening A. Sola, C. Signorini, M. Hanuskova and M. Zapparoli	98
Engineered Cementitious Composites for the Conservation of 20th Century Concrete Architectural Heritage A. Georgiou, M. Theodoulides and I. Ioannou	108

Chapter 3: Durability and Corrosion of Building Materials and Structural Elements

Effect of Locally Sourced Fly Ash and GGBS on the Compressive Strength and Chloride Resistance of Concrete C.V. Nguyen	123
Evaluation of Preventative Methods against Rebar Corrosion in Concrete F. Bolzoni, A. Brenna, S. Beretta, M. Ormellese, M.V. Diamanti and M.P. Pedferri	132

Coatings Based on Light-Weight Alkali Activated Mortars for Steel Corrosion Protection G. Masi and M.C. Bignozzi	143
Durability of Mortars Manufactured with Low-Carbon Binders Exposed to Calcium Chloride-Based De-Icing Salts D. Coffetti, M. Cabrini, E. Crotti, G. Gazzaniga, S. Lorenzi, T. Pastore and L. Coppola	151
Preliminary Assessment on Durability of High Performance Fiber Reinforced Concrete with CSA Cement V. Afroughsabet and M. Gastaldi	161
Stainless Steels as Sustainable Solution for Concrete Reinforcement - From Laboratory to Practice B. Elsener, M. Fantauzzi and A. Rossi	171
Damage--Based Hysteresis Bouc--Wen Model for Reinforced Concrete Elements S. Sirotti, M. Pellicciari, B. Briseghella and A.M. Tarantino	178
Durability of Reinforced Concrete Containing Biochar and Recycled Polymers F. Zanutto, A. Sirico, S. Merchiori, F. Vecchi, A. Balbo, P. Bernardi, B. Belletti, A. Malcevski, V. Grassi and C. Monticelli	188

Chapter 4: Life Cycle Assessment in Construction

Greenbuild: An Analytical Tool to Support Decision Making in Green Building Design F. Cappelletti, R. Menghi, M. Rossi and M. Germani	199
Climate Change Impact Assessment of Geopolymer Mortars F. Colangelo, I. Farina, C. Salzano, M. Travaglioni, M. de Pertis, R. Cioffi and A. Petrillo	210
Circularity Performances of the Production of a Cement Mortar Reinforced with Recycled Synthetic Fibers S. Marinelli, M.A. Butturi, B. Rimini and R. Gamberini	218
Sustainability in Building and Construction: LCA of 21 Mural Paints L. Ciacci, I. Vassura, F. Catalano, A. Simoncelli, F. Moretti and F. Passarini	227
Energy Improvement in the Building Sector: An Economic Analysis Relating to the most Common Italian Masonry V. Annibaldi, F. Cucchiella, I. D'Adamo, M. Gastaldi and M. Rotilio	236
The Role of Product Certification in the Transition towards the Circular Economy for the Construction Sector P. Ghisellini, R. Passaro and S. Ulgiati	248
Secondary Raw Materials for Circular Economy in Construction Sector: A Review M. Rotilio, F. Cucchiella and V. Annibaldi	260
Benefits and Opportunities of Reusing Waste Rotor Blades Materials from a Life Cycle Perspective A.D. La Rosa and S. Goutianos	270

Chapter 5: Modelling and Calculation

Damage Modelling in Adhesive Butt Joints under Torsion via Imperfect Interface Models R. Rizzoni, M.L. Raffa and F. Lebon	281
---	-----
