Preface, Organizing Committee, Scientific Committee

Chapter 1: Materials Science: Structure and Properties

Characteristic Structure of Cu-0.8Cr Alloy Using SPD Deformation by Rolling with Cyclic Movement of Rolls Method	
A. Urbańczyk-Gucwa, K. Rodak, A. Płachta, J. Sobota and Z. Rdzawski	3
Investigation of Homogenization Process of the 5019 Alloy Extrusion Billets	
A. Woźnicki, D. Lesniak, G. Włoch, A. Wojtyna and M. Zabrzeńska	10
Experimental Analysis of Residual Stress in Friction Stir Processed Cast AlSi9Mg Aluminium Alloy	
M.S. Węglowski, P. Sedek and C. Hamilton	18
Influence of the Ageing Temperature on the Microstructure and Selected Mechanical Properties of Ti13Nb13Zr Alloy	
R. Dąbrowski, J. Krawczyk and E. Roźniata	24
Friction Stir Welding of Dissimilar Aluminum Alloys	
M. Kopyściański, A. Węglowska, A. Pietras, C. Hamilton and S. Dymek	31
Study of the Structural Properties and Segregation of Alloying Elements in Strips from the TRC Line	
W. Ścieżor, A. Mamala, P. Kwaśniewski, R. Kowal and J. Grzebinoga	38
Analysis of the Antimicrobial Copper Alloys Registered by the Environmental Protection Agency	
M. Walkowicz, P. Osuch, T. Knych, A. Mamala, B. Smyrak and S. Bocheńska	46
Effects of Thermal Heat Treatment Parameters on the Properties of WE43 Magnesium Alloy	
I. Peter, C. Castella and M. Rosso	53
New Aluminum Base Materials for Use on Electrical Purposes	
J. Grzebinoga, A. Mamala, T. Knych, P. Kwaśniewski, W. Ścieżor, G. Kiesiewicz, A. Kawecki, R. Kowal, E. Sieja-Smaga and B. Jurkiewicz	61
Influence of Sr Addition on the Microstructure and Properties of HPDC EN AC-AI Si9Cu3(Fe) Alloy	
Ł. Poloczek, B. Dybowski, A. Kielbus and M. Łuszczak	69
The Range of the Occurrence of α Phase in near β Titanium Alloys	
J. Krawczyk, Ł. Frocisz, R. Dąbrowski, E. Roźniata and T. Śleboda	77
The Porosity Description in Hypoeutectic Al-Si Alloys	
B. Dybowski, Ł. Poloczek and A. Kielbus	83
Research on the Selection of Heat Treatment Parameters of Casting Aluminum Alloy AlSi5Mg Type	
J. Wiecheć, T. Knych, M. Lachowicz, M. Lachowicz and P. Koszła	91
Influence of the Shaping Microstructure Technology and Properties of AlMgSi Alloys on Microcracks Formation under an Influence of Static Compression Loads	
A. Tarasek, B. Olszowska Sobieraj, J. Stolarska and P. Uliasz	99
Numerical Models of Vacancy Diffusion Based on Crystal Structure	
M. Krośniak, P. Pałka and G. Boczekal	107
The Effect of Deformation on Microstructure of Cu-Ni-Sn Aging Alloys	
L. Thi Chieu, S.M. Thang, N.D. Nam and P.M. Khanh	113
Microstructure and Tribological Properties of a Material with Cementite Eutectic Applied for Metallurgical Rolls	
E. Roźniata, J. Krawczyk, R. Dąbrowski, M. Madej, Ł. Frocisz and J. Pacyna	119
Structure Analysis of Magnesium Alloy (AZ31) Wires at Different Stages of a Multistage Cold Drawing Process	
T. Bajor	125

Researches on the Production of Conductive Aluminium-Graphene Composites T. Knych, A. Mamala, P. Kwaśniewski, G. Kiesiewicz, A. Kawecki, B. Smyrak, M. Gnielczyk, K. Korzeń and E. Sieja-Smaga	132
Research of Chemical Composition Influence on the Mechanical and Electrical Properties of Al-Mg-Si Wires B. Smyrak, M. Gnielczyk, B. Jurkiewicz, T. Knych, K. Korzeń, M. Jabłoński, A. Mamala and A. Nowak	138
Computer-Assisted Methods of the Design of New Materials in the Domain of Copper Alloy Manufacturing K. Regulski, G. Rojek, K. Jaśkowiec, D. Wilk-Kołodziejczyk and S. Kluska-Nawarecka	143
Metallographic Studies of Selected Eneolithic and Bronze Age Artifacts from Poland J.S. Suchy, A. Garbacz-Klempka, K. Adamczak, Ł. Kowalski, J. Kozana, M. Perek-Nowak, M. Szucki and M. Piękoś	151
New Type of Lightweight Railway Overhead Line Carrying Equipment P. Kwaśniewski, T. Knych, G. Kiesiewicz, A. Mamala, W. Ścieżor, M. Jabłoński, A. Kawecki, R. Kowal, S. Kordaszewski, K. Franczak, A. Bogacki, R. Greguła, L. Błędowski, A. Rojek and W. Majewski	160

Chapter 2: Coatings

Protective Coatings on Steel Dies for Wax Injection Process J. Nawrocki, T. Szczech, M. Poreba, M. Motyka, W. Ziaja and J. Sieniawski	171
Selection of Protective Coatings Obtained by Plasma Spraying Method for Foundry Industry M. Richert, B. Leszczyńska-Madej, I. Nejman, P. Zawadzka and S. Pietrzyk	177
Effect of the Addition of Glassy Carbon on the Structure and Properties of ZrO₂-Y₂O₃ Coatings M. Richert, I. Nejman, B. Leszczyńska-Madej, P. Zawadzka and J. Smolik	182
Electrochemical Deposition of Selenium on Copper K. Kołczyk, R. Kowalik, K. Mech and P. Żabiński	189

Chapter 3: Casting and Solidification

Structure and Properties Studies of Rapidly Solidified Al-Mn Alloys A. Kula, L. Blaz and P. Lobry	199
Influence of Continuous Casting Conditions on Segregation of Additions in EN AW 1350 Aluminum Alloy R. Kowal, T. Knych, A. Mamala, P. Kwaśniewski, W. Ścieżor and J. Grzebinoga	205
Investigation of Solidification Process of As-Cast ADC12 in Sand Molds with Different Pouring Conditions by Temperature Field P.M. Khanh, N.H. Hai, Q.K. Dang and D. Hong Bach	212
Study on Rheo-Continuous Casting of Al-Si A356 (EN AC4200) Alloys D. Minh Duc and N.H. Hai	220
Influence of Al and Fe Additions on Structure and Properties of Cu-Sn Alloys A. Garbacz-Klempka, E. Czekał, J. Kozana, M. Perek-Nowak and M. Piękoś	226

Chapter 4: Powder Metallurgy

Powder Metallurgy and Precious Metals: State of the Art and Future Developments M. Actis Grande and I. Forno	239
The Structure and Mechanical Properties of Plastically Consolidated Al-Ni Alloy G. Włoch, T. Skrzekut, J. Sobota, A. Woźnicki and J. Cisoń	245
The Influence of Process Parameters on Microstructure and Mechanical Properties of PM Al+4 wt. %Cu Alloy A. Tylek, B. Leszczyńska-Madej and A. Zygiert	252
Structure Evolution in Annealed and Hot Deformed AlMg-CeO₂ Composite T. Skrzekut, A. Kula and L. Blaz	259

Influence of Molybdenum and Boron Addition on Fracture of P/M Parts M. Perek-Nowak and J. Karwan-Baczewska	265
Copper Metal Matrix Composites Reinforced by Titanium Nitride Particles M. Wąsik and J. Karwan-Baczewska	270
Bulk Nanomaterials and Powders Consolidation Produced by Cyclic Extrusion Compression M. Richert, J. Richert, B. Leszczyńska-Madej and A. Hotłoś	276
Recycling without Melting: An Alternative Approach to Aluminum Scrap Recovery M. Wędrychowicz, Ł. Wzorek, T. Tokarski, P. Noga and J. Wiewióra	284

Chapter 5: Metallurgy and Recycling

Hydrometallurgical Treatment of Smelted Low-Grade WEEE in Ammoniacal Solutions E. Rudnik, I. Dobosz, K. Fitzner and Z. Miazga	293
Metallurgy at KGHM Polish Copper SA P. Kwapisieński	299
Recycling of Nd-Fe-B Magnets from Scrap Hard Disc Drives M. Szymański, B. Michalski, M. Leonowicz and Z. Miazga	308
Effect of Processing Parameters on Aeration of Reduced Hatinh Ilmenite T.T. Nguyen, T.N. Truong, K. Quoc Dang and B.N. Duong	314
Application of CVCC Technique for Measuring Electrical Conductivity of Metallurgical Slags and Molten Salts P. Palimąka, S. Pietrzyk and T. Sak	321

Chapter 6: Production Technologies of Non-Ferrous Metals

Functional Model of Monitoring System of Laboratory Tests for Individual Production Supervised in the ERP K. Zaba and B. Gałda	329
Relationship between Copper Price and Selected Metals Prices N. Iwaszczuk, A. Wzorek and B. Łamasz	336
World Class Manufacturing Methodology as an Example of Problems Solution in Quality Management System K. Łyp-Wrońska	342
Evaluation of Local Material Flow during Complex Deformation Conditions on the Basis of Multi Scale Analysis J. Szyndler and L. Madej	350
Application of Torsion Test for Determination of Rheological Properties of 5019 Aluminium Alloy K.B. Laber, A. Kawalek, S. Sawicki, H. Dyja, J. Borowski, D. Lesniak and H. Jurczak	356
Plastometric Testing of Rheological Properties of 5083 and 5754 Aluminium Alloy S. Sawicki, A. Kawalek, K.B. Laber, H. Dyja, J. Borowski, D. Lesniak and H. Jurczak	362
Research of the Laboratory Wire Drawing Process of Zinc M. Jabłoński, T. Knych, A. Mamala, B. Smyrak and B. Ciejka	367
Microstructure and Creep Properties of Selected Gravity Casting Magnesium Alloys T. Rzychoń	372
The Effect of Homogenization and Interrupted Rolling on Microstructure and Properties of Zn-Cu-Ti Rolled Sheets P. Osuch, M. Walkowicz, T. Knych and A. Mamala	380
Changes in Structure and Hardness of CuFe2 Alloy during Rolling with Cyclic Movement of Rolls P. Amrogowicz, J. Pawlicki and A. Urbańczyk-Gucwa	387
Rheological Resistance of CuAg15 Alloy Wires E. Sieja-Smaga, K. Korzeń, A. Kawecki, B. Smyrak, G. Kiesiewicz, T. Knych, A. Mamala and P. Kwaśniewski	393
Analysis of Extrusion Welding Conditions for AlMg Alloys with High Mg Content A. Wojtyna, D. Lesniak, A. Rękas, T. Latos, K. Zaborowski and B. Leszczyńska-Madej	401
