

Table of Contents

The Effect of Sodium Acetate on Biodegradable Rice Starch-Based Solid Polymer Electrolyte for Supercapacitor A. Nugroho, M. Syaifudin and S.A. Pradanawati	1
Synthesis and Electrochemical Performance of Sodium Iron Phosphate Cathode Battery Based on Water-Chitosan Slurry M.A. Azhar, A.R. Setopratama, P.Z.Z. Nehan, R.A.P. Pradana, C.Z. Ahmad and D. Darminto	13
Corn Starch-Sodium Acetat Composite Material from Industrial Waste Fly Ash for Solid Electrolyte Polymer Ionic Conductivity in Supercapacitor Application I.F. Erlangga, S.A. Pradanawati, A.D. Pramata and N.L. Hamidah	19
Solid Polymer Electrolyte (SPE) from Corn Starch and Aluminum Nitrate Salt Composites for Aluminum - Ion Battery K. Anam, S.A. Pradanawati, A.D. Pramata and N.L. Hamidah	27
Enhanced Ionic Conductivity of Fluoride-Doped $\text{LiTi}_2(\text{PO}_4)_3$ as Solid Electrolyte of Lithium-Ion Battery M. Rial Afif, V.M. Pratiwi and L. Noerochim	37
Study of Addition Metal (Ti, Zn) Dopant on the Structure of NASICON as Solid Electrolyte Batteries V.M. Pratiwi, L. Noerochim, H. Purwaningsih, A.A. Wibowo and F.A. Maulana	43
The Effect of Nitrogen on the Capacitive Properties of N-Doped rGO/CuCr₂O₄ Composites as Materials for Supercapacitors D. Susanti, A.N.R. Pratama and H. Nurdiansah	49
