

Table of Contents

Preface, Committees

Chapter 1: Waste Storage and Recycling

The Properties of Material from Recovered TetraPak Beverage Cartons H. Raclavská, H. Škrobánková, P. Pavlík and V. Sassmanová	3
Waste Building Materials to Roads in Czech Republic D. Stehlík, P. Hyzl and M. Varaus	10
Emission Production from the Incineration of Municipal Waste and Coal in Heat Sources for Solid Fuel M. Vantúch, J. Jandačka and A. Čaja	18
Influence of Refused Glass on Thermal Properties of Municipal Waste K. Žurková, K. Kryštofová, H. Raclavská and H. Škrobánková	23
Problems with Solidification of Fly Ashes from the Municipal Solid Waste Incineration A. Miškuřová, A. Medvecová, A. Kochmanová, D. Olčák and V. Hronský	31
Recovery of Copper and Tin from Used Printed Circuit Boards T. Havlík, D. Oráč, J. Jaščišák, A. Miškuřová and H. Horváthová	39

Chapter 2: Biomass and Energy Production

Steam Biomass Gasification - Effect of Temperature M. Baláš, M. Lisý and J. Pospíšil	49
Biogas Production Using Anaerobic Digestion of Industrial Waste J. Gaduš, T. Gierl and V. Kažimírová	55
The Energy Potential of Municipal Waste in the Žilina Region M. Holubčík, A. Čaja, J. Jandačka and M. Jobb	63
Economics of Biomass Kiln-Drying with Vortec Tube L. Kolláth, M. Capek and I. Onderová	69
Interaction between Technological and Material Parameters during Densification of Selected Types of Herbaceous Biomass P. Križan, M. Matúš, J. Beniák and M. Svátek	79
The Effectiveness Criterion for Densification of Wood Waste M. Matúš, P. Križan and J. Beniák	89
Design of the Reactor for the Partial Oxidation of the Pyrolysis Gas Using the Mathematical Modeling J. Minář, S. Honus, P. Pavlík, O. Němček, J. Frantík and V. Sassmanová	95
Estimation and Measurement of Heat from Municipal Landfills J. Várfalvi, J. Kontra, J. Takács and M. Krajčík	103
Use of Biomass and Waste for Energy Purposes P. Tonhauzer and M. Morvova	109
Diagnostic Measurement of Boiler Efficiency during the Combustion of Biofuels T. Výtisk and R. Janalík	115
Using of Ferrous Chloride in Anaerobic Digestion of a Substrate with High Sulphur Content M. Hutňan, J.J. Chávez-Fuentes and M. Czölderová	122

Chapter 3: Pollution and Techniques of Environmental Protection

SO₂ Measurement with Sorption - Cumulative and Ultraviolet Fluorescent Method near Nováky Power Plant J. Pokrývková, J. Fuska and V. Bárek	131
---	-----

Residual Toluene Concentrations in Exhaust Gas Waste Stream of Motor Vehicle D. Adamovic, M. Vojinovic-Miloradov, M. Miloradov, J. Doric, S. Adamovic, J. Radonic and M. Turk-Sekulic	137
Environmentally Progressive Road Traffic Noise Reducing Devices and Materials M. Decky, M. Kováč and E. Remišová	144
Biodegradable Polymers for the Production of Prototypes J. Beniak, M. Matúš and P. Križan	152
Measurement Technique for the Flood Barriers Deformation Determination T. Kopunec, M. Vajsábel, P. Pavlásek, M. Koval, S. Ďuriš and Ľ. Šooš	159
Development of a Modular Flood Barrier Concept Made from Recycled Plastic Ľ. Šooš, J. Ondruška, P. Kovač and V. Čačko	168

Chapter 4: Machines and Equipment for Environmental Engineering and Energy Production

Research into a New Method for Trimming Hooves by Liquid Jet V. Čačko, J. Ondruška, I. Onderová, Ľ. Šooš and Z. Krajný	177
Production Stainless Gravitational Heat Pipes Filled with Distilled Water M. Jobb, Ľ. Kosa, M. Holubčík and R. Nosek	184
Gravitation Heat Pipe and Influence of Working Conditions Ľ. Kosa, M. Jobb, P. Nemec and M. Malcho	192
Influence of Underpressure on Heat Transfer and Temperature Field at Sprinkled Tube Bundle P. Kracík and J. Pospíšil	200
Change of Operation Parameters of Waste Incinerator by Formation of Deposits J. Moskalík	207
Feedback FEM Analysis to the Material Properties in the Simulation of Radial Pressure in the Cylindrical Chamber J. Ondruška, Ľ. Šooš, I. Onderová and V. Čačko	213
Numerical Study of Air Distribution in Combustion Chamber M. Špilaček, M. Lisý and Z. Skala	218
Pressing Technologies for ELVs M. Štefanka, Ľ. Šooš, V. Čačko and J. Ondruška	224
Optimization of Secondary Air Distribution in Biomass Boiler by CFD Analysis M. Lisý, J. Pospíšil, O. Štelcl and M. Špilaček	231
