

Table of Contents

Excellent UV-Shielding Performance of PVA Film Using Methanol Extracted Longevity Spinach Leaves (<i>Gynura Procumbens</i>) Z. Zikri, H. Abral, M. Rusli and M. Mahardika	1
AI Tools for Plasma Diagnostics by X-Ray Imaging and Spectroscopy in the PANDORA Project Frame B. Peri, E. Naselli, G. Finocchiaro, B. Mishra, A. Pidotella, R. R�acz, S. Biri and D. Mascali	9
Recent Developments of the VOXES Von Hamos X-Ray Spectrometer for Laboratory XES and XAS Studies S. Manti and A. Scordo	23
Beamlines of the EuPRAXIA@SPARC_LAB X-Ray FEL Facility F. Nguyen	31
Laser Shock Peening with Acoustic Emission In-Situ Monitoring for Quality Control J.M. Griffin, P. Shukla, R. Qin and P. Butler Smith	39
Improved Performance Assessment of Photovoltaic Systems Using Paraffin-Based Phase Change Materials and Innovative Container Designs Z. Arifin, U. Ubaidillah, W.E. Juwana, R.A. Rachmanto, E. Yohana, D. Widhiyanuriyawan, N.F. Alfaiz, S.D. Prasetyo and M.A.M. Rosli	51
Numerical Study of Four Hydrokinetic Savonius Turbines in a Staggered Co-Rotating Configuration in the Cooling Water Channel M.R.P. Utama and T. Yuwono	65
Numerical Study of Four Hydrokinetic Savonius Turbines in an In-Line Square Co-Rotating Configuration in the Cooling Water Channel D.A. Setiyanto and T. Yuwono	75
Numerical Analysis of Defect-Induced Stress and Deformation in a Progressive Cavity Pump Stator Elastomer D. Meilianto and R. Sriwijaya	83
Bayesian Strategy for the Volume Accuracy of Ink Droplets Continuous Estimation during Printing Based on Prior Knowledge with Earth Mover's Distance D. Kong, J.K. Chen and J.C. Xiong	101
The Printing of Highly Uniform Display Device by Graph Convolutional Neural Network-Based Manufacturing J.C. Xiong, J.K. Chen and Z.W. Zhao	107
Effect of Surface Roughness on the Friction Moment in a Ball Bearing H. Kumar and M. Tiwari	115
A Study on the Effects of Cam Eccentricity and Cylinder Phase Angle on the Output Performance of a Two Cylinder Stirling Engine C.K. Lin, S.C. Yang, W.K. Liang and Y.X. Wang	125
Auxiliary Lubrication Effects of Polyolefin Resin and Porous Polymer Materials Used in the Linear Slide Rails H.Y. Wang, Y.P. Chang, P.C. Huang, C.Y. Kuo and J.C. Wang	131
