Finite Element Analysis of Damage of Cylindrical Roller Bearing of Main Shaft of Shot Blasting Machine Y.J. Zhang, Y.Z. Pan, Z.F. Jiang, X.L. Fu and T.Y. Zhang	1
Enhancing the Energy Efficiency of Heat Exchanger by Using Double Helical Coil in Shell and Tube Heat Exchanger: An Experimental Study K. Hasham, M.W. Muhieldeen, S. Manzoor and S. Solanki	9
Vibrational Analysis of Mini - Unmanned Aerial Vehicles due to Gun Recoil N.R. Nelson and P.M. Siva	21
Artificial Intelligence Predictions Effect of Loading Rate, Crack Width and Crack Length Ratio on Mode I Fracture Toughness of PMMA A. Wiangkham, P. Aengchuan and A. Ariyarat	27
Optimization of a Developed Multi-Cyclone Using Response Surface Methodology (RSM) to Control Fine Particulate Emission N. Hasyimah, M. Rashid and H. Norelyza	33
Tensile Strength of 3D Printing Scaffold Design Truncated Hexahedron for Tuberculosis Drug Delivery E. Yuliatin, D. Hikmawati, Aminatun, A.S. Budiati, P. Widiyanti and F. Parastuti	43
A Novel Epitope Dataset: Performance of the MCL-Based Algorithms to Generate Dataset for Graph Learning Model B. Solihah, A. Musdholifah and A. Azhari	49
A Novel Ensemble of Support Vector Machines for Improving Medical Data Classification P.H. Huynh and V.H. Nguyen	59
