Preface, Conference Committee, Sponsors

Chapter 1: Polymers and Composites

Preparation and Characterization of Properties of Acrylonitrile Butadiene Styrene Waste Plastic Blended with Virgin Styrene Butadiene Rubber N.T. Thuong, N.D. Mao, B.T.P. Quynh and L.G. Bach	3
Biodegradable Poly(Lactic Acid)/Perkalite Clay Nanocomposites: Gas Barrier Properties C. Tipachan and S. Kajorncheappunngam	10
Study on Factor of the Quenching Performance on the Polymer Material Characteristics of an Air Circuit Breaker N. Tonmitr, K. Ganaha, E. Kaneko and T. Hayashida	15
Properties of Cassava Starch-Based Foam Composite Containing Sugarcane Fiber and <i>Origanum vulgare</i> L. Essential Oil S. Ketkaew, P. Kasemsiri, U. Pongsa and S. Hiziroglu	21
Effect of Bio-Fibrils Incorporating with TiO₂ on the Properties of Natural Rubber Foam K. Seerod, J. Sangjumba and V. Seithtanabutara	26
Study on Mechanical Properties of Natural Rubber Filled with Molasses Black/Carbon Black Hybrid Filler System T. Saowapark, E. Chaichana and A. Jaturapiree	30
A Study on Coconut Shell Powder Filled in Epoxy Resin: A Remedy for Electrical Tree Growth Inhibition T. Saithanu and A. Suksri	36
A Study on Modification Properties of Silicone Rubber Using Organic Filler from Golden Apple Snail Shell S. Tepsila and A. Suksri	40
Concentration and Temperature Dependences of Effective Ethanol Vapor Permeance of Plastic Films Utilized in Controlled Release-Based Active Packaging for Horticultural Products W. Utto, R. Pruthitkul, P. Malila, A. Noomhorm and J.E. Bronlund	45

Chapter 2: Nanomaterials, Chemistry and Biochemistry of Materials, Chemical Technologies

Synthesis of TiO₂ Nanotubes and the Effects of Deionized Water on their Surface Morphology and Microstructure E.N. Timah, S. Kiennork, P. Wongwanwattana, P. Thongpanit, B. Kadroon, B. Samran and U. Tippiarach	51
Nanostructure and Microstructure Evolution of D.C. Reactive Magnetron Sputtered CrN Thin Films A. Buranawong and N. Witit-Anun	57
Mechanical and Chemical Stabilities of Barium Alginate Gel: Influence of Chemical Concentrations P. Taweetanawanit, T. Radpukdee, N.T. Giao and S. Siripattanakul-Ratpukdi	62
Synthesis, Characterization and Performance Validation of Hybrid Cation Exchanger Containing Hydrated Ferric Oxide Nanoparticles (HCIX-Fe) for Lead Removal from Battery Manufacturing Wastewater N. Chanthapon, P. Praipipat, S. Sarkar and S. Padungthon	67
Trace Lead Removal in Drinking Water Using High Capacity Polymeric Supported Hydrated Iron Oxide Nanoparticles S. Padungthon, N. Chanthapon, M.M. El-Moselhy and P. Praipipat	72
Rice Hull Micro and Nanosilica: Synthesis and Characterization W. Jansomboon, K. Boonmaloet, S. Sukaros and P. Prapainainar	77

Synthesis and Characterization of Silaned-Graphene Oxide-Mordenite Grafting N. Pattanapisutkun, C. Prapainainar, P. Kongkachuichay and P. Prapainainar	81
The Utilization of Boiler Fly Ash for Treatment of Wastewater Color by Adsorption Process: Case Study for Pulp and Paper Industry Y. Ngernyen, A. Laungphairojana, T. Nikronsangkaphinit and S. Kaewketkam	87
Optimum Conditions for the Formation of Glycidyl Nitrate from 1,3-Dinitroglycerin E. Astuti, Supranto, R. Rochmadi and A. Prasetya	95
RSM Optimization for the Production of Activated Carbons from Para-Wood Residue P. Nitnithiphрут, R. Pimsri and V. Seithtanabutara	100
Binary Fe and Mn Oxide Nanoparticle Supported Polymeric Anion Exchanger for Arsenic Adsorption: Role of Oxides, Supported Materials, and Preparation Solvent A. Pranudta, P. Praipipat, M.M. El-Moselhy and S. Padungthon	105
Carbothermic Reduction of Misamis Oriental Chromite Ores E.O. Yape and N.M. Anacleto	110
Texture and Antioxidant Properties of Puffed Pounded-Unripe Rice Coated by Marigold Extract as Affected by Fluidized-Bed Coating Conditions W. Duangkhamchan and S. Inchuen	115
Effects of Surface Hydrophobicity on Functionalization of Oleic Acid on <i>Bombyx mori</i> Silkworm Cocoons K. Jetsrisuparb, K. Pooritorn, A. Maungsean, P. Kasemsiri, T. Cao and P. Chindaprasirt	120

Chapter 3: Ceramics and Alloys

Effect of Small Amount BaTiO₃ on Properties of K_{0.02}Na_{0.98}NbO₃ Ceramics with Various Sintering Temperature Prepared by Molten Salt Method C. Warangkanagool	129
Hydroxyapatite from Golden Apple Snail Shell with Calcined Kaolin for Biomaterial Applications R. Sutthi, S. Pangdaeng, P. Chindaprasirt, Y. Otsuka, Y. Mutoh and T. Laonapakul	133
Modification of Eutectic Si in Hypoeutectic Al-Si Alloys with Erbium Addition T. Tantiwaitayaphan, P. Pandee and C. Limmaneevichitr	139
Utilization of Pottery Stone as a Replacing Material for Vitreous Ceramic Sanitary Ware Production: A Case Study in Khon Kaen, Thailand P. Sirilar, N. Srisukhumbowornchai, P. Thanakijkasem, S. Sirisoonthorn and G. Klein	143
Effect of Welding Speed on Deformation Behavior of Friction Welded Aluminium/Alumina D. Mingmuang, S. Talangkun, C. Thinvongpitak, P. Kapranos, A. Pronpijit and W. Bowornkiatkaew	148

Chapter 4: Building Materials

Improvement of Early Compressive Strength in Belite Cement by Incorporating Silica Coated Single-Walled Carbon Nanotubes W. Suprompituk and P. Jaroenapibal	157
Use of Recycled Concrete Aggregate in High-Calcium Fly Ash Geopolymer Concrete T. Tho-In, V. Sata, T. Cao and P. Chindaprasirt	163
Physical and Thermal Properties of Fired Clay Bricks Mixed with Rice Husk Ash and Fly Ash K. Srinavin and P. Tunming	169
Properties of Light Weight Concrete Containing Crumb Rubber Subjected to High Temperature T. Kantasiri, P. Kasemsiri, U. Pongsa and S. Hiziroglu	177
Preliminary Study of Pressed Lightweight Geopolymer Block Using Fly Ash, Portland Cement and Recycled Lightweight Concrete P. Posi, P. Foytong, P. Thongjapo, N. Thamultree, P. Boontee, P. Kasemsiri, T. Cao and P. Chindaprasirt	184
Strength and Behaviour of Small-Scale Reinforced High Calcium Fly Ash Geopolymer Concrete Beam with Short Shear Span P. Topark-Ngarm, T. Cao, P. Chindaprasirt and V. Sata	191
