Preface

Chapter 1: Optoelectronics and Electronics Devices

Electrical Properties of GaN Cap Layer for AlGaIn/GaN HEMT M.H.A. Hamid, R.I. Mohd Asri, M. Nuzaihan, M. Inaba, Z. Hassan, H. Kawarada, S. Falina and M. Syamsul	3
Nanomanipulation of Functionalized Gold Nanoparticles on GaN M.A. Che Seliman, N.A. Ali Yusup, M.A. Ahmad, C. Ibaou, M. Nuzaihan, H. Kawarada, Z. Hassan, M.F. Packeer Mohamed, S. Falina and M. Syamsul	9
Impact of Notch Structures on Transfer Characteristics of AlGaIn/GaN HEMTs: A Simulation Study M. Haziq, N. Ali, S. Falina, H. Kawarada and M. Syamsul	15
Comparison of the Electrical Performance of AlN and HfO₂ Passivation Layer in AlGaIn/GaN HEMT Z. Zulkifli, N. Ali, S. Falina, H. Kawarada, M.F. Packeer Mohamed and M. Syamsul	21
Microfiber Optics Liquid Refractometer: The Effect of Taper Waist M.A.A. Bakar, A.T.B. Li, G. Krishnan, M.S.A. Aziz, S.M. Mohammad, A.F. Omar and M. Abdullah	27
Temperature Dependence of Electrical Characteristics of ZnO Nanowire Field-Effect Transistors with AZO and Aluminium Source/Drain Contact N.A. Ghazali, M.F. Packeer Mohamed, M.F.A. Jalaludin Khan and H. Chong	33
Study of Strained-SiGe Channel P-MOSFET Using Silvaco TCAD: Impact of Channel Thickness S.N.N. Mohd Salleh, A.F. Abd Rahim, N.S. Mohd Razali, R. Radzali, A. Mahmood and I.H. Hamzah	39
Investigation on Absorption and Photocurrent in Silicon Absorber with Varied Pyramid Texture Angles by Ray Tracer M.A.A. Rosle and M.Z. Pakhuruddin	47

Chapter 2: Research and Optimisation of Power Electronic Devices on Silicon Carbide

Threshold Voltage Adjustment on 4H-SiC MOSFETs Using P-Doped Polysilicon as a Gate Material A. May, M. Rommel, A. Abbasi and T. Erlbacher	57
Demonstration of SiC Trench Gate MOSFETs with Narrow Cell Pitch Using Source Self-Aligned Process S. Kimoto, R. Iijima and S. Harada	63
Assessing, Controlling and Understanding Parameter Variations of SiC Power MOSFETs in Switching Operation T. Aichinger, M.W. Feil and P. Salmen	69
Towards SiC-Based VUV Pin-Photodiodes - Investigations on 4H-SiC Photodiodes with Shallow Implanted Al Emitters M. Schraml, N. Papathanasiou, A. May, T. Weiss and T. Erlbacher	77
Optimizing PECVD a-SiC:H Films for Neural Interface Passivation S. Greenhorn, K. Zekentes, E. Bano, V. Stambouli and A. Uvarov	83
Effect of Termination Region on Unclamped Inductive Switching Failure for 4H-SiC VDMOS S.Y. Liu, X.H. Cheng, L. Zheng, J.H. Feng and Y.H. Yu	89
Numerical Analysis of the Schottky Contact Properties on the Forward Conduction of MPS/JBS SiC Diodes M. Boccarossa, A. Borghese, L. Maresca, M. Riccio, G. Breglio and A. Irace	95

Chapter 3: Green Building Materials and Construction Technology

The Mechanical Properties and Microstructure of Gypsum Board Manufactured from Water Hyacinth and Coconut Fiber P. Nachaisit, N. Ketchat, P. Hankhantod and B. Krittacom	105
Alkaline Activation of Ferrous Foundry Sand: A Look at the Effect of Activator Concentration, Liquid-Solid Ratio and Curing Temperature T. Sithole	111
Case Study of Applying 3D Laser Scanning Technology to Spacing Inspection of Rebar Placing Work J.Y. Kim, S.H. Jeong, J.W. Kim and G.H. Kim	117
Utilization of Plastic Waste and Waste Rubber Tyres to Modify Bitumen Binder in Road Construction M. Tladi, T. Mashifana and N.T. Sithole	131
Chemical, Mechanical, and Durability of Composites Developed from Aluminum Slag M. Tladi and T. Mashifana	139
