

Table of Contents

Preface

Chapter 1: Functional and Special Materials

An Overview on the Use of Phase Change Material (PCM) for PV Cooling K. Osmani, M. Ramadan, A. Haddad, T. Lemenand and B. Castanier	3
An Investigation on Nano-Enhanced Phase Change Materials: Carbon-Based Nanoparticles M. Mahmoud, M. Ramadan, K. Pullen, M.A. Abdelkareem, A.G. Olabi and S. Naher	11
The Classification of the Stress-Strain Curve Zones on the Basis of their Validity to Study the Shape Memory Effect (SME) Property R.A.A.K. Abbas and M.H. Al-Maamori	17
The Performance Change of Electric Power Fittings in Extremely Cold Environment J.Q. Liang, J. Zhang, W. Sun, Y. Zhou and Y. Wang	31
Research on Preparation and Absorbing Performance of Graphene Oxide and Reduced Graphene Oxide X.W. Cao, Z. Zhang, P. Zhang and Y.W. Liu	37
Dynamic Response Behaviours of Al₂O₃ Ceramics with Different Grain Sizes under SHPB Compression Loading Y.F. Gao, J. Wang, Q.Y. Li and Y.H. Ding	45

Chapter 2: Materials for Mechatronics and Photovoltaics

Electrospinning of Polyaniline (PANI) Nanofibers: Effect of Electrospinning Parameters on the Conductivity of Electrospun Nanofibrous Mats F. Kafiah, T. Laoui, Z. Khan and M. Ali	55
Universal Multi-Parametric Model to Design Devices Based on Magneto-Rheological Fluids G. Brunetti, C. Semeraro, A.G. Olabi, M. Caggiano and M. Dassisti	67
Ultra-Thin Graphene Foam Based Flexible Piezoresistive Pressure Sensors for Robotics C.I. Douglas, C.G. Nuñez, M. Caffio and D. Gibson	79
Self-Sensing Hybrid Fibre-Reinforced Polymer for Structural Health Monitoring (SHM) K. Alblalaid, S.A. Alghamdi, A. Alburayt, A. Alwahid, M. Abuobaid, A. Alshaikh, S. Alkhibari and I.M. Alarifi	87
Guidelines for the Design of High-Performance Perovskite Based Solar Cells K. Amri, R. Belghouthi, M. Aillerie and R. Gharbi	95

Chapter 3: Materials Processing

Revealing the Geometrically Necessary Dislocation Density Evolution during Hot Compression of AA7050 S. Jiang, V.A. Yardley, N. Li, B. Gu, Y.B. Li, Y.Q. Liu and Z. Shi	109
Effect of Quenching Water Temperature on Mechanical Properties of ZL101A D.X. Zhang, J. Chen, H.Z. Wang and Y. Chen	117
Numerical Simulation of Forging Process of Ultra-High Strength Stainless Steel J. Ma, Q. Gao, P. Yang, B.S. Wang, H.L. Zhang and G.H. Feng	123
Optimization of the Metal Nozzle for High-Temperature Extrusion Additive Manufacturing C.Y. Xu, X.R. Long, Y.W. He, X. Fang, K.L. Huang and J.G. Huang	129

Chapter 4: Building Materials and Structures

Lime Based Construction Materials as a Carbon Sink F.P. Campo and M. Grosso	139
---	-----

Experimental Study of Cellular Lightweight Concrete-Filled Steel Tube Columns Using Hydraulic Cement	
N. Bokkhunthod, J. Thumrongvut, J. Supromwan and S. Seangatith	147
The Durability and Leaching Behavior of Granulated Blast Furnace Slag, Fly Ash, and Waste Foundry Sand Geopolymers	
T. Mashifana and M. Sillanpää	153
Effects of Substitution of Fine Aggregate with Recycled Asphalt Pavement on Compressive Strength of Normal Concrete	
M. Sanchaiwut, J. Thumrongvut, S. Pantawee and S. Seangatith	163
Evaluation of NaOH Activated, Ambient Cured Slag as a Binder to Produce a Building Material	
N.T. Sithole and J.M. Nseke	169
Compressed Earth Blocks for Rural Housing in Seismic Zones Using Bagasse Fibers from Sugarcane	
J. Tello, M. Cabrera, J. Rodríguez and C. Eyzaguirre	177
Development of Composites from Iron-Rich Galvanized Sludge with Slag Based Cementitious Material and Waste Foundry Sand	
T. Mashifana	183

Chapter 5: Materials and Technologies for Environmental Engineering

Co and Ni Double Substituted Zn-Fe Layered Double Hydroxide as 2D Nano-Adsorbent for Wastewater Treatment	
H. Sayed, R. Mahmoud, H.F.M. Mohamed, Y. Gaber and N. Shehata	193
Bio-Inspired Hierarchical Porous TiO₂ for Photodegradation of Organic Pollutant under Solar Irradiation	
L.L. Wu, H.Y. Zhang, C.P. Guo and F. Song	215
Comparative Study on Purification Effect of Three Graphene Photocatalytic Nets on Polluted Water	
P.L. Xu, M.L. Zhu, J.B. Zhang, H. Jiang and Y.L. Hang	223
Dewatering Treatment and Catalytic Application of Sludge by Glow Discharge Plasma	
T. Li, S.Y. Huang, J.M. Gan, M.L. Shao and L. Wang	231
Progress in the Application of MOFs in the Field of Atmospheric Environment	
L. Xu, H.Y. Wang and L. Wei	237
A Review on Biodegradation Study of Disposable Face Masks	
N.A.A. Nor Azam, S.N. Surip and A.H.J. Al Taie	249
