

# Table of Contents

## Preface

### Tool Path and Sheet Thickness Distribution of Axisymmetric Cup in Single Point Incremental Forming

C.L. Li, Y.K. Ni, Y. Haw and Y.H. Lu 1

### Influence of Zr Doping on the Tribological Properties of Amorphous Carbon-Nitride Coating

Y.L. Su, S.H. Yao, Y.C. Lai and H.M. Wu 9

### Effect of Silica Nanoparticles on Wear Mechanism of Alginate-Polyacrylamide Hydrogel Matrix as a Load-Bearing Biomaterial

M. Arjmandi and M. Ramezani 15

### Effects of Pitch of Array Punch on the Nanoimprinting

Y.C. Lin and C.Y. Hsiao 21

### Effects of Phosphorus-Based Additives on EP Performance of PAG Base Oil and Different Materials

Y.C. Lin, Y.C. Chen and Y.C. Guo 27

### The Influence of Surface Texture on Abrasive Wear

Y.T. Hu, Y.Y. He and W. Wang 33

### Tribological Properties of New Developed Nano Boric Acid Suspended as Additive in Engine Oil

H. Kaleli, S. Demirtaş, V. Uysal and Z. Tanriseven 41

### Application of Suspended Nanoboric Acid as an Efficient Lubrication Additive in Engine Oil

H. Kaleli, S. Demirtaş, V. Uysal, Z. Tanriseven and J. Zhao 53

### Study of the Preparation of Micro-Elasticity Composite Particles

F.C. Tsai, W.F. Tsai, J.C. Yeh and H.C. Huang 61

### Effects of T6 Heat Treatment on Fretting Wear Resistance of the Aluminum-Silicon Alloys

Y.P. Chang, L.M. Chu, C.T. Liu and G.W. Chen 69

### Influence of Niobium Dopant on the Corrosion Resistance of a-C:N and a-C:N:H Coatings

Y.L. Su, S.H. Yao and Y.R. Wu 75

### The Effect of CN Coatings Doped with Niobium, Titanium and Zirconium Metal on Mechanical, Tribological and Corrosion Resistance Properties of Thin Films

Y.L. Su, W.H. Kao and Y.C. Chang 81

### Elasto-Plastic Contact Stress Analysis of Hardened Elements under Repeated Contact Loading

C.H. Kuo 91

### Vibrothermographical Simulation of Cracked Structures

C.Y. Hung, Y.L. Hwang, W.H. Gau and K.N. Chen 97

### Investigation of Lubrication Characteristics for a Soft Contact Lens

H.J. Tsai, J.H. Horng and C.M. Tan 105

### Wear Characteristics on the can Opener of SUS 420J2

Y.P. Chang, L.M. Chu, H.Y. Wang and J.C. Wang 111

### Friction Properties of Ni-P-SiC Composite Plating in Water

N. Miyanaga and J. Tomioka 117

### Effects of Flow Properties of Lithium Soap Greases on Bearing Torque

N. Miyanaga, M. Nihei and J. Tomioka 123

### Assessment of Friction Behavior with Surface Location Error Analysis in Milling Process

N.A. Rafan, S.N.M. Ab Rashid and Z. Jamaludin 129

### Flow Stress and Friction of AL6061 and Application to the Cellphone Shell Forging

T.S. Yang and F.N. Hsu 135

### Study on Cylindrical Heatsink Forging Process Considering Friction Condition

T.S. Yang and Y.N. Chen 141

### Study of Squeeze Effect and Worm of Rollers Affecting the Inverse Bending on Straighten Steel Pipes

I.C. Lu and C.C. Wei 145
