

Table of Contents

Preface, Sponsor and Committee

Chapter 1: Material Science and Chemical Environmental Technologies

Performance Evaluation of Heat Transfer Tube and Tube Sheet Rubber Ring in Distillation Desalination Y.H. Liu, Y. Li, Q.C. Lv, K. Xu and L.P. Zhang	3
Thermooxidative Aging Studies on Silicone Rubber and Lifetime Prediction Y.S. Wang, S.S. Jiang and Y.P. Liu	11
Study of Nano-Hydroxyapatite Adsorption in Heavy Metals J.X. Liu, F. Wang, J.X. Shen, Q.H. Lai and Y. Gai	15
Research on Drying Sludge in Brick Making Y. Wang, F. Wang and M. Ji	19
Study and Analysis of the Impacts and Mechanisms of Intermittent Aeration and Movement Degree of Membrane on the Permeate Flux in a Submerged Membrane System X.L. Lei, L. Li, J. Wan and D.K. He	26
Design of a Novel Hollow-Fiber Membrane Contactor for Carbon Dioxide Absorption H. Gong and J.S. Shen	33
Dual-Frequency Ultrasonic Desorption of Pb²⁺ from Coconut Shell Activated Carbon J. Zhou and S.F. Wang	38
Research Progress and Development of Expanded Graphite in Water Pollution Control L.X. Li, Z.W. Song, X.K. Shi, W.Z. Kang, H.J. Zhang and H.L. Zhao	43
Preparation and Characterization of Stearic Acid-Modified Iron-Doped TiO₂ Nanoparticles J.L. Zuo, H.Q. Tang, Q. Nie, B. Li and Z.W. Liu	47
Study on Electrodeposition Recovery of Cupric and Zinc in Complexation Ultrafiltration Process Y.X. Zhou and K.J. Yan	52
Ballasted Flocculation of Micro-Sand/Magnetic Powder for Landscape Water Treatment Z.Y. Su, X. Li, Y.L. Yang, Z.W. Zhou and Y. Wu	56
High Efficiency Aluminum Coagulant Recovery from Drinking Water Treatment Plant Sludge by Using Ultrasound Assisted Acidification L. Yang, Y.X. Han and D.T. Wang	60
Kinetic Analysis of Catalytic Reductive Dechlorination of Chlorobenzene in Aqueous Solutions H.Y. Zhou, S. Liang, S.S. Zeng and S.J. Lei	65
Chemical Reduction of Nitrate in Aqueous Solution by Iron Powder H.Y. Zhou, S. Liang, S.S. Zeng and S.J. Lei	71
Preparation of Photocatalyst of Nano-TiO₂ Coating on SiO₂ Carrier and its Photocatalytic Activity Y.L. Liu, C.C. Cao and J. Chen	77
TiO₂ Photo-Catalysis Degradation of COD and Chroma for Chemical Wastewater Treatment C.Y. Hu, J.L. Zuo and H.J. Xie	82
A Critical Analysis of MIEEX Application in Water Treatment J.B. Wang and M.L. Ni	86
Continuous Flow Microbial Fuel Cell for Organic Wastewater Treatment W.P. Liu and X.F. Yin	92
Research and Development of a New Nano-Attapulgit PVF Suspension Carrier in Wastewater Treatment J. Li, T. Hu and Y. Wang	96
Phenolic Wastewater Treatment by Microwave-Induced H₂O₂-Fe (III)-Cu (II)/γ-Al₂O₃ Catalytic Oxidation Process J. Zhang, W.Q. Pan, T. Zheng and P. Wang	101

Sorption of Cr(VI) from Wastewater Using Modified Chitosan Y.Q. He, T. Zheng, L.L. Hao and P. Wang	106
Performance and Influencing Factors of Phosphorus Removal in Two BAFs with Artificial Crystal Seed Media J.F. Meng, L.P. Qiu, J.B. Wang, K. Huang, D. Wang and S.B. Zhang	112
Performance of Polluted Source Water Treatment by Biological Aerated Filter (BAF) with Zeolite, Activated Carbon and Anthracite Media D. Wang, L.P. Qiu, C.H. Guo and Q. Liu	117
Diocetyl Phthalate Esters Wastewater Treatment by Fenton Reagent / Fly Ash Combined Process L.P. Wang, X.Y. Li and X.M. Li	122
Characteristics of Emitted Odor and Discharged Condensate Water of Sludge Thermal Drying Project in Shenzhen Nanshan Thermal Power Plant Y. Wang, F. Wang and M. Ji	127
Research on Methods of Treatment of S-Triazine Wastewater by UAOPs Enhanced METs T.L. Song, X.N. Yi, Z.Q. Li and X. Jin	133

Chapter 2: Biomaterials and Biotechnology

Enhanced Anaerobic Digestion of Sewage Sludge by Addition of Food Waste L. Han, R.Y. Li and M. Ji	139
Suspended Carrier Used in Municipal Wastewater Treatment T.Y. Huang, R. Wang, W. Wu and F. Liu	143
Influential Factors of the Rapid Startup of Nitrosation at Ambient Temperature in SBR for Domestic Sewage D. Wu, D. Li, X.X. Tao, H.P. Zeng and J. Zhang	151
Start-Up of ANAMMOX Bio-Filter for Domestic Secondary Effluent in Ambient Temperature D. Wu, D. Li, W.N. Gao, H.P. Zeng and J. Zhang	161
Eutrophication Regulation and Control by Combination of Microorganism Agents and Aquatic Plants for Urban Ecological Village Landscape Water Z.Z. Yang, M.D. Liu, J.G. Cao and H. Zhang	168
Hydrogen Production from Cornstalk with Different Pretreatment Methods by Anaerobic Fermentation X.Y. Liu, R.Y. Li, M. Ji, D. Liu and Y.M. Cai	173
Performances of Dominant Thermophilic Cellulolytic Bacteria for the Bio-Drying Y.L. Tang, J.L. Zhang, L.Y. Wang, J. Yu, J. Liu and J.X. Fu	178
Acclimation of Granules when Treating Actual Coking Wastewater: Continuous <i>versus</i> Intermittent Oxygenation C.J. Dong, H.Y. Lu and Y.Q. Sun	182
Nitrogen and Phosphorus Removal of Modified A²/O Process on Low-Carbon Domestic Sewage under Low Temperature S.M. Li, G.S. Du and F.B. Tang	187
Application of CYYF Whole Process Deodorization in Jizhuangzi Wastewater Treatment Plant L. Wu, W.L. Gao and B.Y. Liu	192
Microbial Community Dynamics and Nutrient Removal Performances in A²O System Using Ultrasonic-Disintegrated Sludge Supernatant as Internal Carbon Source Y.L. Liu, Y.X. Yuan and M.A. Du	196
Modeling and Simulation of Pollutants Removal in the Modified Oxidation Ditch F.K. Su, J.J. Yu, L.P. Sun, S.P. Wang and J.F. Zheng	201
Characteristics of Start-Up Period in Biological Filters with Multiple Compounded Filling for Treating Low Concentration Domestic Sewage L.T. Pan, N.Y. Zhang, K. Wu and W.L. Wang	206
Study on Nutrient Removal Performance and Biological Community Structure in Hybrid Biofilm Reactor L. Zhou, G. Li, H.S. Shin, L.L. Jiang, G.F. Fang, L.Z. Xing and T. Li	213

Research on the Start-Up of Anaerobic Ammonia Oxidation and the Influence Factors Experiment	
Y.F. Li and W.J. Zhang	221
VFAs Production Potential of Brewery Industry Wastewater and Starch Wastewater	
H. Liu, L. Xie, Y.G. Chen and Q. Zhou	225
Effect of Carbon Nitrogen Ratio on Simultaneous Nitrification and Denitrification via Nitrite Technology in Sequencing Batch Biofilm Reactor and the Process Control	
H.W. Zhao, K.F. Zhang, H.W. Rong, C.S. Zhang and Z.W. Yang	232
Microbial Community Analysis in Bio-Filter Bed of Iron and Manganese Removal Treating High Iron, Manganese and Ammonia Nitrogen Groundwater	
X.R. Kang and Y.L. Liu	238
Isolation and Characterization of a Strain of <i>Acidithiobacillus ferrooxidans</i>	
J.F. Xiao, S.Y. Qin, P. Huang, L.N. Guo and Y.C. Chen	242
Research of Biological Phase in Contact Oxidation Pond for Jeans Washing Wastewater Biochemical Treatment	
Z.B. Ding, Z. Lu and C. Zhang	247
Influence of Uniform Electric Field in Bioremediation of Oil-Contaminated Soils	
J.L. Xu, D.D. Sun, T.L. Huang and L.F. Han	253
Comparative Bioremediation of Oil Contaminated Soil by Natural Attenuation, Biostimulation and Bioaugmentation	
J.L. Xu, J. Zhang, T.L. Huang and A.L. Xi	258
Effect of pH Value on Nitrogen and Phosphorus Removal in Biochemical Reactor	
H.W. Rong, M.X. Lin, K.F. Zhang, C.S. Zhang, H.N. Xue and M.J. Luo	263
Mixotrophic Cultivation of <i>Scenedesmus</i> sp. as Biodiesel Feedstock	
J.H. Wang, H.Z. Yang and F. Wang	268
Study on Operating Principle and Application of an Advanced Integrated Processing Technology - Air Lift Bioreactor (ALB) for Nitrogen and Phosphorus Removal	
X.B. Liu and X.L. Lei	274
Start-Up of Denitrifying Dephosphatation with Nitrite as Electron Acceptor and Microbial Community Analysis	
C.S. Zhang, J.H. Tang, K.F. Zhang, H.W. Rong and J.M. He	280
COD Removal from Actual Coking Wastewater in a Granular Bio-Film Reactor	
C.J. Dong, Z.Y. Geng and M.R. Feng	286
Study on Technology of Anaerobic-SBR Process for Raw Wastewater Treatment	
J.L. Zuo, Z.W. Liu, H.Q. Tang and B. Li	291
Improvement of Operational Performance of MBR with the Emphasis on Enhanced N and P Removal by Modification in Design	
K.H. Zhang and B.Z. Wang	296
Effect of MLSS on Nitrosation Denitrifying Phosphorus Removal System	
L.C. Zhang, Q. Liu, Y. Lan and Y. Yu	303
Study on the Combination of Fixed Bed and Moving Bed Biofilm Reactor for Papermaking Terminal Wastewater Treatment	
Z.Z. Yang, Z.M. Yang, J.G. Cao, Y.Y. Jia and J.X. Xu	309
Detection and Analysis of Intracellular Polymers Stored by Polyphosphate-Accumulating Microorganisms	
Y.H. Ge, L. Zhao and Y. Zhou	314
Treatment of Textile Wastewater Using Facultative Contact Reactor-Biological Contact Oxidation and Ozone Biological Aerated Filter	
J.Q. Cui, X.J. Wang and X.L. Lin	318
Study of Advanced Technologies of METs for Herbicides Wastewater Treatment with High Salinity	
T.L. Song, X.N. Yi, Z.Q. Li and X. Jin	326
Study on Treatment of Odor Containing H₂S and NH₃ by Industrial Scale Bio-Trickling Filters	
Y.Q. Chen, J.W. Wu, W.F. Cai and Y. Zhong	330

Chapter 3: Environmental Science and Engineering, Water Engineering and Management

Variation of Disinfection By-Products Formation Potential Species at Several Stages of Drinking Water Treatment Plants Q. Zhang and B. Liu	337
Study on Valve-Closure Water Hammer in Gravity Pressured Water-Delivery System with Branch Line R. Dong	341
Influences of COD Model Components in ASM2D on Oxygen Mass Transfer Coefficient X.W. Fu, C.M. Lin and Y.P. Guo	347
Deep-Well Seawater Desalination Technology R. Dong	352
Design and Running for a Hospital Wastewater Treatment Project J.L. Yu, Q. Li and S.C. Yan	356
Health Risk Assessment of Disinfection By-Products in the Water Distribution Network in a Southern City of Jiangsu Y. Li, F.E. Zhang, J. Xu and C.F. Chen	360
Study on Treatment of Cellulose Fuel Ethanol Wastewater and Application Y.B. Zhao	365
Comparative Research on Treating Vehicle-Washing Wastewater with Two and Three-Dimensional Electrode Method H.L. Guan	370
Effect of Water Body Morphology on Phytoplankton Biomass and Species Composition Y.H. Zhang, F.P. Li, H.H. Zhao and H.P. Zhang	375
Strategic Research on Urban Stormwater Resource Utilization in the Resource Water Shortage Cities - Base on Stormwater Data of 58 Resource Water Shortage Cities C.F. Huang and J. Zhou	380
Study on Arsenic Removal in the Simulating Constructed Wetland J.Y. Zhao and H.M. Guo	386
Research on Effects of Environment Policies and Systems on Environmental Protection Industry Y.H. Zhao, L. Xin, N. Sun and X. Chen	390
Environmental Risk Assessment on Chlorination By-Products in Discharge Water from Once-Through Seawater Cooling System J. Liu, X.Y. Zeng, Y. Wang and X.H. Pan	397
Water Quality Reliability Analysis of Water Distribution Systems Based on Monte-Carlo Simulation X. Li, Y. Sun, X. Han and X.H. Zhao	401
Discussion on the Harm and Protection of Water Hammer of Cavities Collapsing during Long Distance Water Transfer Project L. Zhao and Y.D. Lu	407
Study on OC and EC Characteristics of Atmospheric Particulate Matter in Harbin L.K. Huang	412
Study on Concentration Characteristics of TSP, PM₁₀ and PM_{2.5} in Harbin L.K. Huang	416
Study on Pollution Status of Nitrogen and Phosphorus in Typical Reservoirs in Liaoning Province C.X. Mi	420
Features on Head Loss of Flocculation Tank Installed with Small Mesh Grid H.Y. Ai, M.M. Wang, L. Han, Burigude, B. Wei and Y.Q. Jia	424
A Conceptual Tank Model for Urban Storm Water System X.P. Liu	430
2-D and 3-D Numerical Simulation of High-Sludge Setting Tank in Water Treatment Plant X.L. Lei, J. Wan, K.P. Chen, B. Tao and X.T. Fang	434

Simulation Research of Effect of Salinity Wastewater Discharging Ways on Range of Salt Content Rise Nearby the Outfall	
Y. Chen, L. Li, B.L. Yang and C.L. Li	440
SWMM-Based Urban Storm Sewer System Modeling	
X.P. Liu	444
Study on Removal of COD in Horizontal Subsurface Flow Constructed Wetlands by Regression Equation	
P. Zheng, Z.D. Deng and Z.B. Ding	449
Effect of Raw Water Characteristics on Sludge Reuse Process for Synthetic Low Temperature and Low Turbidity Water Treatment	
Z.W. Zhou, Y.L. Yang, X. Li and Z.Y. Su	453
Effect of Turning on Moisture Content in Sewage Sludge Composting	
N. Hong, J. Chen, X.H. Zhang and T.B. Chen	457
Comparative Analysis of Environmental Impacts between Dregs Disposal and Conventional Cement Production by Life Cycle Assessment (LCA)	
K. Fu, X.Y. Ren, J.Q. Lin and P. Yue	461
Pretreatment Process of Nanofiltration for Silting Density Index Reduction in Drinking Water Treatment System	
L. Wang, Y.C. Li, H. Zhao, Z.H. Zhang, B. Zhao, H.W. Zhang and L.X. Cui	467
Study on Chemical Pre-Oxidation Enhanced Coagulation for Micro-Polluted Raw Water Treatment	
H. Zhao, L. Wang, Z.H. Zhang, B. Zhao, H.W. Zhang, H. Zhang and R. Ma	472
