

Table of Contents

Preface

Electrochemical Deposition of the Ca-P Coatings on the Porous Nanocrystalline Ti-6Al-4V Alloy G. Adamek and J. Jakubowicz	1
Study of Iron-Based Alloys in Solid Oxide Fuel Cell Temperature and Atmosphere Conditions, Effect of a Silver-Coating I. Aubert, J. Jumel, M. Tarek-Lamazouade and J. Vulliet	9
FEM Analysis of Lower Premolar Root Canal Filling W. Bojar and W. Walke	17
Effect of Cavitation on Absorption and Transport of Hydrogen in Iron J. Chmiel and E. Lunarska	25
Prevention to Hydrogen Degradation of Steel J. Cwiek	31
Determination of Failure Causes of a Steam Turbine Casing J. Cwiek, J. Łabanowski, S. Topolska and M. Sozańska	37
Effect of the Ceramic Dispersion in the Nickel Matrix Composite Coatings on Corrosion Properties after Plastic Working T.C. Dyl and R. Starosta	43
Iodine-Induced Stress Corrosion Cracking of Zircaloy-4: Identification of Critical Parameters Involved in Intergranular to Transgranular Crack Propagation V. Francon, M. Fregonese, H. Abe and Y. Watanabe	49
Application of EIS to Study the Corrosion Resistance of Passivated NiTi Shape Memory Alloy in Simulated Body Fluid M. Freitag, B. Łosiewicz, T. Goryczka and J. Lełątko	57
Perovskites in Solid Oxide Fuel Cells M. Gazda, P. Jasinski, B. Kusz, B. Bochentyn, K. Gdula-Kasica, T. Lendze, W. Lewandowska-Iwaniak, A. Mielewczyk-Gryn and S. Molin	65
The Effect of Low-Temperature Glow Discharge Nitriding of Duplex Stainless Steel on Absorption and Desorption of Hydrogen B. Gołębiowski, T. Zakroczyński and W. Świątnicki	71
Quality Investigation of Au Nanoarrays for Biosensing Application K. Grochowska and G. Sliwinski	81
Preparation and Characterization of TiO₂ Nanostructures for Catalytic CO₂ Photoconversion A. Iwulska and G. Sliwinski	89
Influence of Type of Material on Performance of Hydraulic Components in Thermal Shock Conditions R. Jasiński	95
Underwater Welding of Duplex Stainless Steel J. Łabanowski, D. Fydrych, G. Rogalski and K. Samson	101
Degradation of Gel-Coat Layer in Glass/Polyester Laminate in Seawater Environment M. Landowski, M. Budzik and K. Imielińska	107
Effect of Crystallization Process at Cryogenic Conditions on the Functional Properties of the SUPERSTON Alloy Used in Production the Ship's Propellers B. Majkowska and W. Serbiński	111
Microbial Aspects in Corrosion Studies of Stainless Steels J. Michalska	117
Numerical Modeling of Magnetorheological Elastomers Microstructure Behavior under Magnetic Field D. Miedzińska, G. Slawinski, T. Niezgoda and A. Boczkowska	125
Surface Modification of Pure Titanium by TiB Precipitation A. Miklaszewski, M.U. Jurczyk and M. Jurczyk	131
Formation of High Corrosion Resistant Nanotubular Layers on Titanium Alloy Ti13Nb13Zr A. Ossowska, A. Zieliński and M. Supernak	137

Electrochemical Properties of Ni-Cr and Co-Cr Alloys Used in Prosthodontics M. Pochrzast, J. Marciniak, K. Wróbel and B. Bączkowski	143
Wear and Corrosion Characteristics of the Layers Type (Mn-P) Formed on Aluminium Alloys W. Serbiński and T. Wierchoń	149
Formation of Porous Structure of the Metallic Materials Used on Bone Implants T. Seramak, W. Serbiński and A. Zieliński	155
Experimental Investigations of MREs Behavior under the Cyclic Load G. Slawinski, D. Miedzińska, T. Niezgoda and A. Boczkowska	163
Oxidation Time Influence on the Structure of the Cobalt Base Clad Layer and Scale Morphology H. Smolenska	169
Optimization of Self-Organized TiO₂ Nanotube Geometry on Ti and Ti Alloys Using Fuzzy Logic Reasoning S. Sobieszczyk	175
Positive Effect of Hydrogen Treatment in Titanium Ti-6Al-4V Alloy M. Sozańska	179
Corrosion of Ni-Al and Ni-Al-Al₂O₃ Flame Sprayed Coatings of „CastoDyn 8000” System in 0.01 M H₂SO₄ and 3.5% NaCl Solutions R. Starosta	185
The Effect of Welding Conditions on Diffusible Hydrogen Content in Deposited Metal A. Świerczyńska, D. Fydrych and J. Łabanowski	193
Cavitation Erosion Resistance of Austenitic Stainless Steel after Glow-Discharge Nitriding Process M. Szkodo, A. Sitko and M. Gazda	201
Evaluation of Hydrogen Degradation by <i>In Situ</i> Ultrasonic Testing M. Szwed, K. Lublińska, M. Wielgat, A. Żagórski, W. Spychalski and K.J. Kurzydłowski	207
Effects of Laser Remelting at Cryogenic Conditions on Microstructure and Wear Resistance of the Ti6Al4V Alloy Applied in Medicine A. Zieliński, M. Jądzewska, J. Łubiński and W. Serbiński	215
Materials Design for the Titanium Scaffold Based Implant A. Zieliński, S. Sobieszczyk, W. Serbiński, T. Seramak and A. Ossowska	225
Indoor Atmospheric Degradation of Historical Metal Objects Studied by Spectroscopic Techniques I. Żmuda-Trzebiatowska, A. Fietkiewicz and G. Sliwinski	233
Modelling of the Heat Flux Density Distribution for Laser Beam Welding A. Marmołowski and W. Kielczyński	241
Experimental and Quantum Chemical Study of Quinone Derivatives as Inhibitors of Corrosion and Hydrogen Absorption by Steel S.A. Teryusheva, G.S. Beloglazov and S.M. Beloglazov	249
