

Table of Contents

Preface

Filling-Design Effect of Powder Source in the Crucible on SiC Single-Crystal Growth M.K. Kang, G.U. Lee, Y.J. Choi, G.J. Song, N.K. Kim, M.S. Park, K.H. Jung and W.J. Lee	1
Nitrogen Dopant Incorporation into Epitaxial 4H-SiC and the Influence of CVD Growth Parameters A. Schrader, N. Steller, D. Reimann and F. Faisal	9
Epitaxial SiC Development for High Nitrogen Incorporation B.L. VanMil, C.H. Burgess, H. Wen and F. Ayazi	17
The 4H-SiC Epitaxy Study of Ammonia Doping Y.B. Han, Z.Y. Li, Y.X. Niu, D. Li, H.L. Yan and J.X. Shi	23
Formation of Alternating Epilayers of 4H-SiC and 3C-SiC by Simultaneous Lateral Epitaxy H. Nagasawa, M. Abe, T. Tanno, M. Musya, M. Sakuraba, S. Sato, Y. Watanabe and M. Suemitsu	33
Predictive Doping and Thickness Analysis of a Multi-Wafer SiC Warm-Wall Epi Reactor for Improved Layer Cpk M.A. Johar, K. Singh and A.A. Burk Jr.	43
Recent Advancement in Noncontact Wafer Level Electrical Characterization for WBG Technologies M. Wilson, A. Savtchouk, L. Gutierrez, C. Almeida and J. Lagowski	49
Active Planarization Method from Rough Surface of 4°-off 4H-SiC (0001) Controlled by Step Bunching and Debunching Mechanism Using Dynamic AGE-ing® K. Toda, K. Kiritani, D. Dojima and T. Kaneko	57
The Application of Dynamical Thermal Annealing Processes after Mechanical Slicing as an Integrated Contactless SiC Wafering Method to Control Crystal Defects K. Toda, D. Dojima, Y. Nakajima, H. Mihara and T. Kaneko	63
Optimization of Heat Transfer Design for High Quality 4H-SiC Ingot Growth S.J. Lee, S.H. Kim, C.Y. Lee, J.H. Park, J.W. Choi, H.S. Lee, J.G. Kim, K.R. Ku, M.K. Kang and W.J. Lee	69
High-Quality SiC Crystal Growth by Cooldown Rate Control at Cooling Stage C.Y. Lee, S.H. Kim, S.J. Lee, J.H. Park, J.W. Choi, H.S. Lee, J.G. Kim, K.R. Ku, Y.J. Choi and W.J. Lee	75
