

# Table of Contents

## Preface, Committee & Sponsors

## Chapter 1: Engineering Decisions for Systems of Alternative Energy

<b>A Simulation Study of Flow and Pressure Distribution Patterns in a Two Stage Three Bucket Savonius Vertical Axis Wind Turbine</b> T.M. Premkumar, S. Seralathan, T.S. Ravikumar and J. Jayagopal	3
<b>Comparison of DEA Rank Based Method with Assignment Weightage Method in Optimizing the Process Parameters for Solar Seed Sprayer</b> K.B. Navas and K. Manu	9
<b>Asymmetrical Solar Still with Various Basin Materials</b> M. Prakash and E. Natarajan	14

## Chapter 2: Fuels and Engines

<b>Emissions Analysis of Preheated Methyl Ester on CI Engine</b> M. Venkata Ramanan and D. Yuvarajan	21
<b>Experimental Investigation on Performance, Emission and Ignition Delay Analysis of Biodiesel Addition in Diesel-Ethanol Blends</b> B. Prabakaran and S. Padmanaba Sundar	26
<b>Study of the Emission Characteristics of the SCR System on CI Engine Fuelled with Diesel-Ethanol Blends and an Optimised Urea Injection System</b> S. Natarajan, R. Sheshathri, Kamesh and A. Avinash	33
<b>Theoretical Investigation on Combustion with Preformed Vortex Patterns</b> K. Asogan and J. Venkatesan	44
<b>Combustion Analysis of Polanga (<i>Calophyllum inophyllum</i>) Biodiesel</b> A. Gopinath, K. Sairam and R. Velraj	51
<b>Performance Evaluation of EGR in Two Stroke I.C. Engine</b> V. Ramakrishnan, R. Thamilarasan and K. Purushothaman	60
<b>Activated Carbon, Lithium Hydroxide, Calcium Hydroxide Scrubber for Carbon-Di-Oxide Capture from Exhausts of Vehicles</b> V. Krishnan, B.V. Jay Dhwarak, N. Nithyanandan and I.P.T. Rajakumar	64
<b>Computational Analysis of an Early Direct Injected HCCI Engine with Turbocharger Using Bio Ethanol and Diesel Blends</b> S. Natarajan, A.U.M. Sundareswaran, S. Arun Kumar and N.V. Mahalakshmi	70
<b>Optimal Blend for the Performance and Emission Analysis of C.I &amp; V.C.R Engine Fuelled with Animal Tallow Methyl Esters (ATME) Blended with Diesels</b> V.R. Mamilla, G.L. Narayana, A. Rakesh and B.V. Krishna	79

## Chapter 3: Engineering Decisions in Automotive Industry

<b>Optimization of Operating Parameters on Wear Behavior of Manganese Phosphate Coated Die Steel</b> S. Ilaiyavel, R. Sheshathri, V.R.A. Sundram and A. Venkatesan	87
<b>Optimal Current Value Estimation for an Automotive Magneto Rheological (MR) Fluid Damper Actuation</b> J. Jancirani, A.J.D. Nanthakumar and P. Niketh	93
<b>A Review on the Performance of Tribological Properties of Cutting Fluids</b> S. Ganesh, J. Umar Mohamed, C. Rajaganapathy and V. Saravanakumar	102
<b>Enhancement of Wear Properties on High Speed Steel Tool Using PVD Coating Technique</b> R.R.R. Malarvannan, T.V. Moorthy, P. Hariharan and S. Ravi	107
<b>Effective Fuel Consumption by Improving Cooling Water Flow Rate in IC Engine</b> K.M. Kumar, P. Venkateswaran and P. Suresh	112

<b>Discussions about the Thermodynamic Entropy Property and its Existence in Vehicle Dynamics of Automobiles for Improving the Mileage</b> S. Arulanantha Samy, T. Shanmuganathan and J. Godwin John	118
<b>Multi-Response Optimization in Turning of AA6061 T6 Using Desirability Function Analysis</b> P. Jayaraman and L.M. Kumar	124
<b>Heat Transfer Analysis of Extruded Rectangular Fin over Conventional Rectangular Fins by Numerical Simulation</b> S.P. Sivaraja, P.K. Balakumar, G. Sudha and R. Parthiban	130
