

Table of Contents

Preface

Advanced Input Files & Parametric Quantitative Analysis Using Topas

J.S.O. Evans 1

Problem Solving with the TOPAS Macro Language: Corrections and Constraints in Simulated Annealing and Rietveld Refinement

P.S. Whitfield, I.J. Davidson, L.D. Mitchell, S.A. Wilson and S.J. Mills 11

Robust Refinement as Implemented in TOPAS

K.H. Stone and P.W. Stephens 27

In Situ Diffraction Studies: Thermal Decomposition of a Natural Plumbojarosite and the Development of Rietveld-Based Data Analysis Techniques

I.C. Madsen, I.E. Grey and S.J. Mills 37

Molecular Motion by Refinement of TLS Matrices from High Resolution Laboratory Powder Diffraction Data: Implementation in the Program TOPAS and Application to Crystalline Naphthalene

I. Halasz and R.E. Dinnebier 65

Simulated Annealing Approach for Global Minimum Verification in Modeling of Pressure-Volume Dependence by Equations of State Obtained by High-Pressure Diffraction

I. Halasz and R.E. Dinnebier 71

Direct Access to the Order Parameter: Parameterized Symmetry Modes and Rigid Body Movements as a Function of Temperature

M. Müller, R.E. Dinnebier, N.Z. Ali, B.J. Campbell and M. Jansen 79

“Powder 3D Parametric”- A program for Automated Sequential and Parametric Rietveld Refinement Using Topas

P. Rajiv, R.E. Dinnebier and M. Jansen 97

MEM Calculations on Apatites Containing Peroxide Using BAYMEM and TOPAS

A. Samy, R.E. Dinnebier, P.E. Kazin, S. van Smaalen and M. Jansen 105

Protein Powder Diffraction Analysis with TOPAS

Y. Watier and A. Fitch 117

Composition-Induced Microstrain Broadening: From Pattern Decomposition to whole Powder Pattern Modelling Procedures

A. Leineweber 131

WPPM: Microstructural Analysis beyond the Rietveld Method

P. Scardi, M. Ortolani and M. Leoni 155

WPPM: Advances in the Modeling of Dislocation Line Broadening

M. Leoni, J. Martinez-Garcia and P. Scardi 173

Domain Size Analysis in the Rietveld Method

W.I.F. David, M. Leoni and P. Scardi 187

The Application of the Fundamental Parameters Approach as Implemented in TOPAS to Divergent Beam Powder Diffraction Data

J.P. Cline, D.R. Black, D. Gil, A. Henins and D. Windover 201
