

Table of Contents

Preface

Theoretical Study of Defects and Chemisorption by Oxide Surfaces

A.B. Kunz 1

Reactions of Metal Oxides with Aqueous Solutions

M.A. Blesa, A.E. Regazzoni and A.J.G. Maroto 31

Certain Aspects of Segregation in Oxide Ceramic Materials

J. Nowotny 99

Interactions at Oxide-Metal Interfaces

M.G. Nicholas 127

The Influence of Short-Circuit Grain Boundary Diffusion on the Growth of Oxide Layers on Metals

W.W. Smeltzer 151

Interfaces in Directionally Solidified Oxide-Oxide Eutectics

A. Revcolevschi, G. Dhalenne and D. Michel 173

The Surface Layer Thickness and the Near-Surface Diffusion of Oxygen in Metal Oxides

W. Komatsu and Y. Ikuma 199

The Role of Near-Surface on the Reactivity of Metal Oxide Powders in Solid-Solid Reactions - Applications of Emanation Thermal Analysis

T. Ishii 219

Diffusion along Dislocations and Grain-Boundaries in Alpha-Alumina

E.G. Moya and F. Moya 237

Sample Preparation and Densification of Zinc Oxide

K. Kobayashi 251

The Influence of Impurities of the Kinetics and Morphology of Reaction Layers in Diffusion Couples

F.J.J. van Loo, P.J.C. Vosters, J.G.M. Becht and R. Metselaar 261

Surface and Morphology of Oxide Materials for Advanced Industrial Water Electrolysis

L. Dufour and F. Morin 275
