

# Table of Contents

## Preface

## Chapter 1: Construction Materials, Structures and Technologies

<b>Activity Improvement of Sticky Portland Cements by Methods of Mechanical Activation</b> A.V. Andreeva, O.N. Burenina and M.E. Savvinova	3
<b>Application of Nonwoven Geosynthetic Materials in Construction in Wetlands</b> M.O. Karpushko, I.L. Bartolomei, E.N. Karpushko and A.V. Zhidelev	9
<b>Arctic Building Material Reinforced by Composite Lattice Structure</b> A.F. Razin, A.A. Babichev and A.A. Skleznev	15
<b>Regulation of Requirements for Quality Indicators of Paint Covering</b> V. Loganina and O.V. Karpova	20
<b>To the Question of Fiber Reinforcement of Concrete</b> S.V. Klyuev, T.A. Khezhev, Y.V. Pukharenko and A.V. Klyuev	25
<b>Effect of Thermal Treatment of Building Materials on Natural Radionuclides Effective Specific Activity</b> I.P. Mikhnev, N.A. Salnikova and S.V. Mikhneva	30
<b>Bioactive Additives for Self-Healing of Concrete Microstructure</b> M. Bruyako and L. Grigoryeva	36
<b>Building Ceramics with Organic-Mineral Modifiers</b> S.V. Vasyunina, V.O. Momot and M.S. Kondratyev	42
<b>Complex Protection of Pipelines Using Silicate Materials Based on Local Raw Materials of the Far East</b> E.A. Yatsenko, B.M. Goltsman and A.V. Ryabova	46
<b>Composite Binder for Structural Cellular Concrete</b> M.Y. Elistratkin, E.S. Glagolev, M.V. Absimetov and V.V. Voronov	53
<b>Composite Building Materials with the Use of Phosphogypsum</b> A.A. Abramenko, E.A. Soloveva and E.A. Savenkova	59
<b>Concretes with Unique Properties for Special Building Structures</b> V. Solovyova, D. Solovyov and I. Stepanova	64
<b>Control of Cement Grout Plastic Properties</b> V.I. Kondrashchenko, A.P. Nikolaev and E.V. Kondrashchenko	70
<b>Effect of Granulometric Component Composition in Cellular Concrete on Cement Consumption Rate</b> L.M. Vesova	76
<b>Effective Elements of Building Structures from Pipe Concrete</b> O.E. Sysoev, A.Y. Dobryshkin and Y.O. Sysoyev	80
<b>Effective Fine-Grained Concrete with High-Dispersed Additive Based on the Natural Mineral Wollastonite</b> E.G. Karpikov, N.P. Lukutsova, E.A. Bondarenko, V.V. Klyonov and A.E. Zajcev	85
<b>Elastic Wood-Filled Floor Coverings for Children's Play Areas</b> N.R. Galyavetdinov, R.R. Safin and P.A. Kainov	91
<b>Energy Parameters of the Binder during Activation in the Vortex Layer Apparatus</b> R.A. Ibragimov, E. Korolev, T.R. Deberdeev, V.V. Leksin and D.B. Solovev	98
<b>Envelope Structures Based on Energy-Efficient Lightweight Concrete from Local Raw Materials for the Republic of Crimea</b> A. Davidyuk and A. Davidyuk	104
<b>Evaluations of Efficiency of the Use of Amorphous Alumosilicates in Dry Mixes</b> K.V. Zhegera, I.S. Pyshkina and G.V. Martyashin	109
<b>Experimental Study of Fiber-Reinforced Concrete Structures</b> S.V. Klyuev, T.A. Khezhev, Y.V. Pukharenko and A.V. Klyuev	115
<b>Fiber Concrete for Industrial and Civil Construction</b> S.V. Klyuev, T.A. Khezhev, Y.V. Pukharenko and A.V. Klyuev	120

<b>Fibers and their Properties for Concrete Reinforcement</b> S.V. Klyuev, T.A. Khezhev, Y.V. Pukharensko and A.V. Klyuev	125
<b>Fine-Grained High-Strength Concrete</b> N.P. Lukutsova, G.N. Soboleva, S.N. Golovin, E.V. Chivikova and E.V. Ogloblina	131
<b>Improvement of Properties of the Argillaceous Soils when Using Additives "Chimston" in Combination with Inorganic Astringent</b> A. Trautvain, A. Akimov and E.A. Yakovlev	136
<b>Improving Performance of Water-Reducing Admixtures by Modification of Quartz Sands with Electrolyte</b> S.M. Rakhimbayev, N.M. Tolypina and E.N. Khakhaleva	141
<b>Increasing the Weathering Resistance of Asphalt by Nanomodification</b> S.S. Inozemtcev and E. Korolev	147
<b>Influence of Oil Sludge on Properties of Asphalt Concretes Used in Regions of the Far North</b> V.E. Kopylov and O.N. Burenina	158
<b>Influence of Oligomers Based on Trifunctional Oxyphenyl on Colloid-Chemical Characteristics of Mineral Dispersions</b> V.A. Poluektova and N.A. Shapovalov	163
<b>Influence of Variable Stress State of Concrete on its Frost Resistance</b> N.I. Karpenko, V.N. Yarmakovskiy and D.Z. Kadiev	169
<b>Interaction of Mixing Water with Superplasticizers and Hyperplasticizers Additives in Concrete Mixture</b> V.N. Vernigorova and S.M. Sadenko	176
<b>Investigation of the Structural Topological Characteristics of Mechanically Activated Sialic Raw Materials</b> V.V. Nelubova, V.V. Strokova, A.L. Popov and A.A. Bezdrodnykh	182
<b>Lightweight Concrete Based on Gypseous Binding Materials, Modified with Microcrystalline Cellulose, and Cavitationaly Processed Sawdust</b> A.A. Pykin, E.Y. Gornostayeva, N.P. Lukutsova and J.S. Pykina	188
<b>Low-Temperature Aluminosilicate Nanostructured Binder - Characteristics and Applicability</b> I.V. Zhernovskaya, A.V. Cherevatova, N.I. Kozhukhova, M.S. Osadchaya and D.A. Ksenofontov	193
<b>Modification of Foam Concrete with Organo-Mineral Admixtures</b> E. Velichko and O. Pustynnik	199
<b>Non-Autoclaved Aerated Concrete on the Basis of Composite Binder Using Technogenic Raw Materials</b> V. Lesovik, M.Y. Elistratkin, E.S. Glagolev, V.V. Voronov and M.V. Absimetov	205
<b>On the Impact Caused by Titanium Dioxide of Different Trademarks on the Properties of Intumescent Fire-Protective Coatings</b> A.A. Ustinov, O.A. Zyblina and A.V. Andreev	212
<b>On the Question of Mix Composition Selection for Construction 3D Printing</b> M.Y. Elistratkin, V. Lesovik, N.I. Alfimova and I.M. Shurakov	218
<b>Optimization of Temperatures of Hashing Asphaltic Concrete Mixes Taking into Account the Structural Type of Bitumen</b> V.D. Galdina and N.S. Galdin	226
<b>Porous Structure Formation of Aerated Concrete with Variational Properties</b> P.P. Deryabin, I.L. Chulkova, M.A. Raschupkina and Y.S. Danilina	233
<b>Properties of Composite Gypsum Binders Depending on Multicomponent Mineral Additives</b> V. Lesovik, N.V. Chernysheva and M.Y. Drebezgova	238
<b>Properties of Energy Effective Concrete Based on Artificial Granulated Aggregate</b> L.N. Botsman, V.V. Strokova and Y.N. Ogurtsova	244
<b>Research of Durability and Structure of the Heavy Concrete Modified by Polymeric Impregnation in the Frigid Climate</b> S.A. Kuzmin, A.A. Argunova, D.A. Krasilnikov and Z.V. Emelianova	250
<b>Scientific and Practical Bases of a Method of Reception of Thin-Layer Heat-Insulating Coverings</b> A.M. Sychova, S.A. Machnev and A.M. Shevchuk	257
<b>Solid-Phase Modification of Cement Systems by Organosilicon Polymers</b> S.V. Vavrenyuk, S.G. Krasitskaya and V.G. Vavrenyuk	263

<b>Structural Transformations of Cement Stone in Conditions of Development of the Biocenosis of a Poultry Enterprise</b> V.V. Strokova, I.V. Zhernovskaya, V.V. Nelubova and M.D. Rykunova	269
<b>Swivel Joints of Transformable Net Shells Structures</b> N. Buzalo, N. Tsaritova and B. Chernykhovsky	276
<b>Technologies for Manufacturing of Moisture-Resistant Products from Modified Wood</b> A.R. Shaikhutdinova, R.R. Safin and A.E. Voronin	281
<b>The Dependence of the Aggregate Stability to Concrete of Modifying Additives Based on Halloysite Nanotubes in Water Environment on the Character of the Stabilizer</b> N.P. Lukutsova, I.A. Kulesh, S.N. Golovin and S.A. Andrushin	287
<b>The Development of Composite Nanostructured Gypsum Binder with Enhanced Heat Resistance Performance</b> A.V. Cherevatova, I.V. Zhernovskaya, M.I. Kozhukhova and D.A. Alehin	293
<b>The Influence of Concrete Class on Vibrations of Thin-Walled Cylindrical Reinforced Concrete Shells</b> K.Q. Qahorov, Y.O. Sysoev and A.Y. Dobryshkin	299
<b>The Peculiarities and Possibility Mechanical Compaction by Tamping of the Active Layer in the Cryolytozone</b> N. Semenova	305
<b>Theoretical Basis of Formation Highly Organized Porous Structure of Aerated Concrete</b> L.A. Suleymanova, I.A. Pogorelova and M.V. Marushko	309
<b>Vibration Protection of Historical Buildings Located near the Lines of Urban Rail Transport</b> V. Smirnov	318

## Chapter 2: Polymers and Composites

<b>Development of Wear-Resistant Materials Based on Polytetrafluoroethylene and Carbon Fibers of UVIS-AK-P Brand</b> M.A. Markova and P.N. Petrova	327
<b>Atomic Force Microscopic Research of Structural Features of Elastomeric Composite Materials Based on Butadiene Nitrile Rubber</b> N.V. Shadrinov	333
<b>Determination of Fiber-Structure for the Effective Reinforcement of Planar Composite-Material Constructions</b> N. Feodorova	338
<b>Determination of Permissible Stresses along the Stiffened Hole Outline in Designs of Anisotropic Composite Materials</b> J.A. Vashukov and E.A. Klimov	344
<b>Development of Ballistic Protection from Composition Material on the Basis of Aluminum</b> E.A. Chernyshov, I.D. Romanov and A.D. Romanov	350
<b>Development of Frost-Resistant Rubber Based on Epichlorohydrin Rubber of Hydrin T6000 Brand</b> A.R. Haldeeva, M.L. Davydova and M.D. Sokolova	356
<b>Development of Polymer Composite Materials Based on Ultrahigh-Molecular Weight Polyethylene and Carbon Fillers</b> O.V. Gogoleva, P.N. Petrova and E.S. Kolesova	362
<b>Dynamic Testing of Magnetic Elastomer Material Prototypes</b> A.J. Minaev and J.V. Korovkin	369
<b>Development of Composite Materials Based on Ultrahigh-Molecular Weight Polyethylene and Thermally Expanded Graphite</b> O.V. Gogoleva	374
<b>Welding Polymer Pipes at Low Climatic Temperatures</b> N.P. Starostin, A.I. Gerasimov, E.V. Danzanova and G.V. Botvin	379
<b>Effect of Mechanically Activated Layered Silicate on the Properties and Structure of Polytetrafluoroethylene</b> S.A. Sleptsova, N.N. Lazareva and Y.V. Kapitonova	384

<b>Effects of Nanomodification by the Silicate Nanoparticles on Characteristics of Basalt Fibre Reinforced Polymer</b> A.K. Kychkin and A.A. Vasilyeva	389
<b>Electroconducting Nanocomposite of Polyaniline on Based of the Natural Layered Silicate</b> N. Shapkin, I. Khal'chenko, V.I. Razov and V.V. Korochentsev	395
<b>Experimental Determination of Polymers and Polymer-Based Composite Materials Diffusion Properties</b> V. Dmitriev, G. Baronin and E. Sergeeva	401
<b>Express-Method for Determination the Fibrous Materials Resistance to Bending</b> I.A. Sheromova, G.P. Starkova and A.S. Zheleznyakov	407
<b>Frost-Resistant Elastomeric Nanocomposites for Operation in the Far North Conditions</b> N.N. Petrova, V.V. Portnyagina, V.V. Mukhin, E.N. Timofeeva, N.V. Matveeva and S.F. Ivanova	412
<b>Investigation of the Plasticizer Content Effects on the Operability of the Epichlorohydrin Rubber Based Elastomeric Material during Full-Scale Test under Cold Climate Conditions and Hydrocarbon Medium Influence</b> V.V. Mukhin, N.N. Petrova, V.V. Portnyagina, A.L. Fedorov and A.V. Baisheva	417
<b>Polyfunctional Materials Based on Collagen Hydrolysate Obtained from Swim Bladders of Northern Fish Species</b> S.F. Ivanova and N.N. Petrova	422
<b>The Research of the Effect of Single-Walled Carbon Nanotubes on the Properties of Epichlorohydrin Rubber</b> E.N. Timofeeva, N.N. Petrova, K.N. Nikolaeva and E.S. Kuzmina	428
<b>Influence of 6PPD Stabilizer on Climatic Stability of Rubbers Based on Butadiene-Nitrile and Epichlorohydrin Rubbers</b> M.D. Sokolova, A.F. Fedorova and M.L. Davydova	433
<b>The Properties of Polytetrafluoroethylene Modified by Electrical Discharge of Alternating Current</b> A.N. Khagleev, O.Z. Ayurova and D.A. Chuckreev	438
<b>Microwave Modification of Polymer-Carbon Materials</b> D.O. Zavrazhin and C. Zavrazhina	443
<b>Preparation of Hybrid Composite Materials on the Basis of Vanadium and Molybdenum Oxide Compounds</b> A.V. Khramenkova, D.N. Ariskina and K.R. Yuzhakova	448
<b>Properties of Particleboards Manufactured from Low-Grade Wood by Using a Shungite Modified Binder</b> N.G. Panov, A.V. Pitukhin and S.B. Vasilyev	453
<b>Research of Influence of Plasticizers on the Low-Temperature and Mechanical Properties of Rubbers</b> M.D. Sokolova, A.F. Fedorova and V.V. Pavlova	459
<b>Research of the Resistance of Reinforced Polymeric Composite Materials to Hydro-Abrasive Action</b> K.P. Antoev, S.N. Popov and N.V. Shadrinov	465
<b>Research of Thermoplastics Turning after Workpiece Ultrasonic Treatment</b> O.Y. Erenkov, S.A. Kovalchuk and S.N. Khimukhin	470
<b>Selection of Reinforcing Agent in Metal Composite Matrix and Study of its Particle Composition</b> M.N. Safonova, A.A. Fedotov and A.S. Syromiatnikova	476
<b>Study of Structure and Optical Density of Track Membranes</b> V.I. Pavlenko, N.I. Cherkashina and V.A. Manaev	482
<b>Synthesis of 2,5-Furandicarboxylic Acid from Natural Raw Materials</b> E.V. Boldyreva, U.A. Chus and V.A. Klushin	488
<b>The Effect of Surface Active Substances on the Mechanical Properties of a Copper-Matrix Nanocomposite</b> Y. Shchetinin, Y. Kopylov and A. Zhirkov	493
<b>The Influence of Modified Additives on Dynamic Properties of Polymeric Materials Based on Ethylene-Vinyl Acetate</b> A.N. Volotskoy, Y.V. Yurkin, D.V. Cherkasov and V.V. Avdonin	498

<b>The Influence of Polyelectrolytes on the Properties of Ultramicron and Nanosized Powders of Copper</b> Y.M. Berezhnoi, V.M. Lipkin and A.D. Likhota	505
<b>Wood-Polymer Composite for the Manufacture of Sleepers</b> V.I. Kondrashchenko, G.Q. Jing and C. Wang	509
<b>Investigation of the Stages of Damage Accumulation in Polymer Composite Materials</b> O.V. Bashkov, A.A. Bryansky, I.V. Belova and D.B. Solovev	515
<b>Carbon Nanotubes in Composite Hydrogels Based on Plant Carbohydrates</b> O.S. Zueva, A.O. Makarova and Y.F. Zuev	522

### **Chapter 3: Steel and Alloys, Materials Processing Technologies**

<b>Analysis of the Sheet Shell's Curvature with Lamé's Superellipse Method during Superplastic Forming</b> O.S. Anishchenko, V.V. Kukhar, A.V. Grushko, I.V. Vishtak, A.H. Prysiashnyi and E.Y. Balalayeva	531
<b>The Development of New Materials and Modes of Casting Metal Powder Mixtures (MIM Technology)</b> A.Y. Korotchenko, D.E. Khilkov and M.V. Tverskoy	538
<b>Use of a Reductive Carbon Monoxide Atmosphere in Arc Welding of Microalloyed Steels</b> E.A. Ivanaysky, A.V. Ishkov and A.A. Ivanaysky	543
<b>The Influence of High-Frequency Cyclic Loading on the Mechanical Properties of Steel</b> E.A. Gridasova, P.A. Nikiforov and A. Loktev	549
<b>Assessment of the Adequacy of the Definition of Cutting Forces for the Purpose of Minimizing Energy Consumption in Machining Processes</b> A.G. Kondrashov, D.T. Safarov and R.R. Kazargeldinov	556
<b>Construction of a Generalized Fatigue Diagram of Metallic Materials</b> O.V. Bashkov, A.A. Popkova, G.A. Gadoev, T.I. Bashkova and D.B. Solovev	563
<b>Determination of Specific Failure Work on Compact Steel Samples</b> M.R. Abdulganiev, R.N. Khasanov and V.A. Gafarova	569
<b>Effect of Particular Combinations of Quenching, Tempering and Carburization on Abrasive Wear of Low-Carbon Manganese Steels with Metastable Austenite</b> L.S. Malinov, I.E. Malysheva, E.S. Klimov, V.V. Kukhar and E.Y. Balalayeva	574
<b>Effect of Severe Plastic Deformation and Hardening on the Properties and Failure Mechanisms of Constructional Steel</b> M.Z. Borisova	579
<b>Estimation of the Limit State Criterion for Steels C1020 and A 516-55 with V-Notch under Quasistatic Loading Using Acoustic Emission Control</b> M.M. Zakirnichnaya, O.R. Abdulganieva and D.A. Yudicheva	585
<b>Investigation of Formation Features of Sulphide Inclusions and their Distribution inside the Grain Depending upon the Conditions of Steel 20 Deoxidation</b> S.B. Gamanyuk, M.V. Kirilichev and G.V. Babin	592
<b>Investigation of the Influence of the Chemical Composition of Tubular Steels on the Features of the Formation of Phase Constituents during the Solidification of Continuously Cast Billets by Computer Simulation</b> M.Y. Chubukov, D.V. Rutsikii and N.A. Zuyban	598
<b>Modeling of Processes of Solidification of Metals under Conditions Imposing Pressure</b> M.S. Denisov	603
<b>Structure and Anisotropy of the Mechanical Properties of Hot- and Cold-Rolled Semi-Finished Products from Aluminium-Lithium Alloys</b> Y.A. Erisov, S. Surudin and A. Grechnikova	611
<b>The Effect of Heating on Phase Composition of the Cr<sub>3</sub>C<sub>2</sub>- Ti System Hard Alloys Fabricated by the Explosive Compaction of Powder Mixtures</b> V.O. Kharlamov, A.V. Krokhaev, S.V. Kuz'min and V.I. Lysak	617
<b>The Strength and Ductility of Low Carbon Steel Subjected to Equal Channel Angular Pressing and Extrusion at a Low Temperature</b> A.M. Ivanov and N.D. Kovalenko	623
<b>Working Body for Deformation of Thin-Walled Pipe Billets</b> S.B. Maryin and P.W. Aung	628

<b>Research of Heat Input in Friction Stir Welding</b> V. Statsenko, A. Sukhorada and M. Bernvskaya	634
<b>The Assessment of the Possibility of Using the Iron Ore of the Lena-Amginsky Interfluve for the Production of Cast Alloys for Low-Temperature Purposes</b> A.D. Danilov, K.V. Stepanova and P.P. Petrov	639

## **Chapter 4: Coatings and Surface Engineering**

<b>Effect of Electrolysis Modes on Physico-Mechanical Properties of Composite Coatings Based on Nickel</b> A.V. Arzumanova and A.V. Starunov	647
<b>Distribution of Magnetic Field Parameters in the Surface Layer of the Material of Reaction Furnace Coils after Operation Period</b> E.A. Naumkin, J.N. Shermatov and A.I. Gaysina	653
<b>Development and Investigation of High-Strength Neutron-Absorbing Composite Coatings Based on Borides of Metals</b> A.S. Larionov, L.V. Chekushina and E.E. Suslov	660
<b>Crystallization Peculiarities of White Glass-Enamel Coatings for Steel Products</b> L.V. Klimova, A.V. Ryabova and A.Y. Fanda	665
<b>Research on Wear Resistance of Multifunctional Coatings Used in the Manufacture of Art and Industrial Products</b> A.K. Prokopenko, A.P. Golubev and A.A. Korneev	670
<b>Efficient Technological Control of the Processing of Bearing Rollers</b> L. Vainer and U. Gamolya	675
<b>Experience and Perspectives of Electrodeposition from Electrolytes-Colloids of Nickel Plating</b> L.A. Degtyar, I.Y. Zhukova and V.I. Mishurov	682
<b>Functional Galvanic Coatings of the Cr-Zn System</b> V.T. Fomichev, A.V. Savchenko and G.P. Gubarevich	688
<b>Influence of Thermomechanical Treatment Modes on Wear Resistance of Mining Equipment Material</b> S. Chupin and V.I. Bolobov	695
<b>Influence of Zirconia Powder Fractional Composition on Microstructure and Properties of Thermal Barrier Coating Obtained by Thermal Spraying</b> V.Y. Hristosova, O.S. Bondareva and S. Konovalov	700
<b>Investigation on Producing the Flux Cored Wire Modified with Concentrated Complex from Tomtor Mineral Assets</b> A.K. Kychkin, G.G. Vinokurov and N.F. Struchkov	706
<b>Production of an Electrolytic Alloy Nickel-Tin-Bor</b> A.V. Khramenkova, K.A. Shpanova and D.N. Ariskina	712
<b>Protective Coating Based on Siloxane Polymer Nanopatterned by Alkoxytitanate</b> V.Y. Chukhlanov, O.G. Selivanov and N.V. Chukhlanova	718
<b>Technical Support for the Health of the Reducers of Construction Machines on the Basis of Application Device for the Application of Hard Coatings</b> O.V. Burlachenko, V.N. Zlobin and A.O. Burlachenko	724
<b>The Calculation of the Thickness of Thermal Spray Coating for Protection of Low Alloyed Steel when Heated under Rolling</b> A.A. Gerasimova, A.G. Radyuk and A.Y. Zarapin	729
<b>Wear Resistance of a Composite Galvanic Coating Based on the Nickel-Cobalt Alloy</b> A.V. Arzumanova, A.V. Starunov and K.A. Shpanova	735
<b>The Impact of Zinc Coating Specifications on Corrosion Resistance and Durability of Steels</b> I.A. Kovalenko, D.V. Laskin and A.Y. Trifonova	740

## **Chapter 5: Functional Materials**

<b>Efficiency of Hybrid Sintering Technology for Cemented Carbide Diamond-Containing Composites with Impregnation, Including Thermal Diffusion Metallization of Diamonds</b> P.P. Sharin, M.P. Akimova and S.P. Yakovleva	749
--	-----

<b>Features of the Structural-Phase State of the Diamond-Matrix Boundary Zone in Diamond-Containing Composite Materials</b> P.P. Sharin, M.P. Akimova and S.P. Yakovleva	756
<b>Structural-Phase State of the Diamond-Matrix Transition Zone in Hard-Alloy Diamond-Containing Composites with Diffusion Metallization of Diamonds during Sintering with Impregnation</b> P.P. Sharin, M.P. Akimova and S.P. Yakovleva	763
<b>Interaction of Tops of Domains in Metal Nano of the Film</b> V.P. Panaetov and D.B. Solovev	771
<b>Investigation of the Model Paraffin Systems for Development of Thermal Insulation of Pipelines in Permafrost Zone</b> I.K. Ivanova, M.E. Semenov and V.V. Koryakina	776
<b>Noncontact Control by Laser Conoscopy of Optical Homogeneity of Heavily Doped <math>\text{LiNbO}_3\text{: Zn}</math></b> O. Pikoul, N.V. Sidorov and M.N. Palatnikov	781

## **Chapter 6: Computational Procedures, Measurements, Modelling and Simulation in Materials Science**

<b>Numerical Modeling of Thermal Stress State of "Shell Mold-Casting" System with Phase Change when Investment Casting</b> V.I. Odinokov, A.V. Sviridov and E.A. Dmitriev	791
<b>On the Dislocation Contribution to the Dielectric Loss in the Materials with Piezoelectric Properties</b> V.N. Nechaev and V.V. Dezhin	796
<b>Prediction of the Mechanical Characteristics of Reinforced Thermoplastic Composite Materials Used in Aviation</b> A.N. Anoshkin, P.V. Pisarev and G.S. Shipunov	801
<b>Spherically Symmetric Shock Waves in Materials with a Nonlinear Stress-Strain Dependence</b> V.E. Ragozina and Y.E. Ivanova	807
<b>Stress Investigation in Pavement Layers and a New Calculation Model</b> A.S. Aleksandrov, A.V. Smirnov and T.V. Semenova	813
<b>Structural Analysis of Factors Influencing the Functionality of Subgrade of Transport Constructions</b> G. Dukhovny, S. Zolotykh and A. Bodyakov	821
<b>Synthesis of Ceramic and Glass Ceramic Matrices with Immobilized Cesium Radionuclides for Active Zones of Ionizing Radiation Sources</b> A.A. Belov, O.O. Shichalin and E.K. Papynov	827
<b>Method for Construction of Forming Limit Diagram by Using Reference Mechanical Characteristics of the Metal</b> S.I. Feoktistov and K.Z. Soe	833
<b>Technique for the Development of the Technological Process for the Tightening of Aircraft Parts on CNC Presses</b> S.I. Feoktistov and M.M. Pogartseva	839
<b>The Method of Prediction Climatic Loads on the Building Enclosures</b> D.Y. Zheldakov	845
<b>The Strain of a Plane Sample at the Homogeneous Field of the Strain Rates under the Plane Strain Conditions</b> A.L. Grigorieva, Y.Y. Grigoriev and A.I. Khromov	857
<b>Control Quality of Composite Materials by Using Subminiature Eddy Current Transducers</b> S. Dmitriev, A. Ishkov, V.N. Malikov and A. Sagalakov	866
<b>Fields of a Finite Strain Tensor in the Neighborhood of Discontinuity of the Velocity Field of Displacements under Axisymmetric Strain</b> O.V. Kozlova, E.P. Zharikova and A.I. Khromov	873
<b>Influence of Alternating Current Frequency on Output Voltage at Electromagnetic Method of Metal Control</b> I.R. Kuzeev, A.S. Valiev and V.Y. Pivovarov	879

<b>Investigation of the Influence of the Location of the Unified Mass on the Formed Vibrations of a Thin Containing Extended Shell</b> O.E. Sysoev, A.Y. Dobryshkin, N.S. Naing and A.V. Baenkhaev	885
<b>Mathematical Model Approach to the Solidification of Different Geometry Ingots and the Development of Shrinkage Defects in them</b> D.V. Rutsky, N.A. Zyuban and S.B. Gamanyuk	893
<b>Mathematical Modeling the Nonlinear 1D Dynamics of Elastic Heteromodular and Porous Materials</b> O.V. Dudko, V.E. Ragozina and A.A. Lapteva	899
<b>Measurement of Sphericity Using Different Basic Spheres</b> F.V. Grechnikov, A.V. Kochetkov and O.V. Zakharov	906
<b>Microcrystalline Cellulose from Lignocellulosic Material Activated by Steam Explosion Treatment and Mathematical Modeling of the Processes Accompanying its Preparation</b> D.B. Prosvirnikov, N.F. Timerbaev and R.G. Safin	911
<b>Modeling of Tribological Characteristics of Specimens with Wear-Resistant Coating Using Dummy Variables</b> N. Loginov, O. Khudyakova and E. Orlova	919
<b>Modeling the Propagation of Elastic Ultrasonic Waves in Isotropic and Anisotropic Materials when Excited by Various Sources</b> H. Khon, O.V. Bashkov, S.V. Zolotareva and D.B. Solovev	926
<b>Study of the Possibility of Estimating the Size of the Fractional-Dimensional Surface Layer by Electromagnetic Methods</b> I.R. Kuzeev and V.Y. Pivovarov	932
<b>Development of Methodological Support for the Study of Materials' Air Permeability</b> I.A. Sheromova and A.S. Zheleznyakov	938
<b>Electron-Induced Effects at Diagnostics and Modification of Ferroelectrics: Mathematical Modelling, Simulation and Optimal Control</b> A. Maslovskaya and A. Pavelchuk	944
<b>Modeling of Aerated Cement Concrete Structure and Increasing its Crack Resistance</b> D. Korotkikh, D. Panfilov and A. Polikutin	951
<b>Fracture Mechanics when Studying the Long-Term Strength of Concrete</b> I.L. Shubin, V.V. Dorkin and P.S. Sulytsova	957
<b>Diagnosing of the Predestruction Condition of Metal Constructions Elements</b> V.P. Gulyaev and P.P. Petrov	963
<b>Calculation of Reinforced Concrete Prismatic Shells by the Finite Element Method Using Variable Elasticity Parameters</b> V. Kruglov and V. Iurchenko	969
<b>Computer Modeling of the Process of Synthesis of Porous Glass-Composite Materials</b> L.A. Yatsenko, E.A. Yatsenko and B.M. Goltsman	975

## **Chapter 7: Materials and Technologies in Environmental Engineering and Waste Recycling**

<b>Composite Sorbent Filter Material on the Basis of Man-Caused and Minerals</b> D.O. Ignatkina, E.V. Moskvicheva and A.A. Voytyuk	983
<b>Planning Measures for Environmentally Safe Handling with Extremely and Highly Hazardous Wastes in Industrial, Building and Transport Complex</b> E. Tskhovrebov, E. Velichko and U. Niyazgulov	988
<b>The Roller Press Required Spreading Force Determination for Obtaining High-Quality Briquettes from Pulverized-Coal Waste of Blast Furnaces</b> E.A. Shishkin and S.N. Ivanchenko	995
<b>To the Question of Studying the Regimes of Electro-Plasma Processing of Technogenic Wastes of Incineration Plants of the PRC for the Production of Melt and Fibrous Materials</b> S.L. Buyantuev, A.S. Kondratenko and S.A. Blagochinnov	1001
<b>Justification of the Water-Cement Ratio Decision for Cement Mixtures Using CBPB Wastes</b> V. Ezerskiy, N.V. Kuznetsova and A.D. Seleznev	1009
<b>Modern Building Materials Using Waste from the Dismantling of Buildings and Structures</b> L.L. Maslennikova, N.A. Babak and I.A. Naginskii	1016

<b>Development of Flux Cored Wire Using Concentrates and Mining Industry Waste Products in the Far East</b>	
V.M. Makienko, L.B. Leontiev, P.V. Sokolov and A.V. Atenyaev	1024
<b>Autoclave Composites Containing Ferriferous Industrial By-Products</b>	
A. Fomin, P. Khavanov and M.I. Kozhukhova	1030
<b>Sludge of the Fuel-Energy and Oil-Producing Complex in the Production of Wall Ceramic Products</b>	
V.A. Gurieva, A.V. Doroshin and V.V. Dubineckij	1036
<b>The Prospects of Use of Eco-Friendly Materials in the Cement Industry</b>	
V.V. Luchkina	1043
