

Table of Contents

Dedication

Preface

CONTENTS

Acronyms and Abbreviations

Part A. In the Beginning. Chapter A-1. From the Cosmic to the Mundane

R.C. Sangster 1

Chapter A-2. Book Purpose and Design, Writing Conventions 3

Chapter A-3. Historical Comments re Silicon Nitride Studies 6

Chapter A-4. Natural Occurrence of Si_3N_4 12

Chapter A-5. Major Reviews on Formation of Silicon Nitride 17

Part B. Technical Context of Silicon Nitride Formation

R.C. Sangster 19

Chapter B-1. The Si-N System 21

Chapter B-2. Si_3N_4 Phases and Crystallography 23

Chapter B-3. Phase Chemistry of $\alpha\text{-Si}_3\text{N}_4$ – $\beta\text{-Si}_3\text{N}_4$ – $\delta\text{-Si}_3\text{N}_4$ 33

Chapter B-4. High Pressure Phase Chemistry of Si_3N_4 54

Chapter B-5. Silicon Nitride Solid Solutions 64

Chapter B-6. Phase Diagram Sources for Si_3N_4 & SiAlON Ceramic Systems 73

Chapter B-7. Thermodynamics of Si_3N_4 85

Chapter B-8. Self-Diffusion in Si_3N_4 92

Chapter B-9. Compositional and Phase Analysis of Si_3N_4 94

Chapter B-10. Si_3N_4 Toxicology and Safety 119

Chapter B-11. Engineering Aspects of Silicon Nitride Production 121

Chapter B-12. General Comments on Formation Chemistry of Silicon Nitride 124

Pat C. Si_3N_4 Products, Uses and Markets

R.C. Sangster 127

Chapter C-1. Survey of Applications and Markets for Si_3N_4 Materials 129

Chapter C-2. Sintered Silicon Nitride Ceramics 148

Chapter C-3. Overview of Production of Silicon Nitride Powders 182

Chapter C-4. Overview of Si_3N_4 Whiskers, Fibers, and Filaments 198

Chapter C-5. Overview: Si_3N_4 Films, Coatings, Membranes, Massive CVD 201

Chapter C-6. Si_3N_4 Products by Transformation of Si_3N_4 Source Materials 206

Illustrative Applications I: SRBSN in Automotive Technology. 212

Part D. Si_3N_4 by Reaction of Si(cr) Surfaces and N-Species

R.C. Sangster 213

Chapter D-1. Comments re Si(s,R,g)/N-Species Preparative Reactions 215

Chapter D-2. Si_3N_4 from Si(cr/Surface) / N_2 (g) 220

Chapter D-3. Si_3N_4 from Si(cr)/Activated Nitrogen 249

Chapter D-4. Si(cr)/N-Ions I. Basic Phenomena of Si_3N_4 Formation 255

Chapter D-5. Si(cr)/N-Ions II. Ion Plating of Si_3N_4 Surface Films 272

Chapter D-6. Si(cr)/N-Ions III. Ion Implantation of Buried Si_3N_4 Layers 284

Part E. Si_3N_4 Powder Formation from Si(Powder)/ N_2 (g)

R.C. Sangster 307

Chapter E-1. Basic Phenomena in Si_3N_4 Formation via Si(Powder)/ N_2 (g) 308

Chapter E-2. Si_3N_4 Powder from Si(powder)/ N_2 /(Impurities & Additives) 321

Chapter E-3. Preparation of Si_3N_4 Powder via Si(powder)/ N_2 344

Illustrative Applications II: SRBSN in Modern Diesel Engines. 356

Part F. Fabrication of Reaction Bonded Silicon Nitride	
R.C. Sangster	357
Chapter F-1. RBSN Introduction and Summation	359
Chapter F-2. Reaction Bonded Silicon Nitride Basics	368
Chapter F-3. RBSN Si Powder Effects and Processing	390
Chapter F-4. RBSN Green Shape Effects, Forming, Presintering, Machining	396
Chapter F-5. RBSN Nitridation	407
Chapter F-6. RBSN Product-Process Observations	416
Chapter F-7. RBSN Coating and Impregnation	426
Chapter F-8. Variant Versions of Reaction Bonded Si₃N₄	432
Chapter F-9. Doped/Filled/Reinforced RBSN Ceramics	437
Chapter F-10. SRBSN: Post-Sintering of RBSN	442
Part G. Si₃N₄ from Si/N₂ Under Vigorous Conditions	
R.C. Sangster	449
Chapter G-1. Si₃N₄ Formation via Si(R)/N₂ Reactions	450
Chapter G-2. Si(powder)/N₂(g) Combustion Synthesis of Si₃N₄	455
Chapter G-3. SHS Production of Si₃N₄ Powders, Whiskers and Fibers	470
Chapter G-4. Si₃N₄ by Si/N₂ Reactive Sputtering	475
Chapter G-5. Si₃N₄ via Si/N₂ Reaction in Thermal Plasmas	487
Chapter G-6. Si₃N₄ Formation via Si(g)/N₂, N, N-Plasma, N-Ion Reactions	490
Chapter G-7. Si₃N₄ Formation via Si₊/(N-Plasma, N-Ion) Reactions	494
Chapter G-8. Mechano(-electro)chemical Nitridation of Si Powder	495
Part H. Si₃N₄ Formation by Reaction of Si with N-Compounds	
R.C. Sangster	497
Chapter H-1. Introduction to Si/N-Compound Reactions	498
Chapter H-2. Si₃N₄ Formation by Thermal Reactions of Si(s)/NH₃(g)	501
Chapter H-3. Si₃N₄ via Stimulated Reactions of Si(s)/NH₃(g)	524
Chapter H-4. Si₃N₄ Formation in other Si/NH₃ Reaction Systems	530
Chapter H-5. Si(powder)/NH₃(g) Powder Production in Thermal Plasmas	535
Chapter H-6. Si₃N₄ from Si(s) Plus N-N Bonded and other N-Compounds	539
Part Í. Si₃N₄ by Nitridation of Si-O Based Materials	
R.C. Sangster	545
Chapter Í-1. Si₃N₄ Formation via SiO(g,s)/(N₂,NH₃)/(H₂,C,CH₄)	547
Chapter Í-2. Si₃N₄ via C-Free Nitridation of SiO_xH_y, SiO₂, Si₂N₂O	550
Chapter Í-3. SiO₂/C/N₂: Si₃N₄ by Carbothermal Nitridation of SiO₂	557
Chapter Í-4. Si₃N₄ via other SiO₂ Carbothermal Nitridation Systems	596
Chapter Í-5. SiO₂ Carbothermal Nitridation Impurity/Additive Effects	602
Chapter Í-6. Si₃N₄ via Carbonitridation of Si-O Containing Materials	613
Part J. Si₃N₄ Formation Si-N Based Materials	
R.C. Sangster	627
Chapter J-1. Introduction to Si₃N₄ from Si-N Based Materials	628
Chapter J-2. Si₃N₄ Formation by Reactions of Si-N Materials	629
Chapter J-3. Si₃N₄ from Pyrolysis/Nitridation of Si-N-H Materials, General	630
Chapter J-4. Si₃N₄ Preparation by Pyrolysis of Si(NH)₂	639
Chapter J-5. Si₃N₄ via Decomposition of Other Si-N-X Compounds	658
Part K. Comparative Overview and Summary of Si₃N₄ CVD	661
Chapter K-1. Chemical Vapor Deposition of Si₃N₄: Fundamentals	662
Chapter K-2. Methods for CVD of Si₃N₄ Thin Films	679
Part L. Si₃N₄ by CVD Nitridation of Si-H Compounds	
R.C. Sangster	701
Chapter L-1. Preamble: Si₃N₄ CVD from Silanes	703

Chapter L-2. Si₃N₄ Chemical Vapor Deposition from SiH₄/N₂	704
Chapter L-3. Si₃N₄ from SiH₄/NH₃ Thermal Reactions	724
Chapter L-4. Si₃N₄ Formation via Stimulated CVD from SiH₄/NH₃	757
Chapter L-5. SiH₄/NH₃(g) Formation of Si₃N₄ Powder	773
Chapter L-6. Si₃N₄ Formation from SiH₄/N₂H₄/(NH₃,N₂,H₂)	785
Chapter L-7. Si₃N₄ via Other SiH_x CVD Nitridation Systems	789
Part M. Si₃N₄ by CVD Nitridation of Si Halides and Halosilanes R.C. Sangster	795
Chapter M-1. Preamble Re Si₃N₄ CVD from Si Halides and Halosilanes	797
Chapter M-2. Si₃N₄ via CVD Nitridation of Silicon Fluorides	799
Chapter M-3. Si₃N₄ Formation via SiCl₄/(N₂,NH₃)/(H₂,Ar,He) Reactions	808
Chapter M-4. Si₃N₄ from SiCl₄/NH₃ Reactions in Thermal Plasmas	834
Chapter M-5. Si₃N₄ Formation in Other SiCl_x Nitridation Systems	844
Chapter M-6. Si₃N₄ by Nitridation CVD from SiHCl₃	850
Chapter M-7. Si₃N₄ Formation via SiH₂Cl₂ Nitridation	855
Chapter M-8. Si₃N₄ by CVD Nitridation of SiH₃Cl, SiBr₄, SiHBr₃, SiI₄	880
Part N. Si₃N₄ Formation in Si-C-N Systems R.C. Sangster	883
Chapter N-1. Si₃N₄ from Si-C-N-H(-Cl) CVD Reaction Systems	884
Chapter N-2. Si₃N₄ via Pyrolysis/Nitridation of SiC and Si-C-N Materials	898
Chapter N-3. Si₃N₄ from Pyrolysis/Nitridation of Organosilicon Polymers	905
Part O. Si₃N₄ Formation in Si-N-X Systems, X = B, P, S, Fe, Other R.C. Sangster	927
Chapter O-1. Si₃N₄ Formation in Si-N-(B, P, S) Systems	928
Chapter O-2. Si₃N₄ <i>In Situ</i> Formation in Iron and Steel Alloys	931
Chapter O-3. Si₃N₄ Preparation by Reactions of Fe-Si Alloys and N₂	940
Chapter O-4. Si₃N₄ Formation in <i>Non-Fe</i> Metal–Silicon–Nitrogen Systems	941
